Talking Sexuality New Directions For Child And Adolescent Development:

Talking Sexuality: Parent-Adolescent Communication S. Shirley Feldman, Doreen A. Rosenthal, 2002-10-11

Negotiating sexuality during the adolescent years is a difficult task that can result in health compromising outcomes if poor decisions are made. Experts, parents and teens all believe that parents have an important role in providing sex education to their children and that such communication has the potential to help adolescents make good sexual decisions. However, parents find the task daunting; they often feel ill equipped and teenagers feel uncomfortable and suspect parents of prying into their private lives. The last decade has witnessed important growth in research on family communications about sex and sexuality. This volume critically examines the assumption that parental communication plays an important role in helping children make good sexual decisions and act on them. It expands on earlier reviews by proposing a theoretical framework in a field that has largely been notable for its atheoretical approach by providing methodological alternatives by going beyond the expert novice perspective to address communication from the young person's point of view and by evaluating interventions designed to help parents become better communicators about this difficult, sensitive and complex topic. It also presents new empirical work on the neglected topics of fathers involvement in sex related communications with their children and teen initiated communications by gay youth as they inform their parents about their sexual orientation. This is the 97th issue of the Jossey-Bass series New Directions for Child and Adolescent Development.

The New Latino Studies Reader Ramon A. Gutierrez, 2016-08-23 The New Latino Studies Reader is designed as a contemporary, updated, multifaceted collection of writings that bring to force the exciting, necessary scholarship of the last decades. Its aim is to introduce a new generation of students to a wide ranging set of essays that helps them gain a truer understanding of what it's like to be a Latino in the United States. And while other readers now in print may discuss Mexican Americans, Puerto Ricans, Cubans and Central Americans as distinct groups with unique experiences, this text explores both the commonalities and the differences that structure the experiences of Latino Americans. Timely, thorough and thought provoking, The New Latino Studies Reader provides a genuine view of the Latino experience as a whole.

thinking they insist their own teen children are not sexual but characterize their children's peers as sexually driven and hypersexual. Rather than accuse parents of being in denial, Sinikka Elliott teases out the complex dynamics behind this thinking, demonstrating that it is rooted in fears and anxieties about being a good parent, the risks of teen sexual activity and teenagers' future economic and social status. Parents like most Americans equate teen sexuality with heartache, disease, pregnancy, promiscuity and deviance and want their teen children to be protected from these things. Going beyond the hype and controversy, Elliott examines how a diverse group of American parents of teenagers understand teen sexuality, showing that in contrast to the idea that parents are polarized in their beliefs, parents are confused, anxious and ambivalent about teen sexual activity and how best to guide their own children's sexuality. Framed with an eye to the debates about teenage abstinence and sex education in school, Elliott also links parents' understandings to the contradictory messages and broad moral panic around child and teen sexuality. Ultimately, Elliott considers the social and cultural conditions that might make it easier for parents to talk with their teens about sex, calling for new ways of thinking and talking about teen sexuality that promote social justice and empower parents to embrace their children as fully sexual subjects.

Mothers, Sex, And Sexuality Michelle Walks, Joani Mortenson, Holly Zwalf, 2020-06-01 *Mothers, Sex, And Sexuality* talks about things not normally dared spoken out loud: the interconnectedness and conflict between our parental and sexual selves, the taboo of the sexual mother and why it matters so much to shatter it. What is it about the sexual mother that is incompatible and at times even disturbing? Why are we threatened by maternal sexuality? And what does this tell us about the structures of gender and power that govern our bodies? *Mothers, Sex, And Sexuality* presents a rigorous academic analysis of the myriad ways in which the sexual/maternal divide affects women birthing people and those of us who assume or are ascribed the title mother. We examine the way we as mothers talk to our daughters about sex, the way we talk about sex in a cultural context and the deafening silence around sex in a medical system that overlooks maternal sexuality. We return repeatedly to the impact of both Christianity and Hinduism on the mother as someone to be revered but tightly controlled. We embrace the lost eroticism of mothering and hail

breastfeeding as a sexual maternal practice arguing for a new broader feminist understanding of sexuality We discuss the way fat mothers destabilise the heteronormative maternal model the way kinky queers are reconfiguring the sexual maternal divide through erotic role play and we explore the strange intense and romantic domestic relationship that springs up between mothers and nannies two heterosexual women trapped together in a homoerotic triangulation of need and desire In a titillating climax we revel in the sexual maternal as embodied through performance art poetry installations and comedy disrupting queer readings of bodies as we are invited to both fuck and fuck with the maternal This book boldly provides both a challenge to the patriarchal constraints of motherhood and a racy road map escape route out of the sexual maternal dichotomy
