Tanks Across the Desert Jake Wardrop, 1981 **Jake Wardrop's Diary** George Forty, 2009-11-15 A gritty true life story of brutal tank warfare in the Second World War **The Second World War Through Soldiers' Eyes** James Goulty, 2016-07-31 What was it really like to serve in the British Army during the Second World War Discover a soldier's view of life in the British Army from recruitment and training to the brutal realities of combat Using first hand sources James Goulty reconstructs the experiences of the men and women who made up the citizen's army Find out about the weapons and equipment they used the uniforms they wore how they adjusted to army discipline and faced the challenges of active service overseas What happened when things went wrong What were your chances of survival if you were injured in combat or taken prisoner While they didn't go into combat thousands of women also served in the British Army with the ATS or as nurses What were their wartime lives like And when the war had finally ended how did newly demobilised soldiers and servicewomen cope with returning home The British Army that emerged victorious in 1945 was vastly different from the poorly funded force of 865 000 men who heard Neville Chamberlain declare war in 1939 With an influx of civilian volunteers and conscripts the army became a citizen's force and its character and size were transformed By D Day Britain had a well equipped disciplined army of over three million men and women and during the war they served in a diverse range of places across the world This book uncovers some of their stories and gives a fascinating insight into the realities of army life in wartime A History of the Mediterranean Air War, 1940-1945. Volume 2 Christopher Shores, Giovanni Massimello, Russell Guest, Frank Olynyk, Winfried Bock, 2014-07-19 This second volume in the seminal series on aerial combat pilots and tactics in Libya and Egypt in the middle of World War II In volume two of this series historian Christopher Shores begins by exploring the 8th Army's movements after Operation Crusader when they were forced back to the Gazala area in northeastern Libya as well as their defeat in June 1942 the loss of Tobruk and the efforts of Allied air forces to protect their retreating troops Shores continues with the heavy fighting that followed in the El Alamein region This features the Western Desert Air Force and the arrival of the first Spitfires The buildup of both army and air forces and the addition of new commanders on the ground aided the defeat of Rommel's Deutsche Afrika Korps at Alam el Halfa after which came the Second Battle of El Alamein With the arrival of the United States Army Air Force the Allied air forces gained dominance over the Axis Shores recounts the lengthy pursuit of the Italo German forces right across Libya including the capture of Tripoli and the breakthrough into Southern Tunisia This allowed a linkup with other Allied forces in Tunisia whose story appears in Volume 3 Included with the action are stories of some of the great fighter aces of the Desert campaign such as Jochen Marseille and Otto Schulz of the Luftwaffe Franco Bordini Bisleri of the Regia Aeronautica and Neville Duke Billy Drake and Eddie Edwards of the Commonwealth air forces Finally Shores touches on the Allied and Axis night bombing offensives and the activities of the squadrons cooperating with the naval forces in the Mediterranean The Veterans' Tale Frances

Houghton,2019-01-10 This is a unique account of the ways in which British veterans of the Second World War remembered understood and recounted their experiences of battle throughout the post war period Focusing on themes of landscape weaponry the enemy and comradeship Frances Houghton examines the imagery and language used by war memoirists to reconstruct and review both their experiences of battle and their sense of wartime self Houghton also identifies how veterans memoirs became significant sites of contest as former servicemen sought to challenge what they saw as unsatisfactory official scholarly and cultural representations of the Second World War in Britain Her findings show that these memoirs are equally important both for the new light they shed on the memory and meanings of wartime military experience among British veterans and for what they tell us about the cultural identity of military life writing in post war British society

Combat and Morale in the North African Campaign Jonathan Fennell,2011-02-17 Military professionals and theorists have long understood the relevance of morale in war Montgomery the victor at El Alamein said following the battle that the more fighting I see the more I am convinced that the big thing in war is morale Jonathan Fennell in examining the North African campaign through the lens of morale challenges conventional explanations for Allied success in one of the most important and controversial campaigns in British and Commonwealth history He introduces new sources notably censorship summaries of soldiers mail and an innovative methodology that assesses troop morale not only on the evidence of personal observations and official reports but also on contemporaneously recorded rates of psychological breakdown sickness desertion and surrender He shows for the first time that a major morale crisis and stunning recovery decisively affected Eighth Army s performance during the critical battles on the Gazala and El Alamein lines in 1942 *A History of the Mediterranean Air War, 1940-1945* Christopher Shores,Giovanni Massimello,Russell Guest,2012-06-19 This first volume in the seminal series on World War II aerial combat pilots and tactics that reads like an encyclopedia on the subject Portland Book Review In the early days of World War II both Allied and Axis powers extended the theater of war to North Africa where hard fought battles were conducted in the harsh desert But before anyone could claim victory on the ground they had to hold

dominion in the air Here historian Christopher Shores has combined his books *Fighters over the Desert* and *Fighters over Tunisia* into one volume as well as adding updated information about the deadly fighter aircraft reconnaissance aircraft and maritime units active in the Mediterranean Full of in depth research and featuring essential maps this is an intimate introspection by these men of their experiences and the respect that they shared not only for each other but also their adversaries *The Military Reviewer* *From Tobruk to Tunis* Neal Dando, 2016-04-21 This book focuses on the extent to which the physical terrain features across Egypt Libya and Tunisia affected British operations throughout the campaign in North Africa during the Second World War One main theme of the work analyses the terrain from the operational and tactical perspective and argues that the landscape features heavily influenced British operations and should now be considered alongside other standard military factors The work differs from previous studies in that it considers these additional factors for the entire campaign until the Axis surrender in May 1943 Until now it has been widely assumed that much of the Western Desert coastal plateau was a broadly level open region in which mobile armored operations were paramount However this work concentrates on the British operations to show they were driven by the need to capture and hold key features across each successive battlefield At the operational level planning was led by the need to hold key ground across Libya and especially the province of Cyrenaica during the crucial middle period of the campaign A secondary theme of the work argues that British forces began to improvise certain tactical doctrines which altered the early practice of combined arms assaults into one of the Infantry and Armored formations fighting largely separated battles until the autumn of 1942 Other developments in doctrine which were affected by the terrain included the practice of unit dispersal to hold key ground and the use of temporary units such as Jock columns to harass and engage the enemy The two themes are inter linked and contribute fresh insights to the debate on British methods of warfare The author has consulted key primary documents reports war diaries and published memoirs from major UK archives and compared these with the campaign historiography to develop the main themes of the work These include the National Archives the Churchill Archives Center the Liddell Hart Center for Military History the National Army Museum John Rylands Center Imperial War Museum at London and Duxford and London and the Tank Museum Archives at Bovington The sources include unit war diaries after action reports along with many of the key published and some unpublished memoirs His text is supported by 24 pages of specially commissioned color maps *British Armoured Divisions and Their Commanders, 1939-1945* Richard Doherty, 2013-07-16 A total of eleven British armoured divisions were formed during the 1939 1945 war but as this highly informative book reveals just eight saw action In 1940 only 1st Armoured Division faced the German blitzkrieg and it was in the North African desert that armoured divisions came into their own The terrain was ideal and six such divisions of Eighth Army fought Rommel's Panzers into submission Three were disbanded prior to the invasion of Sicily and Italy The campaign from D Day onwards saw the Guards Armoured 7th Armoured the Desert Rats 11th and Percy Hobart's 79th Armoured Division in the thick of the action Of

particular interest are the men who commanded these elite formations and the way their characters contributed to the outcome of operations While some such as Dick McCreery went onto greater heights others did not make the grade the stakes were high A number such as Pip Roberts were just perfectly suited in the role Written by a leading military historian this book describes many fascinating aspects of armoured warfare from its uncertain beginnings through the development of tactics and the evolving tank design Due to British deficiencies reliance had to be placed on US Grants and Shermans with the Comet coming late and the Centurion too late The combination of gripping historical narrative and well researched fact make this an invaluable and highly readable work on the contribution of British Armoured Divisions to victory in the Second World War

Fighting the People's War Jonathan Fennell,2019-01-24 Jonathan Fennell captures for the first time the true wartime experience of the ordinary soldiers from across the empire who made up the British and Commonwealth armies He analyses why the great battles were won and lost and how the men that fought went on to change the world

The British Way of War in Northwest Europe, 1944-5 L. P. Devine,2015-12-17 This book examines the experience of two British Infantry Divisions the 43rd Wessex and 53rd Welsh during the Overlord campaign in Northwest Europe To understand the way the British fought during Operation Overlord the book considers the political and military factors between 1918 and 1943 before addressing the major battles and many of the minor engagements and day to day experiences of the campaign Through detailed exploration of unit war diaries and first hand accounts Louis Devine demonstrates how Montgomery's way of war translated to the divisions and their sub units While previous literature has suggested that the British Army fought a cautious war in order to avoid the heavy casualties of the First World War Devine challenges this concept by showing that the Overlord Campaign fought at sub divisional levels was characterised by command pressure to achieve results quickly hasty planning and a reliance on massive artillery and mortar contributions to compensate for deficiencies in anti tank and armoured support By following two British infantry divisions over a continuous period and focusing on soldiers experience to offer a perspective from below as well as challenging the consensus of a cautious British campaign this book provides a much needed re examination of the Overlord campaign which will be of great interest to students and scholars of the Second World War and modern military history in general
