Tarot And Psychology Spectrums Of Possibility:

Tarot and Psychology Arthur Rosengarten, 2000-04-07 What A Clinical Psychologist Espousing Tarot Cards Dr Arthur Rosengarten in Tarot and Psychology Spectrums of Possibility does just that He explains Tarot to those who may want to learn to use it properly for the greatest good individuals who desire greater spirituality in their lives including the benefits of psychological insight and depth without the baggage of affiliation that invariably accompanies any single set of beliefs Tarot they will soon find operates on many levels of profound meaning from a purely non affiliated platform in the truest sense Tarot makes accessible to awareness a full spectrum of psychological and spiritual possibility with little preference for its user s qualifications or beliefs Rather magically one might say Tarot captures the heartbeat of experience This fact alone should make the deck of human possibility immediately relevant to helping professionals who deal with the heartbeats of experience daily The use of Tarot as an oracle for creating awareness and gaining insight into particular symptoms problems or questions i e Tarot divination is often mentioned as an afterthought alongside other meditational exercises and alternative spread configurations Yet today the vast majority of individuals who have discovered the wonders and mysteries of Tarot have done so through experiences of divination Card reading without a doubt is Tarot s most beguiling and potentially beneficial enterprise Why dance around the magic For Tarot to continue to evolve into the 21st century and beyond it must have a stronger application emphasis that is it must be relevant accessible and meaningful to the changing contours of people s lives It must resonate with all who seek greater meaning creativity and awareness not simply with small segments of the waning New Age Tarot and Psychology provides an innovative new approach for understanding the psychological and spiritual possibilities of human experience

Tarot Coupling Gina G. Thies, 2013-12-28 Can the Tarot help you choose better partners What does each card have to say about the current stage of your relationship Now you can confront the dilemmas found in relationships and bridge Tarot meanings with perspectives in psychology Written as a source book for advanced reading techniques while still appropriate for the novice Gina Thies takes Tarot to grander heights by utilizing this mystical tool for thorough relationship analysis Card interpretations are given for specific relationship stages such as new or established while also offering expanded awareness for self exploration An overview of the occult history of Tarot and the basics of psychology are provided You will also find solutions to some of the most common problems in relationships along with card spreads designed specifically for readings that are unique to this system The focus of this extensive reference book is on reading people more than reading cards It deals with what is most probably the most popular reason someone would seek a reading love

The Cards Patrick Maille, 2021-03-19 Tarot cards have been around since the Renaissance and have become increasingly popular in recent years often due to their prevalence in popular culture While Tarot means many different things to many different people the cards somehow strike universal chords that can resonate through popular culture in the contexts of art television movies even comic books The symbolism within the cards and the cards as symbols

themselves make Tarot an excellent device for the media of popular culture in numerous ways They make horror movies scarier They make paintings more provocative They provide illustrative structure to comics and can establish the traits of television characters The Cards The Evolution and Power of Tarot begins with an extensive review of the history of Tarot from its roots as a game to its supposed connection to ancient Egyptian magic through its place in secret societies and to its current use in meditation and psychology This section ends with an examination of the people who make up today's Tarot community Then specific areas of popular culture art television movies and comics are each given a chapter in which to survey the use of Tarot In this section author Patrick Maille analyzes such works as Deadpool Books of Magic by Neil Gaiman Disney's Haunted Mansion Sherlock Holmes Game of Shadows The Andy Griffith Show Buffy the Vampire Slayer and King of the Hill The cards are evocative images in their own right but the mystical fascination they inspire makes them a fantastic tool to be used in our favorite shows and stories

Tarot of the Future Arthur Rosengarten, 2018 This book on Tarot and Consciousness explains how Tarot can lead to rich and creative spiritual development with readings that juxtapose spirituality science meditation using an advanced deck of cards with contemporary integral concepts
