Sink The Prince Of Wales:

Sink the Prince of Wales Duncan Harding, 2019-05-14 Malaya November 1941 Major Nairns former tea planter and now Acting Major in the Malaya Scouts is on an intelligence patrol on the country's border with Siam when he stumbles on a Japanese seaplane reconnaissance base. With international unrest looming Nairns' instincts tell him they are up to no good. Further surveillance reveals the Japanese plan to eliminate any British ship which might interfere with their proposed landing on the outbreak of war. There is only one such ship at risk: the brand new unsinkable HMS Prince of Wales. In a desperate race against time Nairns sets out to warn the authorities, pursued by the feared Colonel Moto and his secret Kempeitai police. If Nairns fails, there will be nothing to stop the Japanese taking over the whole Peninsula. Duncan Harding is a pseudonym for Charles Whiting 1926-2007, who also wrote as Leo Kessler and John Kerrigan. Charles Whiting volunteered for the Army aged 16 in 1943, where he saw active service in Belgium, Holland and Germany with the 52nd Reconnaissance Regiment. He has over 350 books to his credit encompassing military history, espionage, biography and action fiction, and holds the Sir George Dowry Prize for Literature.

Sinking Force Z 1941 Angus Konstam, 2021-01-21 A history and analysis of one of the most dramatic moments in both air power and naval history. With the sinking of HMS Prince of Wales and Repulse, no battleship was safe on the open ocean and the aircraft took its crown as the most powerful maritime weapon. In late 1941, war was looming with Japan and Britain's empire in southeast Asia at risk. The British government decided to send Force Z, which included the state-of-the-art battleship Prince of Wales and the battlecruiser Repulse, to bolster the naval defences of Singapore and provide a mighty naval deterrent to Japanese aggression. These two powerful ships arrived in Singapore on 2 December, five days before the Japanese attack on Pearl Harbor. But crucially, they lacked air cover. On 9 December, Japanese scout planes detected Force Z's approach in the Gulf of Thailand. Unlike at Pearl Harbor, battleships at sea could manoeuvre and their anti-aircraft defences were ready. But it did no good. The Japanese dive bombers and torpedo bombers were the most advanced in the world, and the battle was one-sided. Strategically, the loss of Force Z was a colossal disaster for the British and one that effectively marked the end of its empire in the East. But even more importantly, the sinking marked the last time that battleships were considered to be the masters of the ocean. From that day on, air power rather than big guns would be the deciding factor in naval warfare.

The German Fleet at War, 1939-1945 Vincent O'Hara, 2011-09-15 The German Fleet at War relates the little-known history of the Kriegsmarine's surface fleet, with a focus on the sixty-nine surface naval battles fought by Germany's major warships against the large warships of the British, French, American, Polish, Soviet, Norwegian and Greek navies. It emphasizes operational details but also paints a broad overview of the naval war. The book addresses the lack of information about the specifics of naval engagements in World War II and provides a database of naval engagements for comparison and analysis, but unlike most reference works, it has a continuous narrative and a theme. The result is a unique overview of the German and Allied navies at war that provides new appreciation of their

heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *US Navy Ships vs Japanese Attack Aircraft* Mark Stille, 2020-09-17 The striking power of the Imperial Japanese Navy's carrier based attack aircraft was established at Pearl Harbor and the IJN's carrier based torpedo and dive bombers showed their prowess again at the Battle of Coral Sea when they sank the US Navy carrier USS Lexington and damaged the carrier USS Yorktown. Even at the disastrous Battle of Midway the relatively small number of IJNAF attack and torpedo bombers that were launched against the US fleet proved that they remained a potent force by heavily damaging Yorktown again which allowed an IJN submarine to sink the carrier. At Guadalcanal IJNAF carrier based aircraft sank the carrier USS Hornet and badly damaged USS Enterprise twice. However throughout 1942 US Navy ship defences brought down an increasing number of attacking IJNAF aircraft. The final major battle of the year the Battle of Santa Cruz exacted crippling losses on the IJN setting the stage for the eclipse of the IJNAF's highly trained and effective aviation attack forces. Packed with illustrations and contemporary photographs this engrossing volume details the design, tactics and operational records of both the US Navy ships and the IJNAF aircraft which attacked them over the year following Pearl Harbor.

The Battle of the Denmark Strait Daniel Knowles, 2020-10-04 Dawn 24 May 1941 two groups of ships one British one German meet in the Denmark Strait. Here two giants of maritime history HMS Hood and the Bismarck meet. Within minutes of the battle beginning HMS Hood blows up with a catastrophic loss of life. Out of a crew of 1,418 only three survive. Coupled with this the Royal Navy's newest battleship is outfought. While this is a cause of celebration for the Germans Bismarck has been wounded curtailing her Atlantic raiding sortie. Despite the wealth of documentary information and photographic evidence available on the battle there continues to be controversy as to how the conflict was actually fought. This book analyses the events of 24 May 1941 to both shed new light and provide clarifications on how the battle was fought, the damage that different ships sustained and how it was that the pride of the Royal Navy was destroyed in such a catastrophic manner.

Taking Midway Martin Dugard, 2025-05-20 From Martin Dugard 1 New York Times bestselling coauthor of Bill O'Reilly's Killing series with more than twelve million copies sold comes a fast paced dramatic account of the famous yet little understood battle that turned the tide of World War II 1942. Everywhere around the world the Allies are losing the war. Nowhere is this felt more completely than in the Pacific where Japanese sea and ground forces claim victory after victory. Singapore falls. Then the Philippines. The vaunted American Navy fights to a draw with the Japanese at the Battle of Coral Sea. America's lone moral victory is Colonel Jimmy Doolittle's bombing raid on Tokyo though even that is tinged with tragedy as two crew members are shot down and beheaded. Meanwhile in Honolulu a brilliant young naval officer is determined to break Japan's top secret codes. Lt Commander Joseph Rochefort is inches away from cracking the code by April. He is then startled to learn that the Japanese are planning yet another major invasion somewhere in the Pacific. Admiral Isoroku Yamamoto is planning to send four aircraft carriers to complete this task in a bold attack that will be even larger than the December 1941 attack on Pearl Harbor. Rochefort's

methods are unique and those in power in the US Navy find his data flawed Simply many don't believe him The best mind in the US Navy believes the next big attack will come at New Guinea or Australia To prove himself Rochefort must not only find the precise location but predict the date What ensues is the cat and mouse adventure that will become the epic fight known as the Battle of Midway Japan's Yamamoto will go toe to toe with American admirals Chester Nimitz Jack Fletcher and Raymond Spruance The dramatic battle will involve strategy luck heartbreak and will also change the course of World War II
