Tank Attack:

Tank Attack at Monte Cassino Jeffrey Plowman, 2020-04-30 Early morning 19 March 1944 Tanks manned by New Zealanders Indians and Americans launch a daring attack along a narrow mountain track on German positions north of Monte Cassino So began one of the most audacious Allied attempts to break through the Gustav Line and advance on Rome and it almost succeeded Yet the extraordinary story has seldom been told and it has never been told before in the vivid detail Jeffrey Plowman brings to this new account Using operational orders combat reports unit diaries post battle photos from private and public archives and the graphic personal accounts of those who took part he describes the construction of Cavendish Road and the course of the entire operation that followed The planning for the attack and the men involved are described in a gripping and clear sighted way as is the attack itself its initial rapid success and its ultimate failure Eighty years later Jeffrey Plowman reveals exactly what happened and shows how and why this bold thrust against the German strongpoints at Monte Cassino which could have turned the course of the battle ended in retreat His book also features a visitor s guide that covers the length of Cavendish Road from the village of Cairra to Massa Albaneta linking each spot with the events described in the narrative *Tank Attack* J. Eldridge, 1999 Based on real life war events this book tells the story of the desert campaign in Africa culminating in the turning point of El Alamein from the perspective of a young soldier The story is supplemented by an introduction with maps kit lists illustrations a centre section with actual photographs and an epilogue with the final map positions fatalities and a note on the significance of the battle *Tank Destroyer Field Manual: Organization and Tactics of Tank Destroyer Units, June 16 1942 (FM 18-5)* U.S. War Department, 2012-05-29 This facsimile edition of the US 1942 field manual for tank destroyer units describes missions organization combat and training It scales its information from squad to company to battalion to group Issued early during the United States WWII experience it predates the assignment of authorized tank destroyer gear It is prepared for the guidance of units that will be equipped with materiel now being developed Readers should recall that US WWII doctrine and the high command forbade tank vs tank combat The American tank was meant for targets other than Axis armor However tank destroyer units were specifically designed equipped and deployed to fight what we now think of as tank battles This is an historic document that gives us deep insight into a long forgotten military doctrine For those who think of tank destroyers as cheap tanks or stopgaps this will be an eye opener By: Department. Aces at Kursk Christopher A Lawrence,2024-07-25 The Battle of Kursk in July 1943 is known for being the largest tank battle in history A Russian victory it marked the decisive end of the German offensive capability on the Eastern Front and set the scene for the Soviet successes that followed While many have focused on the tank engagements especially the Battle of Prokhorovka there was an intense air battle going on overhead that was bigger than the Battle of Britain As part of the German offensive the Luftwaffe s VIII Air Corps deployed around 1 100 aircraft in the south alone while the opposing Soviet Second and Seventeenth air armies initially deployed over 1 600 aircraft There was a similar effort surrounding the German attack in the north The battle in the south began with a Soviet air strike on German airfields and a fight for control of the air that continued throughout the day across the front On the first day of the battle 5 July 1943 the Germans flew at least 2 387 sorties in the south while the two Soviet air armies flew 1 688 sorties That first day of battle resulted in 19 to 27 German planes and 189 Soviet aircraft shot down This was an aerial engagement like no other ever seen before Involved on the German side were the 52nd and 3rd Fighter Wings The 52nd Fighter Wing was the most accomplished fighter wing in history and many of its top aces were involved in the combats over the Kursk battlefield These included Walter Krupinski 197 claimed kills in the war G nther Rall the third highest scoring ace in history 275 claimed kills and the highest scoring ace in history Erich Hartmann 352 claimed kills Opposing them were what were to become three of the top five Soviet aces Kirill Yevstigneyev 53 claimed kills Nikolai Gulayev 55 claimed kills and the top scoring Allied ace of the war Ivan Kozhedub 62 claimed kills This was indeed the battle of the aces But there was also the massive ground attack effort by both sides including the Junkers Ju 87 Stuka fitted with 37mm anti tank guns flown by the man who would become most decorated

soldier of the Third Reich Hans Ulrich Rudel The aerial battle involved hundreds of Soviet Sturmoviks or IL 2s Stalin's armored ground attack plane The battle featured the famous attack by Luftwaffe Hs 129s and Fw 190s on Soviet armor on 8 July 1943 Aces at Kursk is not just a war story but a revealing investigation that analyses the entire air battle that turned the tide of the war on the Eastern Front **Architect of Soviet Victory in World War II** Richard W.
