training in Bolivia and Nepal EXCERPT The Le Tour ski station is served by the Charamillon col de Balme lift systems The skiing here is accessible user friendly and good for all the family For the more committed off piste skier there is also the descent to Les Jours in Switzerland on the north face above Vallorcine However as with any area at the head of a valley Le Tour is subject to frequent changes in the air currents and you should be aware of what they are doing if you are planning to ski the routes here In fact although Le Tour has an image as an area for relatively easy moyenne montagne skiing you should not underestimate the ever present risks The accumulation of snow that occurs as a direct result of these specific conditions is responsible each year for a number of accidents and avalanches The high mountains that overlook this mixture of forests and pastures form the eastern extremity of the Mont Blanc Massif and it has been quite calm here since the snout of the glacier avalanched

security technics over glaciers Illustrated guide Moving around glaciers is a dangerous activity in which many accidents have fatal consequences Throught six years work in Antarctica the author has gathered data and information resulting from numerous tests and trials carried out on the terrain The result is this essential piece of work for those who wish to get inside glaciers with snowmobiles It s all about the first book which explains in detail and with precision the steps that need to be followed in order to be able to control snowmobiles movements This manual incorporates photographs tables and diagrams which help the reader to understand the theoretic lines and includes a small first aid guide and simulated self rescue exercises as well as practical exercises for participants and clients traversing glaciers The Snowmobile Bible fills a documentary void and it does so using clear and practical language which makes it a reference manual apt for any public

wild north side where the snow stays in excellent condition for a long time The secondary ranges of the Perrons and Luisin Emaney don t have ski lifts and usually get skied at the beginning of the season for road access to the Emosson Dam as the snow cover is general better here the area is near the very wet valleys of Haut Faucigny      **Western Snowmobile Trail**
