

THE LEGACY OF G. WILSON KNIGHT

LAURENCE RAW*

Baskent University

Abstract

G. Wilson Knight (1897-1985) was one of the most influential Shakespearean critics of the mid-twentieth century. This piece surveys his work from 1930 until the early 1980s. Much affected by the First World War, he developed a style of criticism based on Christian principles of respect for other people and belief in an all-powerful God. Many of his most famous pieces (in *THE WHEEL OF FIRE*, for instance) argue for human insignificance in an indifferent universe. It is up to all of us as individuals to develop methods of coping with this world. Wilson Knight's ideas gained particular currency during the Second World War, when Britain's very future seemed at risk due to the threat of Nazi invasion. Although much derided for his use of transcendent language—especially by his contemporary F. R. Leavis—Wilson Knight's ideas seem to have acquired new significance in a globalized world, where individuals fight to main their identity in a technology-driven environment.

I first encountered the criticism of Wilson Knight while at school at Dulwich College. We were studying *King Lear*, and had spent most of our classes concentrating on its tragic aspects as Lear comes to self-knowledge through suffering on the heath. Robert MacDowell, our educator, gave us a copy of “*King Lear and the Comedy of the Grotesque*,” a well-known piece from *The Wheel of Fire* (1930), and invited discussion. I was incensed by the title and the subject-matter; how could any literary critic of standing think that *King Lear* was in any way funny? I responded by creating a parodic cast-list with all the major roles undertaken by leading comic performers of the late Seventies: Peter Sellers as Clouseau as Lear, Eric Sykes and Hattie Jacques as Albany and
