Tall Buildings Australian Business Going Up 1945-1970:

A Critical History of Contemporary Architecture Elie G. Haddad, David Rifkind, 2016-12-05 1960 following as it did the last CIAM meeting signalled a turning point for the Modern Movement. From then on architecture was influenced by seminal texts by Aldo Rossi and Robert Venturi and gave rise to the first revisionary movement following Modernism. Bringing together leading experts in the field, this book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010. It consists of two parts: the first section providing a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world. This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects.

Australian Modern Philip Goad, Rowan Wilken, Julie Willis, 2013-06-14 Australian Modern offers a unique pictorial overview of the work of Stephenson Turner. Their buildings signified the vanguard of Australian modernism and represented the results of the most up-to-date research into building designs for health, commerce and industry. The firm's expertise in hospital architecture, for example, earned them an international reputation and for Arthur Stephenson a knighthood and the prestigious RIBA Gold Medal. The sheer quantity and ubiquitous nature of the firm's output from the 1920s to the 1970s has affected the lives of countless numbers of everyday Australians. Landmark buildings in Melbourne include the MCG's Members Stand and Long Room, Jessie McPherson Community Hospital, Mercy Hospital, Freemasons Hospital, St Vincent's Hospital, Royal Banking Chambers of the E S A Bank, Colonial Mutual Life Assurance Building and the Royal Melbourne Hospital. Their Sydney buildings are equally impressive with the United Dental Hospital and the IBM Centre redefining the city's architecture. Stephenson Turner also worked on several prominent projects as far afield as France, United States, New Zealand, Taiwan, Indonesia, Iraq and South Africa. Australian Modern features drawings and photographs taken from the architectural collections of the State Library of Victoria, complemented by essays that explore the ideas and innovations behind the firm's success. Australian Modern is an invaluable record of the modernisation of a nation through design.

Perth Terri-ann White, 2016 Where do you find a city's soul? Where is its pulse, its personality? When we walk across the skin of a city, do we listen for its laugh? Terri-ann White draws together an eclectic group of Perth people in this collection to share their insights on a rapidly evolving city. From an architect's perspective on heritage to a historian's ruminations on Perth's swampy origins, from a walk down streets that don't exist to Noongar place names, from the union movement to public art to criminal Perth to conversational Perth, this book encourages new encounters with the city. Perth: a guide for the curious traverses social, cultural and political spaces as the reader traverses the streets, kindling a sense of curiosity about a city by unearthing buried treasure. This is not a book of nostalgia. It doesn't posit a golden age or list a series of laments. This is a book about continuities and unfolding narratives. Perth situates the present in the past and

illuminates possible futures Perth a guide for the curious is meant to be thumbed through in cafes stuffed into satchels and walked around the city like a tireless companion Perth promises to delight and inspire both visitor and local alike Thoroughly reader friendly in tone commentary organization and presentation Perth A Guide for the Curious is unreservedly recommended for another living in and or anticipating visiting the ever evolving city of Perth Australia Midwest Book Review Wisconsin Bookwatch August 2016 The Travel Shelf Subject Travel Australia [Australia](#) Harry Margalit,2019-11-15 This book tells the story of the architects and buildings that have defined Australia s architectural culture since the founding of the modern nation through Federation in 1901 That year marked the beginning of a search for better city forms and buildings to accommodate the changing realities of Australian life and to express an emerging distinctive and eventually confident Australian identity While Sydney and Melbourne were the settings for many of the major buildings all states and territories developed architectural traditions based on distinctive histories and climates Harry Margalit explores the flowering of these many architectural variants from the bid to create a model city in Canberra through the stylistic battles that opened a space for modernism to the idealism of postwar reconstruction and beyond to the new millennium Australia reveals a vibrant and influential culture of the built environment at its best when it matches civic idealism with the sensuality of a country of stunning light and landscapes [History of Construction Cultures Volume 1](#) João Mascarenhas-Mateus,Ana Paula Pires,2021-08-01 History of Construction Cultures Volume 1 contains papers presented at the 7ICCH Seventh International Congress on Construction History held at the Lisbon School of Architecture Portugal from 12 to 16 July 2021 The conference has been organized by the Lisbon School of Architecture FAUL NOVA School of Social Sciences and Humanities the Portuguese Society for Construction History Studies and the University of the Azores The contributions cover the wide interdisciplinary spectrum of Construction History and consist on the most recent advances in theory and practical case studies analysis following themes such as epistemological issues building actors building materials building machines tools and equipment construction processes building services and techniques structural theory and analysis political social and economic aspects knowledge transfer and cultural translation of construction cultures Furthermore papers presented at thematic sessions aim at covering important problematics historical periods and different regions of the globe opening new directions for Construction History research We are what we build and how we build thus the study of Construction History is now more than ever at the centre of current debates as to the shape of a sustainable future for humankind Therefore History of Construction Cultures is a critical and indispensable work to expand our understanding of the ways in which everyday building activities have been perceived and experienced in different cultures from ancient times to our century and all over the world [Values in Cities](#) James Lesh,2022-09-23 Examining urban heritage in twentieth century Australia James Lesh reveals how evolving ideas of value and significance shaped cities and places Over decades a growing number of sites and areas were found to be valuable by communities and professionals Places perceived to have value were often conserved

Places perceived to lack value became subject to modernisation redevelopment and renewal From the 1970s alongside strengthened activism and legislation with the innovative Burra Charter 1979 the values based model emerged for managing the aesthetic historic scientific and social significance of historic environments Values thus transitioned from an implicit to an overt component of urban architectural and planning conservation The field of conservation became a noted profession and discipline Conservation also had a broader role in celebrating the Australian nation and in reconciling settler colonialism for the twentieth century Integrating urban history and heritage studies this book provides the first longitudinal study of the twentieth century Australian heritage movement It advocates for innovative and reflexive modes of heritage practice responsive to urban social and environmental imperatives As the values based model continues to shape conservation worldwide this book is an essential reference for researchers students and practitioners concerned with the past and future of cities and heritage The Foreword and Chapter 1 Introduction of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license [Vertical Living](#) Julia Gatley, 2014-10-01 In 1946 a group of students and idealists got together to realise their visions for a modern city Over the following half century the Architectural Centre they founded helped to shape the possibilities of modern life in urban New Zealand and profoundly influenced the remaking of the capital city of Wellington More than just an association of architects the Centre furthered education published a magazine Design Review hosted modernist exhibitions in its gallery staged an audacious campaign for political influence called the Project and fought for better planning better design better built environments in Wellington Its members also built a demonstration house but planning was the battle cry Charting these activists and their projects over the years Julia Gatley and Paul Walker in Vertical Living also offer a history of urban Wellington from the 1940s to the 1990s and beyond The book reminds us that in modernist ideology architecture and urban planning went hand in hand with visual and craft arts graphic and industrial design In recovering the multi disciplinary history politics and planning of the Architectural Centre Gatley and Walker begin writing the city back into the history of architecture in New Zealand **Routledge**
