The Myth of Human Races Alain F. Corcos, 2012-01-01 The idea that human races exist is a socially constructed myth that has no grounding in science Regardless of skin hair or eye color stature or physiognomy we are all of one species Nonetheless scientists social scientists and pseudo scientists have for three centuries tried vainly to prove that distinctive and separate races of humanity exist These protagonists of race theory have based their flawed research on one or more of five specious assumptions humanity can be classified into groups using identifiable physical characteristics human characteristics are transmitted through the blood distinct human physical characteristics are inherited together physical features can be linked to human behavior human groups or races are by their very nature unequal and therefore they can be ranked in order of intellectual moral and cultural superiority The Myth of Human Races systematically dispels these fallacies and unravels the web of flawed research that has been woven to demonstrate the superiority of one group of people over another

A moving funny engrossing book The Observer Gee satirises the liberal conscience of the chattering classes with uncomfortable perception in this hugely enjoyable novel her portrayal of Britain's new underclass of immigrant workers is presented with her trademark stinging clarity Metro Maggie Gee is a superb and pitiless analyser of middleclass angst Elegant humorous and surprising this is a classy performance The Times It's amazing how many details characters stories within stories Maggie Gee's unquenchable exuberance crams into this comparatively short book The Spectator An intelligent and satisfying read The Sunday Times A masterful study in Africa UK relations which manages to be supremely uncomfortable without being cynical and clever without being calculating Big Issue The Flood was chillingly predictive My Cleaner is a calmer happier novel Yet a gnawing tragedy lies in the shadows all the more poignant for the deftness with which it's brushed aside The Independent
