Primary Understanding Kieran Egan,2012-04-27 Beginning with descriptions of the ways in which children make sense of their experience and the world such as fantasy stories and games Egan constructs his argument that constituting this foundational layer are sets of cultural sense making capacities reflected in oral cultures throughout the world Egan sees education as the acquisition of these sets of sense making capacities available in our culture and his goal is to conceptualize primary education in a way that over comes the dichotomy between progressivism and traditionalism attending both the

needs of the individual child and the accumulation of knowledge *A Carnival of Revolution* Padraic Kenney, 2003-08-31

This is the first history of the revolutions that toppled communism in Europe to look behind the scenes at the grassroots movements that made those revolutions happen. It looks for answers not in the salons of power brokers and famed intellectuals, not in decrepit economies but in the whirlwind of activity that stirred so crucially unstoppably on the street. Melding his experience in Solidarity-era Poland with the sensibility of a historian, Padraic Kenney takes us into the hearts and minds of those revolutionaries across much of Central Europe who have since faded namelessly back into everyday life. This is a riveting story of musicians, artists, and guerrilla theater collectives subverting traditions and state power; a story of youthful social movements emerging in the 1980s in Poland, East Germany, Czechoslovakia, Hungary, and parts of Yugoslavia and the Soviet Union. Kenney argues that these movements were active well before glasnost. Some protested military or environmental policy. Others sought to revive national traditions or to help those at the margins of society. Many crossed forbidden borders to meet their counterparts in neighboring countries. They all conquered fear and apathy to bring people out into the streets. The result was a revolution unlike any other before: nonviolent, exuberant, even light-hearted, but also with a relentless political focus, a revolution that leapt from country to country in the exciting events of 1988 and 1989. *A Carnival of Revolution* resounds with the atmosphere of those turbulent years: the daring of new movements, the unpredictability of street demonstrations, and the hopes and regrets of the young participants. A vivid photo essay complements engaging prose to fully capture the drama. Based on over two hundred interviews in twelve countries and drawing on samizdat and other writings in six languages, this is among the most insightful and compelling accounts ever published of the historical milestone that ushered in our age.

Caribbean Diaspora in the USA Dr Bettina Schmidt, 2013-05-28

Caribbean Diaspora in the USA presents a new cultural theory based on an exploration of Caribbean religious communities in New York City. The Caribbean culture of New York demonstrates a cultural dynamism which embraces Spanish-speaking, English-speaking, and French-speaking migrants. All cultures are full of breaks and contradictions, as Latin American and Caribbean theorists have demonstrated in their ongoing debate. This book combines unique research by the author in Caribbean New York with the theoretical discourse of Latin American and Caribbean scholars. Focusing on Caribbean religious communities including Cuban, Puerto Rican, Santería, Regla de Ocha, Haitian Vodou, Shango, Orisha, Baptist from Trinidad and Tobago, and Brazilian Pentecostal church, Schmidt's observations lead to the construction of a cultural concept that illustrates a culture in an ongoing state of change with more than one form of expression depending on situation, time, and context. Showing the creativity of religions and the way immigrants adapt to their new surroundings, this book fills a gap between Latin American and Caribbean Studies.
