## **Talking Heads Cd:**

**Talking Heads** ,1977      Talking Heads Ian Gittins,2004 Book A superbly illustrated in depth examination of the stories events places and characters that inspired the songs of the Talking Heads arguably the most significant band to emerge from the late 70s New York punk scene based around CBGB s club Led by guitarist vocalist David Byrne the band enjoyed major chart success on both sides of the Atlantic with infectious incendiary singles like Road to Nowhere Psycho Killer and Once in a Lifetime During their influential seventeen year career Talking Heads assembled a body of raw yet intellectual rock music second to none Then in 2002 having vowed to never work together again the four original Heads reconvened and played live when they were inducted into the Rock and Roll Hall of Fame Ian Gittins has written about music and popular culture for fifteen years for such varied publications as Melody Maker Q The Guardian Daily Telegraph Time Out MTV and the New York Times He lives in London England      Compact Disc Robert Barry,2020-03-19 Object Lessons is a series of short beautifully designed books about the hidden lives of ordinary things The story of the compact disc is also the story of the end of physical media It is the story of how the quest for perfection laid the grounds for the death of a great industry For in the passage from analogue media like records and tapes to digital formats like CDs something changed in the nature of media and in the relationship we have with music Music became code a sequence of 1s and 0s a flow of pure information The material structure of the medium itself was always supposed to disappear But the physical has proved to possess an uncanny knack for returning Today the CD is a zombie medium still popular amongst certain avant garde record labels and Japanese consumers Against all the odds the spectre endures Object Lessons is published in partnership with an essay series in The Atlantic      *The Album* James E. Perone,2012-10-17 This four volume work provides provocative critical analyses of 160 of the best popular music albums of the past 50 years from the well known and mainstream to the quirky and offbeat *The Album A Guide to Pop Music s Most Provocative Influential and Important Creations* contains critical analysis essays on 160 significant pop music albums from 1960 to 2010 The selected albums represent the pop rock soul R B hip hop country and alternative genres including artists such as 2Pac Carole King James Brown The Beatles and Willie Nelson Each volume contains brief sidebars with biographical information about key performers and producers as well as descriptions of particular music industry topics pertaining to the development of the album over this 50 year period Due to its examination of a broad time frame and wide range of musical styles and its depth of analysis that goes beyond that in other books about essential albums of the past and present this collection will appeal strongly to music fans of all tastes and interests
