Political Crises, Social Conflict and Economic Development Andrés Solimano, 2005-01-01 Political Crises Social Conflict and Economic Development is a rare attempt to undertake comparative political economy analysis of the Andean region and thus represents a welcome contribution It is clearly written and will engage scholars interested in Latin America from a wide range of disciplines Jonathan di John Journal of Agrarian Change This collection of essays on the political economy of the Andean region goes to the heart of the struggle these smaller economies face in completing crucial reforms and achieving higher growth Andr s Solimano has brought together the best and the brightest talent from each country the result being the most compelling analysis ever of how enclave development and a historical dependence on primary exports renders these countries distinctly Andean As the essays argue the political solutions and economic remedies must address this phenomenon rather than mimicking those strategies of the larger emerging market countries in the region Carol Wise University of Southern California US The contributors to this authoritative volume analyze the impact of political crises and social conflict on economic performance in the Andean region of Latin America The blend of theory and case studies is also relevant for understanding other complex societies in the developing world and transition economies The book provides illuminating insights on how to understand and survive the complicated interactions between volatile politics unstable democracies violence social inequality and uneven economic performance Recent political economy theories are combined with valuable quantitative and qualitative information on presidential crises breakdowns of democracy constitutional reforms quality of institutions and social inequality and exclusion to understand actual country realities Part I provides the conceptual framework and a regional perspective of the book Part II contains five political economy country studies Bolivia Colombia Ecuador Peru and Venezuela written by leading scholars in the field and former senior policymakers including a former President Together the chapters highlight the detrimental effects of political instability and social conflict on economic growth and stability as well as the feedback effects from poor economic performance on political instability and institutional fragility The country studies warn that narrow economic reforms that do not pay adequate attention to politics institutions and social structures are bound to fail in bringing lasting prosperity and stability to complex societies Examining new and rich information on episodes of political turmoil military interventions forced presidential resignations constitutional reforms and social uprisings this book will be required reading for all those interested in the interface of politics and economic development

Social Conflict and Educational Change in England and France 1789-1848 Michalina Vaughan, Margaret Scotford Archer, 2010-06-24 This book analyses the processes of educational change in England and France by relating political social economic and ideological trends to the changing pattern of educational institutions from the time of the Industrial and French revolutions The authors first assess the

relevance of major sociological theories for the interpretation of the main trends in education in both countries in the first half of the nineteenth century They then put forward an alternative approach derived from Weber which links educational change with social conflict This theory of domination and assertion of groups competing for control over formal instruction before the emergence of the state system is applied to England and France in this period The main part of the book is devoted to a more detailed analysis of the competing groups in both countries and of their ideologies which served as blueprints for educational reform

Social Conflict, Economic Development and Extractive Industry Anthony Bebbington, 2011-09-27 The extraction of minerals oil

and gas has a long and ambiguous history in development processes in North America Europe Latin America and Australasia Extraction has yielded wealth regional identities and in some cases capital for industrialization In other cases its main heritages have been social conflict environmental damage and underperforming national economies As the extractive economy has entered another boom period over the last decade not least in Latin America the countries in which this boom is occurring are challenged to interpret this ambiguity Will the extractive industry yield for them economic development or will its main gifts be ones of conflict degradation and unequal forms of growth This book speaks directly to this question and to the different ways in which Latin American countries are responding to the challenge of extractive industry The contributors are a mixture of geographers economists political scientists development experts and anthropologists who all draw on sustained field work in the region By digging deep into both national and local experiences with extractive industry they demonstrate the ways in which it transforms economies societies politics and environments They pay particular attention to the social conflict that extraction consistently produces and they ask how far this conflict might usher in political and institutional changes that could lead to a more productive relationship between extraction and development They also ask whether the existence of left of centre governments in the region changes the relationships between extractive industry and development The book makes clear the immense difficulties that countries and regional societies face in harnessing extractive industry for the collective good For the most part the findings question the wisdom of the development model that many countries in the region have taken up and which emphasises the productive roles of mining and hydrocarbon industries The book should be of interest to students and researchers of Development Studies Geography Politics and Political Economy as well as Anthropology

Beggan, 2022-09-07 For the last twenty thousand years dogs and people have shared a unique bond in the animal kingdom In *How Our Love of Dogs Creates Social Conflict* James K Beggan uses symbolic interaction to examine the meaning that dogs have for people as friends and family members Although many animal rights advocates express dismay over the subordinate status ownership implies the author argues that ownership creates a powerful psychological connection that makes it easier for people to imbue dogs with humanlike characteristics Beggan outlines how dogs sensitivity to inequity in combination with a high degree of cognitive capacity makes it possible for dogs to be active agents in creating conflict between people The author s analysis of social conflict between people over their dogs connects to profound philosophical concepts about the nature of mind the relationship between humans and animals and the moral responsibility human beings have to dogs and other animals Primate Social Conflict William A. Mason, Sally P. Mendoza, 1993-03-24 This book examines conflict as a normal and recurrent feature of primate social life emphasizing that the study of aggression and social conflict is important to understanding the basic processes that contribute to social order The authors go well beyond the usual view which tends to equate social conflict with fights over food mates or social supremacy and analyze the diverse manifestations and significance of conflict in a variety of case studies Contributors are scientists with field and laboratory experience in anthropology behavioral endocrinology ethology and psychology Utilizing the growing body of research on life span development in primatology the authors offer more extensive analyses of the complexity of primate social relationships Environmental Crime and Social Conflict Avi Brisman, Nigel South, Rob White, 2016-03-09 This impressive collection of original essays explores the relationship between social conflict and the environment a topic that has received little attention within criminology The chapters provide a systematic and comprehensive introduction and overview of conflict situations stemming from human exploitation of environments as well as the impact of social conflicts on the wellbeing and health of specific species and ecosystems Largely informed by green criminology perspectives the chapters in the book are intended to stimulate new understandings of the relationships between humans and nature through critical evaluation of environmental destruction and degradation associated with social conflicts occurring around the world With a goal of creating a typology of environment social conflict relationships useful for green criminological research this study is essential reading for scholars and academics in criminology as well as those interested in crime law and justice **Social Conflict and the Theory of Social Change** , 1983 Governance, Conflict Analysis and Conflict Resolution Cedric Hilburn Grant, R. Mark Kirton, 2007 Decades after our contemporary international system witnessed the end of the Second World War the events that followed in

its aftermath has fashioned an international system characterized by global conflict in the guise of the Cold War Although wars were part of the struggle between the two rival super powers the US and USSR their main theatre was the Third World and hostilities during the Cold War era were global It is against this backdrop that Governance Conflict Analysis and Conflict Resolution addresses conflict in the Caribbean and elsewhere exploring the linkages between conflict and development The book is divided into eight sections and offers diverse views on conflict conflict resolution and governance Part I Governance and Conflict Management in a Global Context Part II Management and resolution of Conflict in the Regional Context Part III Perspectives on Social Stratification Political Rivalry and Ethnic Insecurities Part IV High Intensity Conflicts Part V The Management and Resolution of Territorial Conflicts Part VI Poverty Economics and Conflict Management Part VII Advancing Conflict Resolution through Education and Part VIII Civil Society Governance and Social Consensus

The Dynamics of Social Movements in Hong Kong Stephen Wing Kai Chiu,Tai Lok Lui,2000-01-01 Studies of Hong Kong society have long focused one sidedly upon economic prosperity and political stability Contributors to this volume redress this imbalance by taking a critical view of Hong Kong s political development from the perspectives of social conflict and collective action Instead of looking at Hong Kong from the top this volume documents the active role played by local actors from below political groups student activists trade unions women groups environmentalists and community organizers and their impact on social and political development in Hong Kong society in the context of political transition and democratization economic restructuring and an emergent local identity

The Management of Protracted Social Conflict Edward E. Azar,1990

International Conflict Resolution and Peacebuilding Strategies Daniela Nascimento,2017-02-17 The analysis and interpretation of conflicts can be a dangerously simplistic exercise A western developed socio economic perspective can simplify conflicts in the so called Third World as the inevitable struggles of people who cannot coexist because of ethnic religious or cultural differences While acknowledging that many contemporary conflicts are characterised and influenced by these factors this book calls for an approach to conflict prevention and resolution which mainly addresses the underlying political economic and social causes The conflict in Sudan where narratives evolved from an interpretation based on religious differences between a Muslim North and the Christian South provides a case study through which the author explores how most prevention and resolution strategies were based on flawed assumptions leading to poor results By focusing instead on the underlying socio economic inequality and marginalisation among groups she analyses the dynamics of the complex peace process to ascertain if and how economic and social rights were effectively included and implemented as a part of the peace agreement including after South Sudan s independence
