**Smuggling in Hampshire and Dorset, 1700-1850** Geoffrey Morley, 1983 *Protest, Politics and Work in Rural England, 1700-1850* Carl Griffin, 2013-11-28 Rural workers in eighteenth and early nineteenth century England were not passive victims in the face of rapid social change Carl J Griffin shows that they deployed an extensive range of resistances to defend their livelihoods and communities Locating protest in the wider contexts of work poverty and landscape change this new text offers the first critical overview of this growing area of study *Smuggling in Devon and Cornwall 1700-1850* Mary Waugh, 1991 *Smugglers and Smuggling* Trevor May, 2014-08-10 Smuggling was rife in Britain between the seventeenth and mid nineteenth centuries and since then smugglers have come often to be romanticised as cheeky rogues as highwaymen of the coasts and Robin Hood figures The reality could be very different Cut throat businessmen determined to make a profit many smugglers were prepared to use excessive force as often as they used cunning and the officers whose job it was to apprehend them were regularly brutally intimidated into inaction Trevor May explains who the smugglers were what motivated them where they operated and how items ranging from barrels of brandy to boxes of tea would surreptitiously be moved inland under the noses of and sometimes even in collusion with the authorities **Coastal Policing in**

**Eighteenth-Century Britain** Hannes Ziegler, 2025-06-10 The first comprehensive study of Britain's coastal policing and administration across the long eighteenth century Throughout Britain's past its coast has presented security concerns Despite this long history of raids smugglers and warfare consistent designated and permanent coastal enforcement bodies were only established in England in the 1690s Initially a reaction to the threats of the Nine Years Wars their creation spoke to a new understanding of The Coast as a politically distinct and liminal space a region neither land nor sea with its own issues and social dynamics that had to be controlled through new more sophisticated methods This study explores the circumstances that both necessitated a formalised policing of coastal areas and influenced the subsequent development of these enforcement bodies showing how their missions and practices fluctuated in relation to key political events and economic policies across the century In doing so the book encompasses a long eighteenth century starting with political developments in the run up to the Glorious Revolution and ending with the overhaul of coastal bureaucracies in the wake of the Napoleonic Wars In conjunction with this larger historical sweep through extensive archival research the book reveals the failures in coastal policing arguing that these shortcomings stemmed not from the cunning of smugglers or bureaucratic inefficiency but from inherent contradictions in Britain's imperial ambitions In highlighting the complexities of this watery borderland Hannes Ziegler sheds new light on the inner workings of Britain's fiscal military enterprises and state building challenges of its evolving imperial identity gs stemmed not from the cunning of smugglers or bureaucratic inefficiency but from inherent contradictions in Britain's imperial ambitions In highlighting the complexities of this watery borderland Hannes Ziegler sheds new light on the inner workings of Britain's fiscal military enterprises and state building challenges of

*The River Hamble* David Chun,2014-01-01 The Hamble rises at Bishop s Waltham in Hampshire and flows into Southampton Water It is a relatively small river but it has an interesting and varied history Above Botley the Hamble powered a number of mills and in the 17th century plans to make that section navigable were contemplated The tidal river below Botley has served as an important local conduit for the carriage of goods and commodities particularly timber underwood and fl our and a number of industries including fishing and salt production have flourished on its banks over the centuries King Henry V s fleet was stationed on the river and in the 18th and 19th centuries it was an important location for naval shipbuilding not least because of the ample supplies of timber to be found in the valley One of Nelson s flagships HMS Elephant was built there in the 1800s The proximity of Southampton and Portsmouth meant the river was militarily important during the Second World War as well as in earlier conflicts It also boasts a number of literary associations particularly that of William Cobbett who lived and farmed at Botley for a number of years at the beginning of the 19th century The river has been a popular centre for yachting for over 100 years and there are a number of boatyards and marinas along its lower reaches today However despite this and other commercial development the river is still prized for its natural beauty and large sections are protected for their ecological and conservation value Drawing on printed and archival sources and with a wealth of illustrations this book traces the river from its source to the sea
