Patterson,2005-09-23 In Restless Giant acclaimed historical author James

Patterson provides a crisp concise assessment of the twenty seven years between the resignation of Richard Nixon and the election of George W Bush in a sweeping narrative that seamlessly weaves together social cultural political economic and international developments We meet the era s many memorable figures and explore the culture wars between liberals and conservatives that appeared to split the country in two A volume in the acclaimed Oxford History of the United States this insightful and engaging book captures this period of American history in a way that no other book has On a Global

Mission: The Automobiles of General Motors International Volume 3 Louis F. Fourie,2016-12-29 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015 Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM Each model is examined individually and supplemented by exhaustive supporting specification tables The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these

unusual marques came under the GM Banner Included is a penetrating review of Saab through to its unfortunate demise Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America Daewoo Wuling and Baojun are other Asian brands covered in detail This volume concludes with recording the remarkable early success of Holden and its continued independence through to today Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations A brief history of Isuzu Subaru and Suzuki looks at the three minority interests GM held in Asia The GM North American model specifications are the most comprehensive to be found in a single book Global and regional sales statistics are included GM executives and management from around the globe are listed with the roles they held An index ensures that these volumes serve as the ideal reference source on GM

Two Billion Cars Daniel Sperling, Deborah Gordon, 2009-01-13 Today there are over a billion vehicles in the world and within twenty years the number will double largely a consequence of China's and India's explosive growth Given that greenhouse gases are already creating havoc with our climate and that violent conflict in unstable oil rich nations is on the rise will matters only get worse Or are there hopeful signs that effective realistic solutions can be found Blending a concise history of cars and their impact on the world leading transportation experts Daniel Sperling and Deborah Gordon explain how we arrived at this state and what we can do about it Sperling and Gordon assign blame squarely where it belongs on the auto industry short sighted government policies and consumers They explore such solutions as getting beyond the gas guzzler monoculture re-inventing cars searching for low carbon fuels and more Promising advances in both transportation technology and fuel efficiency together with shifts in traveler behavior they suggest offer us a way out of our predicament The authors conclude that the two places that have the most troublesome emissions problems California and China are the most likely to become world leaders on these issues Arnold Schwarzenegger's enlightened embrace of eco friendly fuel policies which he discusses in the foreword and China's forthright recognition that it needs far reaching environmental and energy policies suggest that if they can tackle the issue effectively and honestly then there really is reason for hope Updated with a new afterword that sheds light on the profound changes in the global economy in the last year **Two Billion Cars** makes the case for why and how we need to transform transportation now more than ever Authoritatively prescriptive Tom Vanderbilt Wilson Quarterly Provocative and pleasurable far seeing and refreshing fact based and yet a page turner global in scope but rooted in real places The authors make a convincing case that smart consumers driving smart electric drive cars can find the critical path to a safer planet Robert Socolow Princeton University In this insightful and persuasive book Sperling and Gordon highlight one of the biggest environmental challenges of this century two billion cars They rightly contend that we cannot avert the worst of global warming without making our cars cleaner and petroleum free Luckily the authors also offer a roadmap for navigating this problem that is both visionary and achievable Frances Beinecke President Natural Resources Defense Council
