**Air University Library Index to Military Periodicals**, 1965 **Soft Values of Seaports** E. van Hooydonk, 2007 In present-day society, seaports have a very negative image, which is mainly due to the environmental pressures and pollution risks they cause, the monomaniac capitalist mentality of their operators, the dubious reputation of the shipping industry, the uninspired, strictly utilitarian design of port facilities, and the dehumanisation of port areas. Currently, the erosion of public support for seaports is a major issue in port management and policy.
