Talking Politics The Substance Of Style From Abe To W:

Talking Politics Michael Silverstein, 2003 If politics as practiced is talk then how does a political figure especially an American President talk politics If someone can be all style and no substance is there any actual political substance to style Talking Politics looks at the alpha and omega of presidential image its highs Lincoln at Gettysburg and lows W at any microphone demystifying the spun mists of political message on which an institution like the American presidency has always depended *Talking Donald Trump* Jennifer Sclafani, 2017-08-07 Talking Donald Trump examines the language of Donald Trump s presidential campaign from the perspective of sociocultural linguistics This book offers an insight into the many stages of Trump s political career from his initial campaign for the Republican nomination up to his presidency Drawing from speeches debates and interviews as well as parodies and public reactions to his language Sclafani explores how Trump s language has produced such polarized reactions among the electorate In analysing the linguistic construction of Donald Trump s political identity Sclafani s incisive study sheds light on the discursive construction of political identity and the conflicting language ideologies associated with the discourse of leadership in modern US society Talking Donald Trump provides a crucial contemporary example of the interaction between sociolinguistics and political science and is key reading for advanced students and researchers in the fields of sociolinguistics language and politics communication studies and rhetoric

Tamil Oratory and the Dravidian Aesthetic Bernard Bate, 2009-10-06 This is a book about the newness of old things It concerns an oratorical revolution a transformation of oratorical style linked to larger transformations in society at large It explores the aesthetics of Tamil oratory and its vital relationship to one of the key institutions of modern society democracy Therefore this book also bears on the centrality of language to the modern human condition Though Tamil oratory is a relatively new practice in south India the Dravidian or Tamil nationalist style employs archaic forms of Tamil that suggest an ancient mode of speech Beginning with the advent of mass democratic politics in the 1940s a new generation of politician adopted this style known as fine or beautiful Tamil centamil for its distinct literary virtuosity poesy and alluring evocation of a pure Tamil past Bernard Bate explores the centamil phenomenon arguing that the genre s spectacular literacy and use of ceremonial procession urban political ritual and posters praise poetry are critical components in the production of a singularly Tamil mode of political modernity a Dravidian neoclassicism From his perspective the centamil revolution and Dravidian neoclassicism suggest that modernity is not the mere successor of tradition but the production of tradition and that this production is a primary modality of modernity a new newness albeit a newness of old things *The ^AOxford Handbook of Language and Race* H. Samy Alim, Angela Reyes, Paul V. Kroskrity, 2020-10-02 The Oxford Handbook of Language and Race is the first volume to offer a sustained theoretical exploration of all aspects of language and race from a linguistic anthropological perspective Using state of the art research from a rapidly expanding field this handbook reveals the ways in which language and race are mutually constituted as social realities It offers theoretical reflexive takes on the

field of language and race the larger histories and systems that influence these concepts the bodies that enact and experience them and finally the expressions and outcomes that emerge as a result *Encyclopedia of Language and Linguistics* ,2005-11-24 The first edition of ELL 1993 Ron Asher Editor was hailed as the field s standard reference work for a generation Now the all new second edition matches ELL s comprehensiveness and high quality expanded for a new generation while being the first encyclopedia to really exploit the multimedia potential of linguistics The most authoritative up to date comprehensive and international reference source in its field An entirely new work with new editors new authors new topics and newly commissioned articles with a handful of classic articles The first Encyclopedia to exploit the multimedia potential of linguistics through the online edition Ground breaking and International in scope and approach Alphabetically arranged with extensive cross referencing Available in print and online priced separately The online version will include updates as subjects develop ELL2 includes c 7 500 000 words c 11 000 pages c 3 000 articles c 1 500 figures 130 halftones and 150 colour Supplementary audio video and text files online c 3 500 glossary definitions c 39 000 references Extensive list of commonly used abbreviations List of languages of the world including information on no of speakers language family etc Approximately 700 biographical entries now includes contemporary linguists 200 language maps in print and online Also available online via ScienceDirect featuring extensive browsing searching and internal cross referencing between articles in the work plus dynamic linking to journal articles and abstract databases making navigation flexible and easy For more information pricing options and availability visit www.info.sciencedirect.com The first Encyclopedia to exploit the multimedia potential of linguistics Ground breaking in scope wider than any predecessor An invaluable resource for researchers academics students and professionals in the fields of linguistics anthropology education psychology language acquisition language pathology cognitive science sociology the law the media medicine computer science The most authoritative up to date comprehensive and international reference source in its field **The Oxford Handbook of Language and Society** Ofelia García,Nelson Flores (Linguist),Massimiliano Spotti,2017 This book challenges basic concepts that have informed the study of sociolinguistics It proposes a critical poststructuralist perspective that examines the socio historical context that led to the emergence of dominant sociolinguistic concepts and develops new theoretical and methodological tools that challenge these dominant concepts *The Limits of Meaning* Matthew Eric Engelke,Matt Tomlinson,2006 Too often anthropological accounts of ritual leave readers with the impression that everything goes smoothly that rituals are meaningful events But what happens when rituals fail or when they seem meaningless Drawing on research in the anthropology of Christianity from around the globe the authors in this volume suggest that in order to analyze meaning productively we need to consider its limits This collection is a welcome new addition to the anthropology of religion offering fresh debates on a classic topic and drawing attention to meaning in a way that other volumes have for key terms like culture and fieldwork **Wedding, Gender, and Performance in Ancient Greece** Andromache Karanika,2024-09-11 Wedding Gender and Performance in

Ancient Greece traces the wedding song tradition its imagery and its tropes as a genre that became crystallized throughout the ages It explores how wedding poetics permeates ancient Greek literature It first analyzes how explicit or implicit matrimonial references shape archaic epic diction and become an integral part of epic discourse orally circulating texts such as wedding songs could have a life of their own but beyond their original context could also become an integral part of a different genre especially epic and drama This author discusses the multiple platforms that enrich the wedding song tradition including children s songs hymns paeans and ululations arguing for a combination of ritualized discourse with ludic childhood poetics With an approach from cognitive and trauma studies such references can be more revealing of the female experience than previously acknowledged This book resists the idea that a wedding constitutes an initiation ritual arguing that what on the surface may seem like a transition to a new phase reveals other underlying trends that work against the concept of a passage It further considers how emotion is staged and revisits the poetics of return by looking at patterns such as the eloping returning failed and dead bride Finally the theme of separation and return as an exemplification of a distinct female nostos is revisited in female authored poetry which helps us decode the complex interweaving of wedding performances and lamentation among other types of performance *Anarchy and the Art of Listening* James

Slotta,2023-06-15 *Anarchy and the Art of Listening* is an ethnography of politics as it is practiced on the other side of the spoken word in the act of listening James Slotta explores how people in the Yopno Valley of Papua New Guinea cultivate their listening to exercise power shape their futures and sustain their communities in the face of ambitious leaders and powerful outside institutions As in many parts of the global south missionaries NGO workers educators mining companies politicians development experts and others have sought to transform life in and around the Yopno Valley But as this book makes clear people there have not been a passive and pliable audience for these efforts They have brought their skills as anarchic listeners to these encounters advancing political agendas of their own To understand political life in the Yopno Valley we need to look not only at political speech but at the practices that lie on the other side of the word in the act of listening This Slotta suggests is also true well beyond the bounds of the Yopno Valley *Discourse, War and Terrorism* Adam

Hodges,Chad Nilep,2007-01-01 *Discourse since September 11* 2001 has constrained and shaped public discussion and debate surrounding terrorism worldwide Social actors in the Americas Europe Asia the Middle East and elsewhere employ the language of the war on terror to explain react to justify and understand a broad range of political economic and social phenomena *Discourse War and Terrorism* explores the discursive production of identities the shaping of ideologies and the formation of collective understandings in response to 9 11 in the United States and around the world At issue are how enemies are defined and identified how political leaders and citizens react and how members of societies understand their position in the world in relation to terrorism Contributors to this volume represent diverse sub fields involved in the critical study of language including perspectives from sociocultural linguistics communication media cultural and political studies

Ancient Egyptian Biographies Elizabeth Froom, Andreas Stauder, Julie Stauder-Porchet, 2020-06-01 Auto biography is a genre of ancient Egyptian written discourse that was central to high culture from its earliest periods Belonging to the nonroyal elites these texts present aspects of individual lives and experience sometimes as narratives of key events sometimes as characterizations of personal qualities Egyptian auto biographies offer a unique opportunity to examine the ways in which individuals fashioned distinctive selves for display and the significance of the physical religious and social contexts they selected The present volume brings together specialists from a range of relevant periods approaches and interests The studies collected here examine Egyptian auto biographies from a variety of complementary perspectives 1 anthropological and contrastive perspectives 2 the original Old Kingdom settings 3 text format and language 4 social dimensions and 5 religious experience

The Economy of Hope Hirokazu Miyazaki, Richard Swedberg, 2017-01-13 In The Economy of Hope hope becomes not only a method of knowledge but also an essential framework for the sociocultural analysis of economic phenomena

Working the Difference E. Summerson Carr, 2023-09-05 A history of motivational interviewing and what its rise reveals about how cultural forms emerge and spread Motivational interviewing MI is a professional practice a behavioral therapy and a self professed conversation style that encourages clients to talk themselves into change Originally developed to treat alcoholics MI quickly spread into a variety of professional fields including corrections medicine and sanitation In Working the Difference E Summerson Carr focuses on the training and dissemination of MI to explore how cultural forms and particularly forms of expertise emerge and spread The result is a compelling analysis of the American preoccupations at MI s core from democratic autonomy and freedom of speech to Protestant ethics and American pragmatism

Bipolar Expeditions Emily Martin, 2009-01-19 Manic behavior holds an undeniable fascination in American culture today It fuels the plots of best selling novels and the imagery of MTV videos is acknowledged as the driving force for successful entrepreneurs like Ted Turner and is celebrated as the source of the creativity of artists like Vincent Van Gogh and movie stars like Robin Williams Bipolar Expeditions seeks to understand mania s appeal and how it weighs on the lives of Americans diagnosed with manic depression Anthropologist Emily Martin guides us into the fascinating and sometimes disturbing worlds of mental health support groups mood charts psychiatric rounds the pharmaceutical industry and psychotropic drugs Charting how these worlds intersect with the wider popular culture she reveals how people living under the description of bipolar disorder are often denied the status of being fully human even while contemporary America exhibits a powerful affinity for manic behavior Mania Martin shows has come to be regarded as a distant frontier that invites exploration because it seems to offer fame and profits to pioneers while depression is imagined as something that should be eliminated altogether with the help of drugs Bipolar Expeditions argues that mania and depression have a cultural life outside the confines of diagnosis that the experiences of people living with bipolar disorder belong fully to the human condition and that even the most so called rational everyday practices are intertwined with irrational ones Martin s own

experience with bipolar disorder informs her analysis and lends a personal perspective to this complex story Some images inside the book are unavailable due to digital copyright restrictions *Translation and Conflict* Mona Baker, 2006-08-21

Translation and Conflict demonstrates that translators and interpreters participate in circulating as well as resisting the narratives that create the intellectual and moral environment for violent conflict Drawing on narrative theory and using numerous examples from historical and contemporary conflicts the author provides an original and coherent model of analysis that pays equal attention to micro and macro aspects of the circulation of narratives in translation to translation and interpreting and to questions of dominance and resistance The study is particularly significant at this juncture of history with the increased interest in the positioning of translators in politically sensitive contexts the growing concern with translators and interpreters divided loyalties in settings such as Guantanamo Iraq Kosovo and other arenas of conflict and the emergence of several activist communities of translators and interpreters with highly politicized agendas of their own including Babels Translators for Peace Tlaxcala and ECOS Including further reading suggestions at the end of each chapter *Translation and Conflict* will be of interest to students of translation intercultural studies and sociology as well as the reader interested in the study of social and political movements

Radical Egalitarianism Stanley J. Tambiah, 2013 Contributions from scholars in anthropology religion and area studies stemming from research in East and Southeast Asia Africa Europe and the Americas collected to represent a form of historically grounded ethnographically driven social science that seeks to understand social phenomena by dialogically engaging global and local perspectives *Ideological Battlegrounds - Constructions of Us and Them Before and After 9/11* Anna Gonerko-Frej, Joanna Witkowska, Uwe Zagratzki, 2017-01-06

Volume 2 of *Ideological Battlegrounds Constructions of Us and Them Before and After 9 11* continues and complements the discussion of the event undertaken in the first part of the two volume publication 2014 This time the focus is put on language and discourse The contributions here volume explore the construction of Us and Them in a variety of pre and post 9 11 texts mainly from the perspectives of political discourse analysis and translation studies The book shows how language in use reflects and retells the tragic event and how it re constructs its actors bringing us closer to understanding the roots and long term consequences of 9 11 The volume is by no means exhaustive of the topic but demonstrates its complexity and continuing relevance for today s world *The Rhetoric of RHETORIC* Wayne C. Booth, 2009-02-09 In this manifesto distinguished critic Wayne Booth claims that communication in every corner of life can be improved if we study rhetoric closely Written by Wayne Booth author of the seminal book *The Rhetoric of Fiction* 1961 Explores the consequences of bad rhetoric in education in politics and in the media Investigates the possibility of reducing harmful conflict by practising a rhetoric that depends on deep listening by both sides

The Sociolinguistics of Globalization Jan Blommaert, 2010-04-08 Human language has changed in the age of globalization no longer tied to stable and resident communities it moves across the globe and it changes in the process The world has become a complex web of villages towns neighbourhoods and settlements

connected by material and symbolic ties in often unpredictable ways This phenomenon requires us to revise our understanding of linguistic communication In *The Sociolinguistics of Globalization* Jan Blommaert constructs a theory of changing language in a changing society reconsidering locality repertoires competence history and sociolinguistic inequality

Metapolitics, Algorithms and Violence Ico Maly, 2023-11-01 *Metapolitics Algorithms and Violence* argues that we need a more finegrained approach to understand contemporary far right violence an approach that takes language and cultural production in a digital economy seriously This book underlines the importance of socio political economic historical and technological context in understanding the rise of the new right More concretely based on a digital ethnographic approach it argues that we should understand this violence and the contemporary rise of new far right practices and actors in relation to the theoretical renewal of La Nouvelle Droite in the 20th century the democratization of new right metapolitics in the 21st century as a result of the rise of digital media and the development of a layered transnational and polycentric new right cultural niche in which far right activists and terrorists produce identity discourse digital cultures and practices This work will be an engaging and necessary read for researchers interested in social media digital culture far right politics extremism and terrorism
