Humphrey Jennings and British Documentary Film: A Re-assessment Philip C. Logan, 2016-05-13 Humphrey Jennings ranks amongst the greatest film makers of twentieth century Britain Although a relatively unknown figure to the wider public his war time documentaries are regarded by many including Lord Puttnam Lindsay Anderson and Mike Leigh as amongst the finest films of their time Groundbreaking both in terms of their technique and their interest in and respect for the everyday experiences of ordinary people these films are much more than mere government propaganda Instead Jennings work offers an unparalleled window into the British home front and the

hopes fears and expectations of a nation fighting for its survival Yet until now Jennings has remained a shadowy figure with his life and work lacking the sustained scholarly investigation and reassessment they deserve As such film and social historians will welcome this new book which provides an up to date and thorough exploration of the relationships between Jennings life ideas and films Arguing that Jennings s film output can be viewed as part of a coherent intellectual exercise rather than just one aspect of the artistic interests of a wide ranging intellectual Philip Logan paints a much fuller and more convincing picture of the man than has previously been possible He shows for the first time exactly how Jennings s artistic expression was influenced by the fundamental intellectual social and cultural changes that shook British society during the first decades of the twentieth century Combining biography social history and international artistic thought the book offers a fascinating insight into Jennings his work the wider British documentary film movement and the interaction between art and propaganda Bringing together assessments of his tragically short life and his films this book is essential reading for anyone with an interest in British cinema or the social history of Britain in the 1930s and 40s

Test Talk Amy H. Greene, Glennon Doyle Melton, 2007 Under No Child Left Behind nearly every teacher faces a high stakes balancing act managing the often incompatible responsibilities of teaching students meaningfully or preparing them for standardized tests Through their experiences teaching at a school that struggled to meet state test standards driven by NCLB authors Amy Greene and Glennon Melton discovered a way to raise scores without compromising their strong beliefs about good teaching and learning In Test Talk Amy and Glennon share their story and their proven approach This compelling book shows that teachers don t have to choose between best practice teaching and test preparation effective test taking strategies can be integrated into authentic reading instruction The authors demonstrate how to improve performance on tests without resorting to teaching to the test mnemonic devices or other gimmicks Instead they focus on encouraging student readers to explore tests as a specific genre containing unique language format and cues Concise and easy to use Test Talk includes lesson plans and practice passages as well as sample questions and suggested language to use during lessons Throughout the book classroom vignettes show how seamlessly one can weave the test genre into reading workshop and connect those specialized skills to more general reading strategies It is an invaluable resource for any teacher who struggles with how to prepare kids for tests without sacrificing real teaching and learning

Seamus Heaney's Regions Richard Rankin Russell, 2014-06-30 Regional voices from England Ireland and Scotland inspired Seamus Heaney the 1995 Nobel prize winner to become a poet and his home region of Northern Ireland provided the subject matter for much of his poetry In his work Heaney explored recorded and preserved both the disappearing agrarian life of his origins and the dramatic rise of sectarianism and the subsequent outbreak of the Northern Irish Troubles beginning in the late 1960s At the same time Heaney consistently imagined a new region of Northern Ireland where the conflicts that have long beset it and by extension the relationship between Ireland and the United Kingdom might be synthesized and resolved Finally there is a third region Heaney committed himself to explore and map the spirit region that world beyond our ken In Seamus Heaney's *Regions* Richard Rankin Russell argues that Heaney's regions the first geographic historical political cultural linguistic the second a future where peace even reconciliation might one day flourish the third the life beyond this one offer the best entrance into and a unified understanding of Heaney's body of work in poetry prose translations and drama As Russell shows Heaney believed in the power of ideas and the texts representing them to begin resolving historical divisions For Russell Heaney's regionalist poetry contains a Hegelian synthesis view of history that imagines potential resolutions to the conflicts that have plagued Ireland and Northern Ireland for centuries Drawing on extensive archival and primary material by the poet Seamus Heaney's *Regions* examines Heaney's work from before his first published poetry volume *Death of a Naturalist* in 1966 to his most recent volume the elegiac *Human Chain* in 2010 to provide the most comprehensive treatment of the poet's work to date
