Snows Of Yesteryear:

The Snows of Yesteryear Bernard Stanley Oldsey, 2001-02 The Snows of Yesteryear Gregor Von Rezzori, 2008-12-02 Gregor von Rezzori was born in Czernowitz a onetime provincial capital of the Austro Hungarian Empire that was later to be absorbed successively into Romania the USSR and the Ukraine a town that was everywhere and nowhere with a population of astonishing diversity Growing up after World War I and the collapse of the empire Rezzori lived in a twilit world suspended between the formalities of the old nineteenth century order which had shaped his aristocratic parents and the innovations uncertainties and raw terror of the new century The haunted atmosphere of this dying world is beautifully rendered in the pages of The Snows of Yesteryear The book is a series of portraits amused fond sometimes appalling of Rezzori's family his hysterical and histrionic mother disappointed by marriage destructively obsessed with her children's health and breeding his father a flinty reactionary whose only real love was hunting his haughty older sister fated to die before thirty his earthy nursemaid who introduced Rezzori to the power of storytelling and the inevitability of death and a beloved governess Bunchy Telling their stories Rezzori tells his own holding his early life to the light like a crystal until it shines for us with a prismatic brilliance **Snows of Yestervear** Robert K. Peterson, 2004 **Calendar Cuts** Alfred Colo, 2011-10-19 This highly readable book will absorb inform and entertain nature and poetry lovers. Here is an ideal guide to understanding the fascinating backgrounds to approaching celebrations in twelve months and Four Seasons of time mapping poetry Without an understanding of the regularity of the motions of sun and moon to guide them our remote ancestors could not plan ahead their experience of time could have been no more than a succession of days and moons and seasons Only after they learned to count and do simple arithmetic and after many nights of careful observation of the heavens did the calendar begin to take The List Robert E. Belknap, 2008-10-01 I am no more lonely than the Mill Brook or a weathercock or the north star shape or the south wind or an April shower or a January thaw or the first spider in a new house wrote Henry David Thoreau in Walden In creating this list and many others that appear in his writings Thoreau was working within a little recognized yet ancient literary tradition the practice of listing or cataloguing This beautifully written book is the first to examine literary lists and the remarkably wide range of ways writers use them Robert Belknap first examines lists through the centuries from Sumerian account tablets and Homer's catalogue of ships to Tom Sawyer's earnings from his fence painting scheme then focuses on lists in the works of four American Renaissance authors Emerson Whitman Melville and Thoreau Lists serve a variety of functions in Emerson's essays Whitman's poems Melville's novels and Thoreau's memoirs and Belknap discusses their surprising variety of pattern intention scope art and even philosophy In addition to guiding the reader through the list s many uses this book explores the pleasures that lists offer The Elsewhere Adam Zachary Newton, 2005-08-03 The Elsewhere Or midbar biblical Hebrew for both wilderness and speech A place of possession and dispossession loss and nostalgia But also a place that speaks Ingeniously using a Talmudic interpretive formula about the disposition of boundaries

Newton explores narratives of place flight border and beyond The writers of The Elsewhere are a disparate company of twentieth century memoirists and fabulists from the Levant Palestine Israel Egypt and East Central Europe Together their texts cunningly paired so as to speak to one another in mutually revelatory ways narrate the paradox of the near distance

Vademecum of English Grammar, **A Scion of the Times** Leon Schwartz,2010-09 For Fear of the Fire Françoise Meltzer,2010-08-15 Why are contemporary secular theorists so frequently drawn to saints martyrs and questions of religion Why has Joan of Arc fascinated some of the most important thinkers of the twentieth century In a book that faces crucial issues in both critical and feminist inquiry Fran oise Meltzer uses the story of Joan as a guide for reading the postmodern nostalgia for a body that is intact and transparent She argues that critics who place excessive emphasis on opposition and difference remain blind to their nostalgia for the pre Cartesian idea that the body and mind are the same Engaging a number of theorists and alternating between Joan's historical and cultural context Meltzer also explores the ways

in which postmodern thinkers question subjectivity She argues that the way masculine subjects imagine Joan betrays their fear of death and necessitates the role of women as cultural others enigmatic mysterious dark and impossible As such Joan serves as a useful model of the limits and risks of subjectivity For Meltzer she is both the first modern and the last medieval figure From the ecclesial jury that burned her to the theorists of today who deny their attraction to the supernatural the philosophical assumptions that inform Joan's story as Meltzer ultimately shows have changed very little Backwards and Other New Zen Koans Ross Bolleter, 2018-07-03 Discover how the mysterious powerful form of the koan known for bringing about sudden enlightenment can disrupt and illuminate your everyday understanding of life Traditionally Zen koans the teaching stories of Zen are drawn from the words and teachings of ancient masters and primarily address the concerns of male monastic practitioners In The Crow Flies Backward Ross Bolleter changes all at The 108 modern koans offered within address sexuality and childbirth family parenthood work money and even the nature time itself These koans are drawn from a variety of modern sources Western philosophy the Bible contemporary and classic literature from Proust to Lewis Carroll and Mary Oliver and Anne Carson as well as stories provided by author's encounters with his Zen students Bolleter's commentaries provide guidance to the reader on how to engage with each koan and koans in general and direct guidance to meditate with koans An appendix offers rarely seen intimate and in depth accounts of the process of koan introspection from four of the author's senior students *Niceville* Carsten Stroud, 2012-06-12 Something is wrong in Niceville A boy literally disappears from Main Street A security camera captures the moment of his instant inexplicable vanishing An audacious bank robbery goes seriously wrong four cops are gunned down a TV news helicopter is shot and spins crazily out of the sky triggering a disastrous cascade of events that ricochet across twenty different lives over the course of just thirty six hours Nick Kavanaugh a cop with a dark side investigates Soon he and his wife Kate a distinguished lawyer from an old Niceville family find themselves struggling to make sense not only of the disappearance and the robbery but also of a shadow world where time has a different rhythm and where justice is elusive Something is wrong in Niceville where evil lives far longer than men do Compulsively readable and populated with characters who leap off the page Niceville will draw you in excite you amaze you horrify you and when it finally lets you go make you sorry you have to leave Read the first thirty five pages Find out why Harlan Coben calls Carsten Stroud the master of the nerve jangling thrill ride Now with an excerpt from Carsten Stroud's next book The Homecoming Seasonal Portions Elizabeth Clayton, 2013-07 Elizabeth s poetry is in sum a collection of worded pictures of her sparing with illness sensitivities in relationships and of being jousting with philosophical principles as they impinge on her sensibilities and intuitiveness within the milieu of Bipolar perception The resulting dissonance within bountiful periods of joy in creating she finds to some degree a contentment perhaps resignation but surely a lighted despair in what she has come to view as the feast of life where she wishes to come to table often and long

of finding out who we really are That is the impossible feat I have given this poor creature V Virom and each of us with him The proof of the pasta is always in the tasting So says the author at the beginning of his book as he invites the reader on a detective story offering a beautifully written book with a rather remarkable synthesis of modern thinking one that builds from the ground of existence alone to a spirituality both secular and sacred That single paragraph on the cover of the book says what needs to be said it seems to me When I thought about this further and longer requested description of the book for the web site T S Eliot came to mind I am referring to the time when he was asked what his poem Prufrock was about and kindly replied Read the poem I do think he made a valid point because asking for a description of a book is the same when you think about it Shouldnt a person rather be reading the book itself At the same time I certainly can understand a person wanting to get a feel for the book before purchasing it and since you dont have the book to handle and page through to do that which I myself always do to see if there is going to be a love affair between the book and me I will give the viewer some of the Overture at the beginning of my book as an overture here as well hopefully to help accomplish the tangential absence Call it virtual foreplay if you want First Review From the Free Venice Beachhead News June 2004 Book Review QUEST A SEARCH FOR A SOUL MODERNKIND by Vincent Coppola Reviewed by Steve Goldman a former editor for Encyclopedia Britannica With great passion yet without a scintilla of mawkish sentimentality Coppola here makes the strong compelling case for love as the direct and primary implication of human consciousness That would be laudable by itself but these are not merely the pleasant musings of a decent well intentioned person This is and it is astounding tightly reasoned philosophy based on acute astute observation and profound and powerful argument Building on Descartes whom he explicitly reverses on the fundamental matter of proof of personal experience and Kant who seems indispensable to all who came after Coppola emerges with a distinctive and compassionate American existentialism that is unlike anything heretofore With strongly grounded links to modern cosmology evolutionary theory and sheer phenomenology of consciousness in space time Coppola delivers a ringing statement of free will so sorely needed in this era of burgeoning biological reductionist determinism This in turn yields a ringing adduction of the ontological primacy of self with commensurately devastating attacks on any variety of teeny bopping reductionism chemical biological physical or psychological and as well on any religio philosophical tradition usually Asian which explicitly denies or tries to eradicate the self I myself exist and I can love is the rigorously derived powerfully demonstrated theorem which is the first principal here What is more the revolutionary optional theology Quest proposes seems to at last settle that huge and perennial question for contemporary times Additionally and astonishingly and with philosophical deftness and gracious style Coppolas secular Christology evinces sacred humanitarian values again so needed in this era Coppola is a highly trained professional philosopher a prodigiously well read and deeply thoughtful theorist and analyst whose similarity to the preponderant mentality in his field is only superficial That is because Vincent V Virom is a philosopher in the all but abandoned grand tr Hemingway and Pound John Cohassey, 2014-07-11 Unique
