Martin, 2020-03-13 Why are we practicing counselors and psychotherapists committed to failure This is the question that has haunted Dr Francis Martin as he has cataloged well over 20 000 distinct psychotherapy approaches advertised on the websites of licensed mental health professionals No doubt some of these are harmful most of them ineffective and many simply made up but the sheer volume of such techniques and practices advertised by licensed professionals holding advanced degrees whose services are billed to clients and insurance companies calls the credibility of the entire mental health profession into question Based on significant original research that joins research from others this book describes a near universal crisis in mental health care and recommends ways to rescue the field from itself The crisis is caused by declining competence among counselors and psychotherapists who have failed to regulate themselves and who therefore deliver inadequate if not harmful services The book calls for major specific and urgently needed reforms      *Rebound Rituals* Kerry Colburn, Jennifer Worick, 2005-05-05 Armed with this guide a girl's guaranteed to get over an evil ex lickety split and even ask herself what took so long Inside this

**Korea and the "Others"** Maurizio Riotto, 2024-08-19 This book intends to be a reaction to a remarkable paradox within Korean studies easily encountered even by non-experts. While many Korean studies journals strongly encourage the submission of multicultural and transnational articles, in fact very few scholars in the world are able to receipt this message. The volume analyzes various episodes of confrontation both physical and cultural between the people of Korea and foreign counterparts, i.e. the others, in various historical moments. It was devised and born within the Humanities Korea Plus HK Project entitled *Collectio collatio connectio* which is sponsored by the

National Research Foundation NRF of Korea and is currently underway at Anyang University in Anyang City Republic of Korea This project aims to explore documents on relations and exchanges between East and West especially but not only in pre modern times and it aspires to serve as a turning point in the history of comparative and transnational studies on Korea In doing so it also attempts to address deficiencies in existing scholarship especially with regard to comparisons between the Far East and Korea in particular and the cultures of the Near Middle East and the classic and medieval West It follows that this volume has as its target a rather broad academic audience not limited merely to the field of Korean studies but ranging from the ancient Mediterranean to Japan passing through medieval and modern Europe
