Three Contemporary Poets: Thom Gunn, Ted Hughes and R.S. Thomas A.E. Dyson, 1990-10-24 This Casebook adopts a critical perspective towards the aims and achievements of three leading British poets of the post 1950 period Incorporating a retrospective survey of the critical responses to each poet during the last thirty years or so it enables the reader to achieve a sharper understanding of their poetic art and relevance to the literary culture of today **The British National**

Bibliography Arthur James Wells, 1996 *Tasks of Survival* Allan Johnston, 1995-12-31 Stylistically these poems move between the spontaneity of psychic automatism and a steadier more consistent practice of revision *Three Contemporary Poets* A. E. Dyson, 1990 **Handbook of the English Novel of the Twentieth and Twenty-First Centuries** Christoph Reinfandt, 2017-06-12 The Handbook systematically charts the trajectory of the English novel from its emergence as the foremost literary genre in the early twentieth century to its early twenty first century status of eccentric eminence in new media environments Systematic chapters address The English Novel as a Distinctly Modern Genre The Novel in the Economy Genres Gender performativity masculinities feminism queer and The Burden of Representation class and ethnicity Extended contextualized close readings of more than twenty key texts from Joseph Conrad's *Heart of Darkness* 1899 to Tom McCarthy's *Satin Island* 2015 supplement the systematic approach and encourage future research by providing overviews of reception and theoretical perspectives *The New Cambridge Bibliography of English Literature* George Watson, Ian Roy Willison, 1974 *The Difficulties of Modernism* Leonard Diepeveen, 2013-10-18 First published in 2003 Routledge is an imprint of Taylor Francis an informa company **Resources in Education**, 1994 Crrritic! John Schad, Oliver Tearle, 2011 Oscar Wilde famously spoke of the critic as artist whilst Terry Eagleton once celebrated the critic as clown This exciting new volume brings together a range of writings that seek to radically re imagine the often pale figure of the literary critic In doing so we here glimpse a host of unfamiliar figures from the critic as pedestrian to the critic as suicide through the critic as revivalist and even the critic as bodger The result is a book that seeks to locate the truly critical critic or to be paradoxical the critic as critic the critic who is a critic of criticism as conventionally understood This is the final volume of the immensely successful *Critical Inventions* series *Reviewing Qualitative Research in the Social Sciences* Audrey Trainor, Elizabeth Graue, 2013 Foundational characteristics of qualitative research include flexibility variation in application critique and innovation all of which derive from its subjective roots in interpretivism and constructivism While the scholars who design qualitative research projects envision these qualities as strengths such a breadth of practices and the assumptions that undergird them may present challenges during the peer review process As a result those who review and consume qualitative research often have important and difficult to answer questions about the project's design strategies tools and analysis with few guidelines for gauging the merit of the work The mission of this book is to provide a useful guide for researchers reviewers and consumers who are charged with judging the quality of qualitative studies In order to embrace

the challenges and controversies that accompany this goal the editors have solicited experts representing multiple disciplines and methods of qualitative inquiry Their contributions represent the rich diversity in the field while simultaneously producing a pragmatic and useful guide While it is neither possible nor desirable to compartmentalize qualitative approaches and issues into neatly organized categories the construct of method has been chosen as a common organizing device The introductory chapter explains the need for such a book and underscores the foundational strengths of qualitative research flexibility variation critique and innovation The remaining chapters review the principal approaches to qualitative research with care taken not to standardize rigidly define or oversimplify any approach For ease of use all methodological chapters are organized around the following elements of inquiry which reviewers tend to examine definition sampling data collection data analysis representation and congruency **Cynewulf, Structure, Style, and Theme in His Poetry** Earl R. poetic sensibility the Romantic and the Classical While the four poets she addresses exhibit a poetic sensibility that is primarily Romantic valuing Wordsworth's spontaneous overflow of powerful feelings adopting a natural spoken tone and relying on personal subject matter they have nonetheless employed masking and controlling strategies that are more nearly Classical Combining feminist theory and biographical studies with close readings of individual poems Dodd moves historically from H D one of the best known Imagists through the Confessional movement to the major contemporary poet Louise Gluck In the final chapter Dodd brings us to the present where she finds women writers still struggling with the recent Confessional legacy of such highly anthologized poets as Anne Sexton and Sylvia Plath *The Veiled Mirror and the Woman Poet* combines thoughtful consideration of both formal and theoretical issues in a graceful prose that reaffirms poetry as an art vitally connected to life It will be of significant interest to students of modern and contemporary poetry as well as to those concerned with women's studies
