Situationism And The New Morality Contemporary Problems In Philosophy By:

Situationism and the New Morality Robert L. Cunningham,1970 **Symbols of Transcendence** Paul J.

Levesque,1997 Volume 22 in the LTPM series offers a synchronic investigation of the thought of Christian philosopher Louis Dupre Working from a careful reading of Dupre s vast body of writings Paul Levesque demonstrates that in Dupre s work all religious expression insofar as it has a transcendent reference is intrinsically symbolic In the course of his study Levesque discusses the general necessity of employing symbols for religious expression investigates in depth Dupre s symbol theory and applies it to the religious symbols of ritual sacraments and religious art examines the modern inability to fully form religious symbols and explores Dupre s particular call to recover the mystical experience in personal life *Hume's Moral Philosophy and Contemporary Psychology* Philip A. Reed,Rico Vitz,2018-06-27 Recent work at the intersection of moral philosophy and the philosophy of psychology has dealt mostly with Aristotelian virtue ethics The dearth of scholarship that engages with Hume s moral philosophy however is both noticeable and peculiar Hume s Moral Philosophy and Contemporary Psychology demonstrates how Hume s moral philosophy comports with recent work from the empirical sciences and moral psychology It shows how contemporary work in virtue ethics has much stronger similarities to the metaphysically thin conception of human nature that Hume developed rather than the metaphysically thick conception of human nature that Aristotle espoused It also reveals how contemporary work in moral motivation and moral epistemology has strong affinities with themes in Hume s sympathetic sentimentalism *Ethics in Qualitative Research* Martyn Hammersley,Anna Traianou,2012-06-06 Ethics in Qualitative Research explores this field and presents a distinctive perspective one that is at odds with the assumptions underpinning ethical regulation but also with the views of many qualitative researchers today Martyn Hammersley and Anna Traianou emphasize the difficult and controversial character of ethical issues and examine the philosophical assumptions involved the social contexts in which key ethical principles arise and their implications for research practice The authors argue that the starting point for any discussion of research ethics must be the values intrinsic to research above all the commitment to knowledge production Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1972 Contemporary Confucian Political Philosophy Stephen C. Angle,2013-04-17 Confucian political philosophy has recently emerged as a vibrant area of thought both in China and around the globe This book provides an accessible introduction to the main perspectives and topics being debated today and shows why Progressive Confucianism is a particularly promising approach Students of political theory or contemporary politics will learn that far from being confined to a museum contemporary Confucianism is both responding to current challenges and offering insights from which we can all learn The Progressive Confucianism defended here takes key ideas of the twentieth century Confucian philosopher Mou Zongsan 1909 1995 as its point of departure for exploring issues like political authority and legitimacy the rule of law human rights civility and social justice The result is anti authoritarian without abandoning the ideas of virtue and harmony it

preserves the key values Confucians find in ritual and hierarchy without giving in to oppression or domination A central goal of the book is to present Progressive Confucianism in such a way as to make its insights manifest to non Confucians be they philosophers or simply citizens interested in the potential contributions of Chinese thinking to our emerging shared world

The Limits of Utilitarianism Harlan B. Miller, William Hatton Williams, *The Limits of Utilitarianism* was first published in 1982 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Many philosophers have argued that utilitarianism is an unacceptable moral theory and that promoting the general welfare is at best only one of the legitimate goals of public policy Utilitarian principles seem to place no limits on the extent to which society may legitimately interfere with a person's liberties provided that such actions can be shown to promote the long term welfare of its members These issues have played a central role in discussions of utilitarianism since the time of Bentham and Mill Despite criticisms utilitarianism remains the most influential and widely accepted moral theory of recent times In this volume contemporary philosophers address four aspects of utilitarianism the principle of utility utilitarianism vis vis contractarianism welfare and voluntary cooperation and helping others The editors provide an introduction and a comprehensive bibliography that covers all books and articles published in utilitarianism since 1930

Three Streams Philip J. Ivanhoe, 2016-09-15 Recent interest in Confucianism has a tendency to suffer from essentialism and idealism manifested in a variety of ways One example is to think of Confucianism in terms of the views attributed to one representative of the tradition such as Kongzi Confucius 551 479 BCE or Mengzi Mencius 372 289 BCE or one school or strand of the tradition most often the strand or tradition associated with Mengzi or in the later tradition that formed around the commentaries and interpretation of Zhu Xi 1130 1200 Another such tendency is to think of Confucianism in terms of its manifestations in only one country this is almost always China for the obvious reasons that China is one of the most powerful and influential states in the world today A third tendency is to present Confucianism in terms of only one period or moment in the tradition for example among ethical and political philosophers pre Qin Confucianism usually taken to be the writings attributed to Kongzi Mengzi and if we are lucky Xunzi 479 221 BCE often is taken as Confucianism These and other forms of essentialism and idealism have led to a widespread and deeply entrenched impression that Confucianism is thoroughly homogenous and monolithic these often are facts mustered to support the purportedly oppressive authoritarian and constricted nature of the tradition such impressions

can be found throughout East Asia and dominate in the West This is quite deplorable for it gives us no genuine sense of the creatively rich philosophically powerful highly variegated and still very much open ended nature of the Confucian tradition This volume addresses this misconstrual and misrepresentation of Confucianism by presenting a philosophically critical account of different Confucian thinkers and schools across place China Korea and Japan and time the 10th to 19th centuries

Character and Moral Psychology Christian B. Miller, 2014 Christian Miller explores ethical implications of his new theory of character which holds that our characters are made up of mixed traits with some morally positive and some morally negative aspects He examines whether judgements of character are systematically erroneous and assesses the challenge to virtue ethics from scepticism about virtue

Josef Fuchs on Natural Law Mark Graham, 2002-10-25 Appointed by Pope John XXIII to the Pontifical Commission on Population Family and Birth Fuchs ultimately found himself disappointed in his three years of service and spent the next thirty years exploring a broad array of issues pivotal to a reconstruction of Roman Catholic natural law theory This is the first full length analysis of Fuchs's efforts Beginning historically by looking at Fuchs's writings and beliefs before the Pontifical Commission appointment including his defense of natural law during the situation ethics debates of the 50s and 60s the concept of personal salvation and the status of nature and human nature Graham moves to the intellectual conversion that inspired Fuchs to reconsider his concepts following the commission appointment From there Graham engages in a sustained critique of Fuchs's natural theory addressing both the strengths and weaknesses to be found there and suggest possible avenues of development that would make a positive contribution to the ongoing quest to rehabilitate the Roman Catholic natural law theory that continues to dominate the landscape of moral theology today

New Interdisciplinary Landscapes in Morality and Emotion Sara Graça Da Silva, 2018-03-09 The intersection between morality and emotion is not always easily discernible Researchers often choose to treat these concepts separately and in doing so an important aspect of this symbiosis is irremediably thwarted

New Interdisciplinary Landscapes in Morality and Emotion considers the relationship between these fields reflecting on complex philosophical psychological social evolutionary historical and literary approaches The book reviews emerging paths and features contributions from distinct scientific fields including highly debated and somewhat controversial topics such as the relationship between empathy and in group biases emotion and irrationality reflexivity and meta emotions shame and pro social behaviour the evolution of human jealousy the role of love in driving moral motivation individuals wellbeing behavioural economics social robotics historical considerations of medical societies and politics of sadism and literary reflections on sympathy and emigration Covering various methodological angles and entanglements *New Interdisciplinary*

Epistemic Situationism Abrol Fairweather, Mark Alfano, 2017-04-15 This volume is the first sustained examination of epistemic situationism the clash between virtue epistemology and the situationist hypothesis inspired by research in empirical psychology Situationism began as a challenge to the psychology of character traits targeting ethical theories that presuppose a trait psychology Psychological research suggests that often trivial environmental variables have greater explanatory power than character traits Epistemology pursues questions about the nature of knowledge While there are internal differences within virtue epistemology between responsibilists and reliabilists they all analyze knowledge in terms of epistemic virtues and vices However despite promising normative results virtue epistemology appears to assume the same character based psychology as virtue ethics does Until recently virtue epistemology and situationism were separate literatures but philosophers have begun to examine the apparent incompatibility between situationist psychology and virtue epistemology Much of the psychological research that raises questions about the empirical adequacy of the moral psychology of virtue ethics also appears to raise doubts about the empirical adequacy of the epistemic psychology assumed by virtue epistemology Responsibilist virtue epistemology appears particularly vulnerable because epistemic virtues like open mindedness conscientiousness and intellectual courage are traits of intellectual character but reliabilist virtue epistemology appeals to the psychology of cognitive skills abilities and competences that may be similarly vulnerable The essays in this volume take up this new problem of epistemic situationism from multiple points of view some sceptical or revisionary others conservative

The Routledge Companion to Virtue Ethics Lorraine Besser-Jones, Michael Slote, 2015-02-20 Virtue ethics is on the move both in Anglo American philosophy and in the rest of the world This volume uniquely emphasizes non Western varieties of virtue ethics at the same time that it includes work in the many different fields or areas of philosophy where virtue ethics has recently spread its wings Just as significantly several chapters make comparisons between virtue ethics and other ways of approaching ethics or political philosophy or show how virtue ethics can be applied to real world problems
