**Politics of Practice** Lynette

Hunter,2019-10-17 This book discusses affective practices in performance through the study of four contemporary performers Keith Hennessy Ilya No Caro Novella and duskin drum to suggest a tentative rhetoric of performativity generating political affect and permeating attempts at social justice that are often alterior to discourse The first part of the book makes a case for the political work done alongside discourse by performers practising with materials that are not known in ways that are directly relevant to people carrying out their daily lives In the second part of the book four case study chapters circle around figures of irresolvable paradox hendiadys enthymeme anecdote allegory that gesture to what is not known to study strategies for processes of becoming knowing and valuing These figures also shape some elements of these performances that make up a suggested rhetorical stance for performativity Critical Qualitative Inquiry Gaile S Cannella,Michelle Salazar Pérez,Penny A Pasque,2016-07-01 Critical approaches to qualitative research have made a significant impact on research practice over the past decade This comprehensive volume of contemporary original articles places this trend in its historical context describes the current landscape of critical work and considers the future of this turn The book includes contributions from some of the leading qualitative researchers on three continents consists of big picture articles that describe the dimensions of this research tradition situates critical qualitative inquiry in the overall development and landscape of qualitative research *Figuring it Out* Ann B. **The Rhetorics of Feminism** Lynne Pearce,2013-04-15 Is it possible that changes in rhetorical practice could alter not just how thought is expressed but also how it is made Through a close stylistic and rhetorical analysis of contemporary feminist writing from the cultural theory of Judith Butler to the popular journalism of Naomi Wolf and Germaine Greer Lynne Pearce demonstrates how feminist thought is created as well as communicated through the frameworks in which it is presented By linking rhetorical innovation with feminist epistemology in such a direct way this is a book that will be of immense methodological as well as theoretical interest to readers providing valuable insight into the often mysterious processes of conception and composition **Cultural Studies** ,2016-09-12 This volume claims that interdisciplinarity and translation constitute the two main challenges for cultural studies today These conceptual issues inter and trans express themselves within specific historical and cultural contexts Interdisciplinarity is linked with the ongoing process of the institutionalisation of cultural studies in national academies but also increasingly internationally comparatively and to a

certain extent even globally of cultural studies of global culture Translation concerns cultural studies both as an object or product and as a subject or producer of translation processes Cultural studies is the result of translation translates and is being translated The essays in this volume therefore relate these various ongoing cultural linguistic and institutional translation processes to political and ethical issues of internationalisation and globalisation The contributions draw their originality and strength from strategically crossing disciplinary and national boundaries They deliberately ignore the question of what may be proper to cultural studies and instead problematise the notions of propriety and belonging As a reading practice cultural studies in these pages is performed through adaptations and combinations of theory and critical practice The volume should be of interest to everyone concerned with cultural studies role in promoting intellectual debate within an increasingly international and globalised public sphere *Disciplinary Conquest* Ricardo D. Salvatore, 2016-03-28 Ricardo D Salvatore rewrites the history of Latin American studies by tracing its roots back to the first half of the twentieth century showing how its ties to U S business and foreign policy interests helped build an informal empire that supported U S economic technological and cultural hegemony throughout the hemisphere World Weavers Kin Yuen Wong, Gary Westfahl, Amy Kit-sze Chan, 2005-11-01 World Weavers is the first ever study on the relationship between globalization and science fiction Scientific innovations provide citizens of different nations with a unique common ground and the means to establish new connections with distant lands This study attempts to investigate how our world has grown more and more interconnected not only due to technological advances but also to a shared interest in those advances and to what they might lead to in the future Science fiction has long been both literally and metaphorically linked to the emerging global village It now takes on the task of exploring how the cybernetic revolution might transform the world and keep it one step ahead of the real world despite ever accelerating developments As residents of a world that is undeniably globalized science fictional and virtual it is incumbent on us to fully understand just how we came to live in such a world and to envisage where this world may be heading next World Weavers represents one small but significant step toward achieving such knowledge

**Ecological Thinking** Lorraine Code, 2006-04-27 Arguing that ecological thinking can animate an epistemology capable of addressing feminist multicultural and other post colonial concerns this book critiques the instrumental rationality hyperbolized autonomy abstract individualism and exploitation of people and places that western epistemologies of mastery have legitimated It proposes a politics of epistemic location sensitive to the interplay of particularity and diversity and focused on responsible epistemic practices Starting from an epistemological approach implicit in Rachel Carson s scientific projects the book draws constructively and critically on ecological theory and practice on post Quinean naturalized epistemology and on feminist and post colonial theory Analyzing extended examples from developmental psychology from medicine and law and from circumstances where vulnerability credibility and public trust are at issue the argument addresses the constitutive part played by an instituted social imaginary in shaping and regulating human lives The practices

and examples discussed invoke the responsibility requirements central to this text's larger purpose of imagining crafting articulating a creative innovative instituting social imaginary committed to interrogating entrenched hierarchical social structures en route to enacting principles of ideal cohabitation
