Most parents dread the conversation. They don't know how or when to talk to their kids about S E X. However, the mismanagement of sexuality is so prevalent in our world that understanding what is good and healthy about sex is a great place to start, not just for our kids but for us too. In [How To Talk With Your Kids About Sex](#) Rodney and Traci Wright help parents navigate what it looks like to have an ongoing conversation with their kids based on 10 foundational principles. In many ways, this book is a template for continuous education, communication, and growth in the area of healthy sexuality. **Honest Talk** John Fort, 2019-04-09. A guide for parents of children ages five to eighteen providing a new approach to help children safely navigate the hyper sexual culture we are immersed in. HONEST TALK demonstrates a relational model that helps parents reduce anxiety around conversations about sex with their children. Based on years of work with therapists and pastors across the country, HONEST TALK integrates a Biblical view of God's design for sex with the latest information on what really helps children strive for sexual wholeness. HONEST TALK discusses the primary elements that help children move toward a resilient and healthy sexuality: understanding God's design for sex, emotional awareness, understanding how things like pornography negatively affect us, and developing a parent-child relationship that helps the child grow toward sexual integrity. Then the book walks through what it looks like to have conversations at different ages of childhood that build on each other through the teenage years. Specific topics that parents may have a difficult time knowing how to address, such as thought life, are spelled out in greater detail. Family activities are suggested in each chapter as well as help determining where to begin with your unique child.

Sadusky, 2023-11-03 Winner of a second place award in the spirituality category from the Association of Catholic Publishers One of the most difficult challenges we may face as parents is to have that first talk with our kids You know the one discussing their changing bodies and sex for the first time When do we begin Where do we start How do we do it in a way that makes sure they have the information they need doesn't make them or us feel overwhelming shame and forms them in Catholic teaching In Start Talking to Your Kids about Sex clinical psychologist Julia Sadusky will answer questions you may have and give you the boost of confidence you need as you have foundational conversations with your elementary age children long before they hit puberty As Christians we believe that the body is a blessing and a gift from God and worth protecting from the beginning of life But many parents and educators wait until puberty to begin conversations with kids about sexuality and relationship boundaries We miss opportunities along the way to reinforce their body's goodness like

when young children discover their most intimate body parts for example We might react out of fear and embarrassment because we don't know how to respond calmly Sadusky says we have to be proactive about providing our children a healthy understanding of the goodness of their bodies and offering them ways to respond if someone doesn't respect their boundaries If we don't our discussions about sexuality end up being too little too late By the time puberty hits children will have learned from culture social media and sometimes early experiences of trauma Our failure to engage well in these conversations earlier has significant consequences Start Talking to Your Kids about Sex is one of only a few resources focused on these issues It is organized in a question and answer format making it easy for you to begin with the topic that's most pertinent at the time It will help you identify barriers to these conversations with a child You'll be able to draw from concrete scripts addressing everything from responding to questions about genitalia exploratory play sexual abuse and technology use With each chapter the content will help you grow your courage and practical knowledge This go to resource is structured around the most frequently asked questions Sadusky receives in her clinical practice including What is healthy body exploration Should I make my kids hug strangers How can I help my kids learn to say no when I'm not around What are good house rules and how do I justify them to other adults What do I do if my kids say they had an unwanted sexual experience How should I respond to invitations to sleepovers and overnight trips An appendix offers additional resources for parents While the book is geared toward parents extended family members caregivers mentors mental health professionals and educators also will find the information helpful
