Social Capital Nan Lin, 2011 *Social Capital* René Dubos, 2017

Leading scholars in the field of social networks from diverse disciplines present the first systematic and comprehensive collection of current theories and empirical research on the informal connections that individuals have for support help and information from other people Expanding on concepts originally formulated by Pierre Bourdieu and James Coleman this seminal work will find an essential place with educators and students in the fields of social networks rational choice theory institutions and the socioeconomics of poverty labor markets social psychology and race The volume is divided into three parts The first segment clarifies social capital as a concept and explores its theoretical and operational bases Additional segments provide brief accounts that place the development of social capital in the context of the family of capital theorists and identify some critical but controversial perspectives and statements regarding social capital in the literature The editors then make the argument for the network perspective why and how such a perspective can clarify controversies and advance our understanding of a whole range of instrumental and expressive outcomes Social Capital further provides a forum for ongoing research programs initiated by

social scientists working at the crossroads of formal theory and new methods These scholars and programs share certain understandings and approaches in their analyses of social capital They argue that social networks are the foundation of social capital Social networks simultaneously capture individuals and social structure thus serving as a vital conceptual link between actions and structural constraints between micro and macro level analyses and between relational and collective dynamic processes They are further cognizant of the dual significance of the structural features of the social networks and the resources embedded in the networks as defining elements of social c Provided by publisher

Causal Effects of Social Capital Yunsong Chen, 2022-10-02 This book presents a series of studies focusing on the role of social capital in the labor market and beyond Using the effect of individual social capital on labor markets as an example this book pays special attention to the origins of and solutions to the endogeneity problem It uses several identification strategies to systematically test for the causal effects of social capital First this book constitutes the first attempt to offer a systematic account of the progress made by social scientists in improving causal inferences into the role of social capital in labor markets Second the book adopts specialized approaches both classical and new toward different sources of endogeneity Incorporating the latest research from outside fields such as economics into sociological research is a small but significant methodological innovation Third in addition to empirical research this book undertakes an innovative exploration of the theory of social capital It creatively explains the dynamic evolution of social capital which helps balance objectivism and subjectivism when analyzing interpersonal actions For sociologists who focus on quantitative research methods and social capital scholars who study Chinese societies and related students this book provides both advanced methods and rich empirical research

Handbook on Inequality and Social Capital Steve McDonald, Rochelle Côté, Jing Shen, 2024-10-03 Building upon the extensive and expansive tradition of research on social capital and inequality this Handbook summarizes current social capital research and showcases cutting edge applications It highlights the major theoretical and methodological advancements in the field and provides a comprehensive review of the diversity of research on social capital and its relationship with the creation and maintenance of different forms of inequality
