Ramachandra Guha, 2015-01-01 *Gandhi Before India* *Cosmopolitan Modernity in Early 20th-Century India* Sachidananda
Mohanty, 2018-05-20 This book presents an alternative view of cosmopolitanism citizenship and modernity in early 20th
century India through the multiple lenses of mysticism travel friendship art and politics It makes a key intervention in the
understanding of cosmopolitan modernity based on the lives and experiences of Rabindranath Tagore Ananda
Coomaraswamy Sri Aurobindo Mirra Alfassa James Cousins Paul Richard Dilip Kumar Roy and Taraknath Das Using archival
texts and photographs Mohanty interrogates the ideas of tradition and modernity the local and the global and Self and the
world as integral to the conception of a cosmopolitan world order This second edition will interest scholars and students of
modern Indian history comparative literature cultural studies Indian philosophy and South Asian studies and the general
reader *When Does History Begin?* Harjot Oberoi, 2022-01-01 Focusing on important issues in Sikh religious identity and
memory Harjot Oberoi shows how premodern techniques of narrating the past and truth telling in South Asia were deeply
transformed by colonialism Indian historiographical praxis has long been problematic Al Biruni the eleventh century
polymath was puzzled by how people in the subcontinent treated the protocols of history it escaped his learning that Indian
narrative constructions of the past were embedded in an intricate canon of poetical traditions and represented a radical
departure from historical narratives in the Islamic Sinic and Greco Roman worlds Where others tended to search for facts
people in South Asia looked for affect This alternative model for comprehending and evaluating the past through aesthetics
and gradients of taste generated a crucially different variety of historical consciousness Oberoi's examination of the Sikh
tradition demonstrates what modern critical narrative achieves when it moves away from classical models traversing
significant moments in colonialism coercion and protest in the Raj the production of knowledge the rise of secular
nationalism and modern notions of the self within and outside India *A Curious Madness* Eric Jaffe, 2014-01-14 From an
illuminating and entertaining The New York Times young writer the story that explores the fateful intersection of two men at
the Tokyo war crimes trial that followed World War II a Japanese nationalist charged with war crimes and the American
doctor assigned to determine his sanity and thus his fate In the wake of World War II the Allied forces charged twenty eight
Japanese men with crimes against humanity Correspondents at the Tokyo trial thought the evidence fell most heavily on ten
of the accused In December 1948 five of these defendants were hanged while four received sentences of life in prison The
tenth was a brilliant philosopher patriot named Okawa Shumei His story proved strangest of all Among all the political and
military leaders on trial Okawa was the lone civilian In the years leading up to World War II he had outlined a divine mission
for Japan to lead Asia against the West prophesized a great clash with the United States planned coups d etat with military
rebels and financed the assassination of Japan's prime minister Beyond all vestiges of doubt concluded a classified American

intelligence report Okawa moved in the best circles of nationalist intrigue Okawa's guilt as a conspirator appeared straightforward But on the first day of the Tokyo trial he made headlines around the world by slapping star defendant and wartime prime minister Tojo Hideki on the head Had Okawa lost his sanity Or was he faking madness to avoid a grim punishment A U S Army psychiatrist stationed in occupied Japan Major Daniel Jaffe the author's grandfather was assigned to determine Okawa's ability to stand trial and thus his fate Jaffe was no stranger to madness He had seen it his whole life in his mother as a boy in Brooklyn in soldiers on the battlefields of Europe Now his seasoned eye faced the ultimate test If Jaffe deemed Okawa sane the war crimes suspect might be hanged But if Jaffe found Okawa insane the philosopher patriot might escape justice for his role in promoting Japan's wartime aggression Meticulously researched *A Curious Madness* is both expansive in scope and vivid in detail As the story pushes both Jaffe and Okawa toward their postwar confrontation it explores such diverse topics as the roots of belligerent Japanese nationalism the development of combat psychiatry during World War II and the complex nature of postwar justice Eric Jaffe is at his best in this suspenseful and engrossing historical narrative of the fateful intertwining of two men on different sides of the war and the world and the question of insanity

Anarchy Or Chaos Ole Birk Laursen, 2023 The first biography of an extraordinary political thinker at the heart of India's struggles against colonial and domestic oppression *South Asian Migrations in Global History* Neilesh Bose, 2020-12-10 This collection explores how South Asian migrations in modern history have shaped key aspects of globalization since the 1830s Including original research from colonial India Fiji Mexico South Africa North America and the Middle East the essays explore indentured labour and its legacies law as a site of regulation and historical biography Including recent scholarship on the legacy of issues such as consent sovereignty and skilled unskilled labour distinctions from the history of indentured labour migrations this volume brings together a range of historical changes that can only be understood by studying South Asian migrants within a globalized world system Centering south Asian migrations as a site of analysis in global history the contributors offer a lens into the ongoing regulation of labourers after the abolition of slavery that intersect with histories in the Global North and Global South The use of historical biography showcases experiences from below and showcases a world history outside empire and nation **Missions, Mantras, Migrants and Microchips** Leonard A Gordon, 2025-04-10 The fame of people like Priyanka Chopra Satya Nadella Sundar Pichai Kunal Navjani Indra Nooyi Mindy Kaling M Night Shyamalan Tata Consultancy Services TCS sponsorship of the New York City Marathon the ubiquitousness of Indian restaurants and yoga studios in many American cities and much else illustrates the close relationship the US and India enjoy today From the 1780s onwards there have been relationships of various kinds all mediated until India's independence through the British Raj While ties in the eighteenth and nineteenth centuries were somewhat thin the closer relationship through three quarters of the twentieth century has now become an extremely close one as India has sent large rivers of people and goods to America and Americans have responded with growing interest and involvement in India This despite

occasional blips like the Bhopal industrial disaster Missions Mantras Migrants and Microchips takes the long view of the Indo US encounter Besides documenting well known ties it also brings into focus some ignored and forgotten people like Kumar Goshal Ida Scudder Charles Page Perin John Bissell and Maharishi Mahesh Yogi Deeply researched and engagingly written by veteran historian Leonard A Gordon this work is the definitive account of the Indo US connection Statelessness Mira L. Siegelberg,2020-10-06 The story of how a much contested legal category statelessness transformed the international legal order and redefined the relationship between states and their citizens Two world wars left millions stranded in Europe The collapse of empires and the rise of independent states in the twentieth century produced an unprecedented number of people without national belonging and with nowhere to go Mira Siegelberg s innovative history weaves together ideas about law and politics rights and citizenship with the intimate plight of stateless persons to explore how and why the problem of statelessness compelled a new understanding of the international order in the twentieth century and beyond In the years following the First World War the legal category of statelessness generated novel visions of cosmopolitan political and legal organization and challenged efforts to limit the boundaries of national membership and international authority Yet as Siegelberg shows the emergence of mass statelessness ultimately gave rise to the rights regime created after World War II which empowered the territorial state as the fundamental source of protection and rights against alternative political configurations Today we live with the results more than twelve million people are stateless and millions more belong to categories of recent invention including refugees and asylum seekers By uncovering the ideological origins of the international agreements that define categories of citizenship and non citizenship Statelessness better equips us to confront current dilemmas of political organization and authority at the global level **The Politics of Anti-Westernism in Asia** Cemil Aydin,2007-06-29 In this rich intellectual history Cemil Aydin challenges the notion that anti Westernism in modern Asia is a political and religious reaction to the liberal and democratic values of the West Nor is anti Westernism a natural response to Western imperialism Instead by focusing on the agency and achievements of non Western intellectuals Aydin demonstrates that modern anti Western discourse grew out of the legitimacy crisis of a single Eurocentric global polity in the age of high imperialism Aydin compares Ottoman pan Islamic and Japanese pan Asian visions of world order from the middle of the nineteenth century to the end of World War II He looks at when the idea of a universal West first took root in the minds of Asian intellectuals and reformers and how it became essential in criticizing the West for violating its own standards of civilization Aydin also illustrates why these anti Western visions contributed to the decolonization process and considers their influence on the international relations of both the Ottoman and Japanese Empires during WWI and WWII The Politics of Anti Westernism in Asia offers a rare global perspective on how religious tradition and the experience of European colonialism interacted with Muslim and non Muslim discontent with globalization the international order and modernization Aydin s approach reveals the epistemological limitations of Orientalist knowledge categories especially the idea of Eastern and

Western civilizations and the way in which these limitations have shaped not only the contradictions and political complicities of anti Western discourses but also contemporary interpretations of anti Western trends In moving beyond essentialist readings of this history Aydin provides a fresh understanding of the history of contemporary anti Americanism as well as the ongoing struggle to establish a legitimate and inclusive international society
