*Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy* Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an

organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment

**Managing Operations in Manufacturing, Services and e-Business - 2nd Edition** Barin N. Nag,2019 **The AMA Handbook of Project Management** Paul C. Dinsmore,Jeannette Cabanis-Brewin,2006 The authoritative guide to project management completely revised to meet the accelerating pace of today s project environment *Systemic Flexibility and Business Agility*

Sushil,Gerhard Chroust,2014-12-16 This book provides a conceptual framework for systemic flexibility and business agility drawing on a basis of research case applications in various types of flexibility and agility in business The selected papers address a variety of issues concerning the theme of systemic flexibility and business agility and are organized into following five parts i Systemic and Strategic Flexibility ii Information and Business Agility iii Flexibility Innovation and Business Excellence iv Flexibility in Value and Supply Chains and v Financial Flexibility and Mergers Acquisitions Flexibility and agility in business are emerging as key dimensions of business excellence that encompass the requirements of both choice and speed The two concepts flexibility and agility have been used in multiple ways and often interchangeably both in literature and in practice The growing need for flexibility agility in business can be seen from reactive as well as proactive perspectives A business enterprise is expected to possess reactive flexibility agility as adaptability and responsiveness in order to cope with the changing and uncertain business environment It may also endeavor to intentionally generate flexibility agility as a strategic change in a variety of ways such as leadership change reengineering innovation in products and processes use of information and communication technology and learning orientation
