

The background of the book cover is a historical painting depicting a scene in Tasmania. In the foreground, several people are gathered around a large, dark, possibly charred log or branch. Two men in dark clothing and hats are seated on the left, while others stand or sit nearby. A horse is visible in the middle ground, and a small, simple hut is nestled among trees in the distance. The landscape is hilly and sparsely wooded, with a large, leafy tree on the right side. The overall tone is historical and pastoral.

Chaplin,2017-11-07 This book is a sweeping global and intellectual history that radically recasts our understanding of Malthus s Essay on the Principle of Population the most famous book on population ever written or ever likely to be Malthus s Essay is also persistently misunderstood First published anonymously in 1798 the Essay systematically argues that population growth tends to outpace its means of subsistence unless kept in check by factors such as disease famine or war or else by lowering the birth rate through such means as sexual abstinence Challenging the widely held notion that Malthus s Essay was a product of the British and European context in which it was written Alison Bashford and Joyce Chaplin demonstrate that it was the new world as well as the old that fundamentally shaped Malthus s ideas *A history of currency* Robert Chalmers,1972 *Australia's Fertility Transition* Helen Moyle,2020-02-03 In the late 19th and early 20th centuries most countries in Europe and English speaking countries outside Europe experienced a fertility transition where fertility fell from high levels to relatively low levels England and the other English speaking countries experienced this from the 1870s while fertility in Australia began to fall in the 1880s This book investigates the fertility transition in Tasmania the second settled colony of Australia using both statistical evidence and historical sources The book examines detailed evidence from the 1904 New South Wales Royal Commission into the Fall in the Birth Rate which the Commissioners regarded as applying not only to NSW but to every state in Australia Many theories have been proposed as to why fertility declined at this time theories of economic and social development economic theories diffusion theories the spread of secularisation increased availability of artificial methods of contraception and changes in the rates of infant and child mortality The role of women in the fertility transition has generally been ignored The investigation concludes that fertility declined in Tasmania in the late 19th century in a period of remarkable social and economic transformation with industrialisation urbanisation improvements in transport and communication increasing levels of education and opportunities for social mobility One of the major social changes was in the status and role of women who became the driving force behind the fertility decline *Bazaar Exchange and Mart, and Journal of the Household* ,1893 **Quest for Authority in Eastern Australia, 1835-1851** Michael Roe,1965 Attitudes towards Aborigines by squatters European works very brief history of missions in N S W and work of missionaries in N S W Tasmania *Raupatu* Richard S.
