Inequality Reexamined Amartya Sen, 1995-03-15 The noted economist and philosopher Amartya Sen argues that the dictum all people are created equal serves largely to deflect attention from the fact that we differ in age gender talents and physical abilities as well as in material advantages and social background He argues for concentrating on higher and more basic values individual capabilities and freedom to achieve objectives By concentrating on the equity and efficiency of social arrangements in promoting freedoms and capabilities of individuals Sen adds an important new angle to arguments about such vital issues as gender inequalities welfare policies affirmative action and public provision of health care and education
