been told but rather on what they have to tell In *Dropped Threads 3 Beyond the Small Circle* thirty five women open up their own small circles of experience to others in ways that not only illuminate the lives of individual women but add more threads to the already rich tapestry of our collective conversation These essays focus on personal discoveries that for various reasons need to be shared the writers tell us about family secrets sexuality rebellion crevices of deep joy or regret about finding connections to nature to animals to a tribe to which one can belong about embracing forgiveness kindness and new perspectives beyond the circle of individual sight Barbara McLean tells us of the sister she never knew and how recovering her story shed light on how grief can take so many different forms June Callwood explores the continuity that flows between mothers and daughters and the mysterious chance happenings that form character Frances Itani writes about how the voices of the women in her family her aunts and grandmother relaying stories around the kitchen table are as integral to her life as her own genetic code Melanie Janzen sees connections between a Ugandan women s collective and the neighbourhood women of her childhood but has trouble finding a similar community of support in her own life today And in all of the pieces there is a powerful sense that the understanding that comes from writing and reading can enrich our lives beyond measure As Marjorie Anderson writes in her foreword we trust first person narratives precisely because they give us an inside view into someone else s world here as in the best of our personal conversations there are no assertions of absolute truth no earth shaking revelations or attempts to manipulate another s belief just individual voices making individual claims on the discovery of meaning With *Dropped Threads 3 Beyond the Small Circle* Anderson has created a forum in which Canadian women can share their personal discoveries with honesty insight and humour Marjorie Anderson foreword Margaret Atwood June Callwood Tracey Ann Coveart Lorna Crozier Andrea Curtis Norma DePledge Maggie de Vries M A C Farrant Liane Faulder Natalie Fingerhut Lorri Neilsen Glenn Marie Lynn Hammond Harriet Hart Frances Itani Melanie D Janzen Gillian Kerr Chantal Kreviazuk Silken Laumann Jodi Lundgren Ann Marie MacDonald introduction C B Mackintosh Heather Mallick Barbara McLean Barbara Mitchell Bernice Morgan Patricia Pearson Beth Powning Judy Rebick Susan Riley Lauri Sarkadi Barbara Scott Jodi Stone Cathy Stonehouse J C Szasz Aritha van Herk Janice Williamson **The Theatre Guide** Trevor R. Griffiths, 2014-07-04 With over 500 entries on the most important plays and playwrights performed today *The Theatre Guide* provides an authoritative A Z of the contemporary theatre scene From Aristophanes to Mark Ravenhill *The Alchemist* to *The Talking Cure* the Guide is both biographically detailed and critically current while an extensive cross referencing system allows for wider perspectives and new discoveries Stimulating observant and informative *The Theatre Guide* is an essential companion and reference tool for anyone with an active interest in drama *The Pursuit of Parenthood* Margaret Marsh, Wanda Ronner, 2019-08-06 A wide ranging history of assisted reproductive technologies and their ethical implications Finalist of the PROSE Award for Best Book in History of Science Medicine and Technology by the Association of American Publishers Since the 1978 birth of the first IVF baby Louise Brown in England more than eight million children have been

born with the help of assisted reproductive technologies From the start they have stirred controversy and raised profound questions Should there be limits to the lengths to which people can go to make their idea of family a reality Who should pay for treatment How can we ensure the ethical use of these technologies And what can be done to address the racial and economic disparities in access to care that enable some to have children while others go without In *The Pursuit of Parenthood* historian Margaret Marsh and gynecologist Wanda Ronner seek to answer these challenging questions Bringing their unique expertise in gender history and women s health to the subject Marsh and Ronner examine the unprecedented means liberating for some and deeply unsettling for others by which families can now be created Beginning with the early efforts to create embryos outside a woman s body and ending with such new developments as mitochondrial replacement techniques and uterus transplants the authors assess the impact of contemporary reproductive technology in the United States In this volume we meet the scientists and physicians who have developed these technologies and the women and men who have used them Along the way the book dispels a number of fertility myths offers policy recommendations that are intended to bring clarity and judgment to this complicated medical history and reveals why the United States is still known as the Wild West of reproductive medicine
