*Histories from an Emerging African Metropolis* James Brennan, Yus Burton, 2007-10-15 From its modest beginnings in the mid 19th century Dar es Salaam has grown to become one of sub-Saharan Africa's most important urban centres A major political economic and cultural hub the city stood at the cutting edge of trends that transformed twentieth century East Africa Dar es Salaam has recently attracted the attention of a diverse multi disciplinary range of scholars making it currently one of the continent's most studied urban centres This collection from eleven scholars from Africa Europe North America and Japan draws on some of the best of this scholarship and offers a comprehensive and accessible survey of the city's development The

perspectives include history musicology ethnomusicology culture including popular culture land and urban economics The opening chapter offers a comprehensive overview of the history of the city Subsequent chapters examine Dar es Salaam's twentieth century experience through the prism of social change and the administrative repercussions of rapid urbanisation and through popular culture and shifting social relations The book will be of interest not only to the specialist in urban studies but also to the general reader with an interest in Dar es Salaam's environmental social and cultural history

Tanzania Under Mwalimu Nyerere Godfrey Mwakikagile, 2006 Nyerere's economic policies his successes and failures in pursuit of economic development under socialism are some of the subjects addressed by the author in this book A Tanzanian himself he also looks at how life was under Nyerere since the sixties The work is also a critical examination of the political situation in Tanzania since independence when the country was known as Tanganyika before uniting with Zanzibar The author also looks at the transition that has taken place in Tanzania from one party rule to multiparty democracy and from socialism to capitalism since the collapse of the Soviet Union and the end of the Cold War He also takes a critical look at globalization and the negative impact of structural adjustment programmes in Tanzania and Africa as a whole The work is also a study of Tanzania's history since the advent of colonial rule and of the struggle for independence in one of Africa's largest countries

*Tanzania* Andrew Coulson, 2013-07-25 Tanzania in the 1970s was at the forefront of policy innovation Near universal primary education access to health services and supplies of clean water subsequently became mainstream ambitions in Africa and elsewhere But its policies towards agricultural and industrial production failed and left the country in a particularly weak position when it faced the demands of structural adjustment in the 1980s This book originally published in 1982 has been reissued with a new introduction which brings its themes up to the present when income from gold mining and natural gas is making Tanzania one of the most dynamic economies in Africa today The author first an economic civil servant in Tanzania later an academic at the University of Dar es Salaam was in a unique position to write it drawing on his own experiences as well as the plethora of ideas and debates in Dar es Salaam in the 1970s The book has stood the test of time not only because of the range of material it covers but more profoundly because of the approach it takes to the work of Tanzania's founding president Julius Nyerere sympathetic to his ideas deeply critical of failures in implementation 25 short easily read chapters take the story of Tanzania from pre colonial times to the present and show how Nyerere was hemmed in by what he inherited from the German and British colonialists who ran the country up to Independence in 1961 It provides an invaluable introduction to anyone coming to the country for the first time and offers a profound assessment of the theoretical debates that have made Tanzania of such interest to students of development

**Economic Growth and Measurement Reconsidered in Botswana, Kenya, Tanzania, and Zambia, 1965-1995** Morten Jerven, 2014-03-27 How do we measure African economic performance This volume studies how growth is measured in Botswana Kenya Tanzania and Zambia and challenges commonly held beliefs of African economic performance The volume offers a reconsideration of economic growth

in Africa in three respects First it shows that the focus has been on average economic growth and that there has been no failure of economic growth In particular the gains made in the 1960s and 1970s have been neglected Second it emphasizes that for many countries the decline in economic growth in the 1980s was overstated as was the improvement in economic growth in the 1990s The coverage of economic activities in GDP measures is incomplete In the 1980s many economic activities were increasingly missed in the official records thus the decline in the 1980s was overestimated resulting from declining coverage and the increase in the 1990s was overestimated resulting from increasing coverage The third important reconsideration is that there is no clear association between economic growth and orthodox economic policies This is counter to the mainstream interpretation and suggests that the importance of sound economic policies has been overstated and that the importance of the external economic conditions have been understated in the prevailing explanation of African economic performance **United Republic of Tanzania** International Monetary Fund. African Dept.,2017-07-05 This paper

discusses Tanzania s Sixth Review Under the Policy Support Instrument PSI and Request for a Six Month Extension of the PSI Tanzania s macroeconomic performance has been strong albeit with a recent deceleration in economic growth Program performance under the PSI has been broadly satisfactory Most quantitative targets for December 2016 and March 2017 were met Although progress in structural reforms identified under the program has been generally slow the authorities have stepped up efforts to advance them The IMF staff supports the authorities request for a 6 month extension of the PSI arrangement and recommends completion of its sixth review African Socialism in Postcolonial Tanzania Priya Lal,2015-12-01 Drawing on a wide range of oral and written sources this book tells the story of Tanzania s socialist

experiment the ujamaa villagization initiative of 1967 75 Inaugurated shortly after independence ujamaa familyhood in Swahili both invoked established socialist themes and departed from the existing global repertoire of development policy seeking to reorganize the Tanzanian countryside into communal villages to achieve national development Priya Lal investigates how Tanzanian leaders and rural people creatively envisioned ujamaa and documents how villagization unfolded on the ground without affixing the project to a trajectory of inevitable failure By forging an empirically rich and conceptually nuanced account of ujamaa *African Socialism in Postcolonial Tanzania* restores a sense of possibility and process to the early years of African independence refines prevailing theories of nation building and development and expands our understanding of the 1960s and 70s world *Beyond Capitalism versus Socialism in Kenya and Tanzania* Joel D. Barkan,1994 Tanzania

Jay Heale,Winnie Wong,Kelly Spence,2018-04-15 Tanzania is a home to spectacular sights like the Serengeti plains and Mount Kilimanjaro Its rich wildlife population has led to conservation efforts but also has allowed for more sinister workings to occur such as poaching Readers will learn about the country s past and present through vibrant photographs and rich text that examine Tanzania s unique features including its people heritage geography environment and food offering a comprehensive view of the country today *Beyond Capitalism Vs. Socialism in Kenya and Tanzania* Joel D. Barkan,1994

Explores how Tanzania and Kenya often regarded as paradigms of capitalist and socialist development in Africa have responded to the challenges they face such as population growth mounting external debt and structural adjustment by modifying their original approach to development

**Challenges for the Democratisation Process in Tanzania** Jonas Ewald, 2013 Tanzania has been independent in 2011 for 50 years While most neighbouring states have gone through violent conflicts Tanzania has managed to implement extensive reforms without armed political conflicts Hence Tanzania is an interesting case for Peace and Development research This dissertation analyses the political development in Tanzania since the introduction of the multiparty system in 1992 with a focus on the challenges for the democratisation process in connection with the 2000 and 2005 elections The question of to what extent Tanzania had moved towards a consolidation of democracy is analysed by looking at nine different institutions of importance for democratisation grouped in four spheres the state the political civil and economic society Focus is on the development of the political society and the role of the opposition in particular The analysis is based on secondary and primary material collected between September 2000 to April 2010 The main conclusion is that even if the institutions of liberal democracy have gradually developed in practice single party rule has continued manifested in the 2005 election when the CCM won 92% of seats Despite impressive economic growth poverty remains deep and has not been substantially reduced On a theoretical level this brings the old debate between liberal and substantive democracy back to the fore Neither the economic nor the political reforms have brought about a transformation of the political and economic system resulting in the poor majority gaining substantially more political influence and improved economic conditions Hence it is argued that the interface between the economic political and administrative reforms has not been sufficiently considered in the liberal democratic tradition Liberal democracy is necessary for a democratic development but not sufficient for democracy to be consolidated For that a substantive democratic development is necessary
