Chris Baldick

Taming The Chaos English Poetic Diction Theory Since The Renaissance:

Taming the Chaos Emerson R. Marks, 1998 Alone among artists poets are at once blessed and burdened by the inherent semantic component and the tarnishing social employment of their linguistic medium In an effort to define the mysterious and attractive power of poetic discourse Emerson Marks undertakes a comparison of successive attempts to explain the phenomenon TAMING THE CHAOS is an ambitious study of poetic language The Oxford Dictionary of Literary Terms Chris Baldick, 2015-05-15 The bestselling Oxford Dictionary of Literary Terms provides clear and concise definitions of the most troublesome literary terms from abjection to zeugma It is an essential reference tool for students of literature in any language Now expanded and in its fourth edition it includes increased coverage of new terms from modern critical and theoretical movements such as feminism schools of American poetry Spanish verse forms life writing and crime fiction It includes extensive coverage of traditional drama versification rhetoric and literary history as well as updated and extended advice on recommended further reading and a pronunciation guide to more than 200 terms Completely revised and updated this edition also features brand new entries on terms such as distant reading graphic novels middle generation and misery memoir Many new bibliographies have been added to entries and recommended web links are available via a companion website *The Cambridge Companion to Eighteenth-Century Poetry* John Sitter, 2001-03-26 The Cambridge Companion to Eighteenth Century Poetry analyzes major premises preoccupations and practices of English poets writing from 1700 to the 1790s These specially commissioned essays avoid familiar categories and single author approaches to look at the century afresh Chapters consider such large poetic themes as nature the city political passions the relation of death to desire and dreams appeals to an imagined future and the meanings of sensibility Other chapters explore historical developments such as the connection between poetic couplets and conversation the conditions of publication changing theories of poetry and imagination growing numbers of women poets and readers the rise of a self consciously national tradition and the place of lyric poetry in thought and practice The essays are well supported by supplementary material including a chronology of the period and detailed guides to further reading Altogether the volume provides an invaluable resource for scholars and students *Power, Plain English, and the Rise of Modern Poetry* David Rosen, 2008-10-01 DIV In this engaging book David Rosen offers a radically new account of Modern poetry and revises our understanding of its relation to Romanticism British poets from Wordsworth to Auden attempted to present themselves simultaneously as persons of power and as moral voices in their communities The modern lyric derives its characteristic complexities psychological ethical formal from the extraordinary difficulty of this effort The low register of our language a register of short concrete native words arranged in simple syntax is deeply implicated in this story Rosen shows how the peculiar reputation of plain English for truthfulness is employed by Modern poets to conceal the rift between their probably irreconcilable ambitions for themselves With a deep appreciation for poetic accomplishment and a wonderful iconoclasm Rosen sheds new light on the innovative as well as the

self deceptive aspects of Modern poetry This book alters our understanding of the history of poetry in the English language

div Poetic Language Tom Jones,2012-07-04 In a series of 12 chapters exemplary poems by Walter Raleigh John Milton William Cowper William Wordsworth Gerard Manley Hopkins Wallace Stevens Ezra Pound Frank O Hara Robert Creeley W S Graham Tom Raworth Denise Riley and Thomas A Clark Poetry and Bondage Andrea Brady,2021-10-21 Poetry and Bondage is a groundbreaking and comprehensive study of the history of poetic constraint For millennia poets have compared verse to bondage chains fetters cells or slavery Tracing this metaphor from Ovid through the present Andrea Brady reveals the contributions to poetics of people who are actually in bondage How the book asks does our understanding of the lyric and the political freedoms and forms of human being it is supposed to epitomise change if we listen to the voices of enslaved and imprisoned poets Bringing canonical and contemporary poets into dialogue from Thomas Wyatt to Rob Halpern Emily Dickinson to M NourbeSe Philip and Phillis Wheatley to Lisa Robertson the book also examines poetry that emerged from the plantation and the prison This book is a major intervention in lyric studies and literary criticism interrogating the whiteness of those disciplines and exploring the possibilities for committed poetry today *Wallace Stevens and the Realities of Poetic Language* Stefan Holander,2008-02-19 This study examines Wallace Stevens ideas and practice of poetic language with a focus on the 1930s an era in which Stevens persistently thematized a keenly felt pressure for the possible social involvement and political utility of poetic language The argument suggests how mutually implicated elements of his poetry such as diction prosody and metaphor are relied on to signify or enact aesthetic closure both in the negative terms of expressive impotence and unethical isolation and the positive ones of imaginative and linguistic change In this respect the study deals closely with the epistemologically and ethically fraught issue of the ambiguous and volatile role of non semantic elements and linguistic difficulty in Stevens language Assuming that these facets are not exclusive to this period but receive a very clear and therefore instructive formulation in it the discussion outlines some of Stevens most central tropes for poetic creativity at this stage of his career suggesting ways in which they came to form part of his later discourse on poetic functionality when polemical concepts for the imagination such as evasion and escapism became central Stevens prosody is discussed from within an eclectic analytical framework in which cumulative rhythmic is complemented by traditional metrics as a way of doing justice to his rich varied and cognitively volatile use of verse language The expressive potency of prosodic patterning is understood both as an effect of its resistance to semantic interpretation and by assuming a formal drive to interpret them in relation to the semantic and metaphoric staging of individual poems A poem in turn is understood both as a strategic stylistically deviant response to the challenges of a particular historical moment and as an attempt to communicate through creating a sense of linguistic resistance and otherness **There and Back Again** Mark Atherton,2012-08-20 Even the smallest person can change the course of the future The prophetic words of Galadriel addressed to Frodo as he prepared to travel from Lothlorien to Mordor to destroy the One Ring are just as pertinent to J R R Tolkien s own fiction For decades

hobbits and the other fantastical creatures of Middle earth have captured the imaginations of a fiercely loyal tribe of readers all enhanced by the immense success of Peter Jackson's films first *The Lord of the Rings* and now his new *The Hobbit* But for all Tolkien's global fame and the familiarity of modern culture with Gandalf Bilbo Frodo and Sam the sources of the great mythmaker's own myth making have been neglected Mark Atherton here explores the chief influences on Tolkien's work his boyhood in the West Midlands the landscapes and seascapes which shaped his mythologies his experiences in World War I his interest in Scandinavian myth his friendships especially with the other Oxford based Inklings and the relevance of his themes especially ecological themes to the present day *There and Back Again* offers a unique guide to the varied inspirations behind Tolkien's life and work and sheds new light on how a legend is born

Latin Poetry and the Judgement of Taste Charles Martindale, 2005 Table of contents **Classics and Celtic Literary Modernism** Gregory Baker, 2022-02-03 Celtic modernism had a complex history with classical reception In this book Gregory Baker examines the work of W B Yeats James Joyce David Jones and Hugh MacDiarmid to show how new forms of modernist literary expression emerged as the evolution of classical education the insurgent power of cultural nationalisms and the desire for transformative modes of artistic invention converged across Ireland Scotland and Wales Writers on the Celtic fringe sometimes confronted and sometimes consciously advanced crudely ideological manipulations of the inherited past But even as they did so their eccentric ways of using the classics and its residual cultural authority animated new decentered idioms of English literary vernaculars so fragmented and inflected by polyglot intrusion that they expanded the range of Anglophone literature and left in their wake compelling stories for a new age This title is also available as Open Access on Cambridge Core

The Politics of Speech in Later Twentieth-Century Poetry William Fogarty, 2022-07-30 *The Politics of Speech in Later Twentieth Century Poetry* Local Tongues in Heaney Brooks Harrison and Clifton argues that local speech became a central facet of English language poetry in the second half of the twentieth century It is based on a key observation about four major poets from both sides of the Atlantic Seamus Heaney Gwendolyn Brooks Tony Harrison and Lucille Clifton all respond to societal crises by arranging reproducing and reconceiving their particular versions of local speech in poetic form The book's overarching claim is that local tongues in poetry have the capacity to bridge aesthetic and sociopolitical realms because nonstandard local speech declares its distinction from the status quo and binds people who have been subordinated by hierarchical social conditions while harnessing those versions of speech into poetic structures can actively counter the very hierarchies that would degrade those languages The diverse local tongues of these four poets marshaled into the forms of poetry situate them at once in literary tradition in local contexts and in prevailing social constructs

The Augustan Art of Poetry Robin Sowerby, 2006-01-26 While previous studies have concentrated largely upon political concerns *The Augustan Art of Poetry* is an exploration of the influence of the Roman Augustan aesthetic on English neo classical poets of the seventeenth and eighteenth centuries At the conclusion of his translation of Virgil Dryden claims implicitly to have given English poetry the

kind of refinement in language and style that Virgil had given the Latin In this timely new study Robin Sowerby offers a strong apologia for the fine artistry of the Augustans concentrating in particular on the period's translations a topic and method not hitherto ventured in any full length comparative study The mediation of the Augustan aesthetic is explored through the *De Arte Poetica* of Vida represented in the Augustan version of Pitt and its culmination is represented by examination of Dryden's Virgil in relation to predecessors The effect of the Augustan aesthetic upon versions of silver Latin poets and upon Pope's Homer is also assessed and comparisons are drawn with modern translations **The Coleridge**

Legacy Philip Aherne, 2018-09-08 This book examines the development of Samuel Taylor Coleridge's intellectual legacy in Britain and America from 1834 to 1934 by focusing on his late role as the Sage of Highgate and his programme of educating young minds who were destined for the higher professions particularly preaching and teaching Chapters assess his pedagogy and his late publications his posthumous reputation and his influence on aesthetics theology philosophy politics and social reform The book discusses a wide range of British and American intellectuals including Thomas and Matthew Arnold F D Maurice John Stuart Mill Henry Sidgwick Shadworth Hodgson T H Green James Marsh Ralph Waldo Emerson Horace Bushnell William James and John Dewey It demonstrates how Coleridgean ideas were developed and distorted into something he would never have recognized as his own and emphasizes his significance as a catalyst who played a vital role in shaping the intellectual vocation of the long nineteenth century *Romantic Organicism* C. Armstrong, 2003-06-24 Romantic Organicism attempts to reassess the much maligned and misunderstood notion of organic unity Following organicism from its crucial radicalisation in German Idealism it shows how both Coleridge and Wordsworth developed some of their most profound ideas and poetry on its basis Armstrong shows how the tenets and ideals of organicism despite much criticism remain an insistent if ambivalent backdrop for much of our current thought including the work of Derrida amongst others

Against Autonomy Timothy J. Reiss, 2002 This book investigates cultural instruments meaning normative forms of analysis and practice that are central to Western culture It explores their history from antiquity to the early Enlightenment and their use and reworking by different cultures moving from Europe to Africa and the Americas especially the Caribbean in the process giving close readings of a wide range of authors The Routledge Dictionary of Literary Terms Roger

Fowler, 2006-07-13 Covering both established terminology as well as the specialist vocabulary of modern theoretical schools this is an indispensable guide to the principal terms and concepts encountered in debates over literary studies in the twenty first century Paradoksy humanistyki Olga Kubińska, 2001 **Current Contents** , 1999 Language George Melville

Bolling, Bernard Bloch, 1998 **For the Geography of a Soul** Timothy J. Reiss, 2001
