Existence and Heritage Tsenay Serequeberhan,2015-10-07 Explores overlapping concerns and themes in African a and continental philosophy In *Existence and Heritage* Tsenay Serequeberhan examines what the European philosophical tradition has to offer when encountered from the outsider perspective of postcolonial African thought He reads Kant in the context of contemporary international relations finds in Gadamer s work a way of conceiving relations among differing traditions and explores Heidegger s analysis of existence as it converges with Marx s critique of alienation In the confluence of these different assessments Serequeberhan articulates both a need and example of responding to Fanon s call for a new kind of thinking in philosophy He demonstrates both how continental philosophy can be a useful resource for theorizing Africa s postcolonial condition and how postcolonial thought and African philosophy can provide a new way of approaching and understanding the Western tradition **Emotions in Social Life**

Gillian Bendelow,Simon J Williams,2002-09-11 The development of a sociology of emotions is crucial to our understanding of social life as they hold the key to our understanding of social processes and sociological investigation First published in 1997

Emotions in Social Life consolidates the sociology of emotions as a legitimate and viable field of enquiry. It provides a comprehensive assessment of the sociology of emotions using work from scholars of international stature as well as newer writers in the field. It presents new empirical research in conjunction with innovative and challenging theoretical material and will be essential reading for students of sociology, health psychology, anthropology and gender studies. *Film and the Law* Steve Greenfield, Guy Osborn, Peter Robson, 2010-10-05. Described by Richard Sherwin of New York Law School as the law and film movement's founding text, this text is a second heavily revised and improved edition of the original *Film and the Law*. Cavendish Publishing, 2001. The book is distinctive in a number of ways: it is unique as a sustained book-length exposition on law and film by law scholars; it is distinctive within law and film scholarship in its attempt to plot the parameters of a distinctive genre of law films; its examination of law in film as place and space offers a new way out of the law film genre problem and also offers an examination of representations of an aspect of legal practice and legal institutions that have not been addressed by other scholars. It is original in its contribution to work within the wider parameters of law and popular culture and offers a sustained challenge to traditional legal scholarship, amply demonstrating the practical and the pedagogic as well as the moral and political significance of popular cultural representations of law. The book is a valuable teaching and learning resource and is the first in the field to serve as a basic guidebook for students of law and film.
