**China in Latin America: Political and Economic Implications of Beijing's Involvement in the Region**

Niccolo Locatelli, 2011-02-15 Relations with Latin America have never been and will probably never be a priority for the People's Republic of China PRC as they will be a dependent variable of domestic economic needs and other more important foreign policy goals among all the ties with the United States During the first forty years of existence geopolitical and economic considerations Latin America was considered to be Washington's backyard and the economies of the region were not complementary with that of China were keeping the PRC away from the area nevertheless things have changed ever since the end of the Cold War and more so since the new millennium The PRC finds in Latin America a market of 500 million people and an almost infinite source of commodities it currently gets from here around 17% of its overall agricultural products imports and 11% of its fuel and mining ones It is a big buyer of three of the four Latin American commodities soy copper and oil and it's increasing its purchases of the fourth coffee The region is also a valuable partner in the struggle for a new world order more democratic and more concerned with the stakes of the developing countries it is a 33 wide voting block whose consensus is useful whenever the human rights policy of the PRC comes under the scrutiny of the United Nations or any of its agencies Finally Latin America is a pawn in the battle for the sovereignty over Taiwan since 12 of the 23 countries that recognize the Republic of China ROC are in the area mainly in Central America and the Caribbean plus Paraguay alone in South America For Latin America the PRC is a huge 1.3 billion people market and a potential source of much needed Foreign Direct Investment which in actuality turns out to be smaller than expected and mostly concentrated in the fiscal heavens of the Caribbean Politically besides the partnership in the struggle for a new world order the mere existence of a China option is itself a source of leverage when Latin American countries have to deal with the United States who now have to face a competitor on trade and politic issues in what used to be their backyard Apparently deepening ties with Latin America is a winning solution for the PRC The same is not completely true for Latin America whose relationship with Beijing can be beneficial but with some caveats As far as bilateral trade is concerned the problem is that of export concentration in 2006 62.5% of the region's exports to China were in the commodity sector it was just 35% in 1995 This leaves Latin America especially South America exposed to the price volatility of its resources which is historically more

elevated than that of the manufactured goods and breeds macroeconomic uncertainty in a region that has always struggled with that issue Furthermore export concentration in the commodity sector as far as the terms of trade are favorable as in the years before the ongoing global crisis might hinder the upgrading of the industrial structure of those countries who find in it an easy and quick source of revenues A positive effect on the welfare of the people and the fight against poverty and inequality is not automatically related to the blossoming of exports of natural resources but depends on economic policy choices A more recent less studied aspect of Sino Latin American trade is the increasing penetration of Chinese manufactured goods in the domestic markets of the region while initially outplacing foreign competitors the flow is becoming a source of concern for businesses in the textile sector of countries like Argentina Brazil and Mexico who find it hard to compete with the minimum cost of labor that makes Chinese goods so cheap That explains why the region has tariffs on imports from the Middle Kingdom that are 10% above world average 20% in the case of South America Competition with Chinese manufactures in the third markets is also Central America s main problem in its re

**China And Latin America: Economic And Trade Cooperation In The Next Ten Years** Zhenxing Su,2017-07-14 The international financial crisis in 2008 marked the beginning of important changes in the international economic system The emerging market economies are increasingly becoming a driving force for the global economic growth Under such circumstances the Sino Latin American economic and trade cooperation has entered a new period of historical opportunity Based on the economic development trend and the adjustment of policy this book explores the prospect for Sino Latin American economic and trade cooperation It tracks the development path for this cooperation in the next 10 years by analyzing resource endowment industrial structure economic system development pattern basic economic policy economic environment economic and trade relations between China and Latin America

China and Latin America in Transition Shoujun Cui,Manuel Pérez García,2016-08-27 This volume explores the policy dynamics economic commitments and social impacts of the fast evolving Sino LAC relations China s engagement with Latin America and the Caribbean has entered into an era of strategic transition While China is committed to strengthening its economic and political ties with Latin America and the Caribbean Latin America as a bloc is enthusiastically echoing China s endeavor by diverting their focus toward the other side of the ocean The transitional aspect of China LAC ties is phenomenal and is manifested not only in the accelerating momentum of trade investment and loan but also in the China CELAC Forum mechanism that maps out an institutional framework for decades beyond While Latin America is redefined as an emerging priority to the leadership in Beijing what are the responses from Latin America and the United States In this sense experts from four continents provide local answers to this global question *Re-mapping the Americas* W. Andy Knight,Julián Castro-Rea,2016-04-01 Since the end of the Second World War the map of the Americas has changed dramatically Not only were many former European colonies turned into sovereign states there was also an ongoing process of region making recognizable throughout the hemisphere and obvious through the establishment of several regional agreements The emergence of political and economic regional integration blocs is a very timely topic analyzed by scholars in many disciplines worldwide This book looks at remapping the recent trends in region making throughout the Americas in a way that hasn t been at the center of academic analyses so far While examining these regionalisation tendencies with a historical background in mind the authors also answer fundamental questions such as What influences does globalization have on region making both on normative regionalism plans as well as on actual economic political cultural military and social regionalization processes driven by state and non state actors What ideas or interests lead states in the Americas to cooperate or compete with one another and how is this power distributed How do these regional agreements affect trade relations and have there been trade barriers set up to protect national economies What agreements exist or have existed and how did they change with regard to contents and for what reason The book informs academic as well as non academic audiences about regional

developments in the Americas in particular those dating back to the last twenty years Beyond the primary purpose of summarizing the hemisphere's recent trends the book also brings clarification in a detailed but easy to understand way about timely issues regarding the institutionalisation or lack thereof of the plethora of regional and sub regional bodies that have emerged in this hemisphere over the past couple of decades Mexico-China Relations Francisco

Antonio-Alfonso,2024-12-02 This book analyses contemporary Mexico China relations as a complex cultural encounter Through an unprecedented analysis of the discursive production of a series of diplomatic media and academic sources this book demonstrates how embedded in the great technological and political transformations of our transition into the 21st century Mexico China relations embodied a complex process of knowledge formation confronting their socially constructed conceptions of time space and otherness a cultural encounter The book advances the idea that the cultural encounter between Mexico and China provides a fundamental case for understanding world politics and human interaction from a truly global perspective and beyond reductionist views of reality Unlike previous works which have predominantly focused on economics or geopolitics strongly influenced by a realist approach the book will present the subject as a dynamic interaction between ideological and material factors Mexico China Relations contributes to the study of otherness construction and critical understanding of the non Western world in international relations IR It will appeal to researchers and students of IR theory political theory cultural studies and studies of the impact of cultural influences on foreign policy as well as professionals working on Sino Latin American relations Handbook on China and Developing Countries Carla P

**Dragonomics** Carol Wise, 2020-03-24 An insightful examination of the political and economic ties between China and Latin America from the 1950s to the present This book explores the impact of Chinese growth on Latin America since the early 2000s Some twenty years ago Chinese entrepreneurs headed to the Western Hemisphere in search of profits and commodities specifically those that China lacked and that some Latin American countries held in abundance copper iron ore crude oil and soybeans Focusing largely on Argentina Brazil Chile Costa Rica Mexico and Peru Carol Wise traces the evolution of political and economic ties between China and these countries and analyzes how success has varied by sector project and country She also assesses the costs and benefits of Latin America's recent pivot toward Asia Wise argues that while opportunities for closer economic integration with China are seemingly infinite so are the risks She contends that the best outcomes have stemmed from endeavors where the rule of law regulatory oversight and a clear strategy exist on the Latin American side

Multilateral Approach In China's Foreign Policy Joseph Yu-shek Cheng, 2017-12-21 Since the mid 1990s the Chinese authorities have gradually come to embrace multilateralism to realize their basic foreign policy objectives in maintaining a peaceful international environment and enhancing China's international status and influence This embrace is largely based on pragmatic considerations There is no denial however that elements of liberalism and constructivism gradually enter into the considerations of Chinese leaders They accept for example that non traditional security issues can only be tackled through genuine multilateralism This volume carefully examines China's increased participation in multilateral organizations and mechanisms and its efforts to initiate and develop its own discourses on global affairs straddling Asia the Middle East Africa and the Latin American continents China's presence in international multilateral organizations has been providing developing countries a better chance to maintain a balance of power Since China has no ambitious plan to transform the existing international order its increasing enthusiastic engagement of multilateralism is likely to be accepted by the international community
