Jervis, 1893      **A General Dictionary of Painters** Matthew Pilkington, 1852      Art Theory and Criticism Sally Everett, 1995-01-15 Arranged chronologically the essays in this book each brilliantly introduced by the editor deal with the way art and culture interact in modern times Each author focuses on one aspect of modern art and its relation to culture by analyzing questioning or refuting the ideas about art that people just assume are true The essays are also grouped into one of four different models used by art theorists today the formalist in which the works of art describe the processes of making art the avant garde art that threatens the status quo the contextualist in which art can exist only in a specific situation or context and the post modernist stating that art is not completely detached from popular culture

How Divine Images Became Art tells the story of the parallel discovery of Russian medieval art and of the Italian primitives at the beginning of the twentieth century While these two developments are well known they are usually studied in isolation Tarasov s study has the great merit of showing the connection between the art world in Russia and the West and its impact in the cultural history of the continent in the pre war period Drawing on a profound familiarity with Russian sources some of which are little known to Western scholars and on equally expert knowledge of Western material and scholarship Oleg Tarasov presents a fresh perspective on early twentieth century Russian and Western art The author demonstrates that during the Belle poque the interest in medieval Russian icons and Italian primitives lead to the recognition of both as distinctive art forms conveying a powerful spiritual message Formalist art theory and its influence on art collecting played a major role in this recognition of aesthetic and moral value of primitive paintings and was instrumental in reshaping the perception of divine images as artworks Ultimately this monograph represents a significant contribution to our understanding of early twentieth century art it will be of interest to art scholars students and anyone interested in the spiritual and aesthetic revival of religious paintings in the Belle poque
