Hurtado, 2005-08-18 This groundbreaking and important book explores how women of different ethnic racial groups conceive of feminism A da Hurtado advances the theory of relational privilege to explain those differing conceptions Previous theories about feminism have predominantly emphasized the lives and experiences of middle class white women A da Hurtado argues that the different responses to feminism by women of color are not so much the result of personality or cultural differences between white women and women of color but of their differing relationship to white men For Hurtado subordination and privilege must be conceived as relational in nature and gender subordination and political solidarity must be examined in the framework of culture and socioeconomic context Hurtado s analysis of gender oppression is written from an interdisciplinary multicultural standpoint and is enriched by selections from poems by Sandra Cisneros Gloria Anzald a Lorna Dee Cervantes and Elba Sanchez and from plays by El Teatro Campesino the United Farm Workers theater group A final chapter proposes that progressive scholarship and especially feminist scholarship must have at its core a reflexive theory of gender oppression that allows writers to simultaneously document oppression while taking into account the writer s own privilege to analyze the

Voicing Chicana Feminisms Aida Hurtado, 2003 Focusing on the voices of young women this book explores the relationship between Chicana feminism and the actual experiences of Chicanas today *Women and Citizenship* Marilyn Friedman, 2005-10-27 The notion of citizenship is complex it can be at once an identity a set of rights privileges and responsibilities an elevated and exclusionary status a relationship between individual and state and more In recent decades citizenship has attracted interdisciplinary attention particularly with the transnational growth of Western capitalism Yet citizenship s relationship to gender has gone relatively unexplored despite the globally pervasive denial of citizenship to women historically and in many places ongoing today This highly interdisciplinary volume explores the political and cultural dimensions of citizenship and their relevance to women and gender Containing essays by a well known group of scholars including Iris Marion Young Alison Jaggar Martha Nussbaum and Sandra Bartky this book examines the conceptual issues and strategies at play in the feminist quest to give women full citizenship status The contributors take a fresh look at the issues going beyond conventional critiques and examine problems in the political and social arrangements practices and conditions that diminish women s citizenship in various parts of the world **Decentering the Center** Uma Narayan, Sandra Harding, Sandra G. Harding, 2000-03-22 The essays in this volume bring to their focuses on philosophical issues the new angles of vision created by the multicultural global and postcolonial feminisms that have been developing around us These multicultural global and postcolonial feminist concerns transform mainstream notions of experience human rights the origins of philosophic issues philosophic uses of metaphors of the family white antiracism human progress scientific progress modernity the unity of scientific method the desirability of universal knowledge claims and other ideas central to philosophy *La enseñanza del español a hispanohablantes* María Cecilia Colombi, Francisco X. Alarcón, 1997 This volume establishes guidelines and sets a foundation for future directions in teaching Spanish to native speakers Leading scholars in the field address key issues faced by this growing segment of students teachers and researchers the realities of the classroom how to teach language through culture whether a standard variety of Spanish exists and whether it should be taught in the classroom A discussion of the status of teaching Spanish to native speakers throughout the U S and recommendations for future action rounds out this important and timely book *Intersectional Chicana Feminisms* Aída Hurtado, 2020-02-11 Chicana feminisms are living theory deriving value and purpose by affecting social change Advocating for and demonstrating the importance of an intersectional multidisciplinary activist understanding of Chicanas Intersectional Chicana Feminisms provides a much needed overview of the key theories thinkers and activists that have contributed to Chicana feminist thought A da Hurtado a leading Chicana feminist and scholar traces the origins of Chicanas efforts to bring attention to the effects of gender in Chicana and Chicano studies Highlighting the innovative and pathbreaking methodologies developed within the field of Chicana feminisms such as testimonio conocimiento and autohistoria this book

through fiction performance and essays They address the secrets inequities and issues they all confront in their daily negotiations with a system that often seeks to subvert their very existence They have to struggle daily not only with the racism that pervades our lives but also with the overwhelming male domination of the macho Chicano and Mexican culture

Knowledge, Difference, And Power Nancy R. Goldberger, 1996-12-10 Ten years ago Mary Belenky Blythe Clinchy Nancy Goldberger and Jill Tarule wrote *Women's Ways of Knowing* a book the New York Times Book Review called a framework for future research on women knowledge and identity In the decade that followed their theory of women's psychology development and ways of knowing has been applied in several fields from the social sciences to the humanities women's studies education psychology and law But even as it was embraced by readers *Women's Ways of Knowing* also became the center of a fierce debate within academic circles Now in fourteen illuminating new essays the original authors and invited contributors explore how the theory introduced in *Women's Ways of Knowing* has developed and shifted over the years and how it has been received applied used and abused The authors and others respond to critics of the original theory The essays also expand the original argument beyond gender and knowing to address the complicating factors of race class and culture
