**Weaving the Past** Susan Kellogg, 2005-09-02 Weaving the Past offers a comprehensive and interdisciplinary history of Latin America s indigenous women While the book concentrates on native women in Mesoamerica and the Andes it covers indigenous people in other parts of South and Central America including lowland peoples in and beyond Brazil and Afro indigenous peoples such as the Garifuna of Central America Drawing on primary and secondary sources it argues that change not continuity has been the norm for indigenous peoples whose resilience in the face of complex and long term patterns of cultural change is due in no small part to the roles actions and agency of women The book provides broad coverage of gender roles in native Latin America over many centuries drawing upon a range of evidence from archaeology anthropology religion and politics Primary and secondary sources include chronicles codices newspaper articles and monographic work on specific regions Arguing that Latin America s indigenous women were the critical force behind the more important events and processes of Latin America s history Kellogg interweaves the region s history of family sexual and labor history with the origins of women s power in prehispanic colonial and modern South and Central America Shying away from interpretations that treat women as house bound and passive the book instead emphasizes women s long history of performing labor being politically active and contributing to even supporting family and community well being

**Comparative Arawakan Histories** Jonathan D. Hill, Fernando Santos-Granero, 2010-10-01 Before they were largely

decimated and dispersed by the effects of European colonization Arawak speaking peoples were the most widespread language family in Latin America and the Caribbean and they were the first people Columbus encountered in the Americas

**Comparative Arawakan Histories** in paperback for the first time examines social structures political hierarchies rituals religious movements gender relations and linguistic variations through historical perspectives to document sociocultural diversity across the diffused Arawakan diaspora      1493 Charles C. Mann, 2012-07-24 NATIONAL BESTSELLER A deeply engaging history of how European settlements in the post Colombian Americas shaped the world from the highly acclaimed author of 1491 Fascinating Lively A convincing explanation of why our world is the way it is The New York Times Book Review Presenting the latest research by biologists anthropologists archaeologists and historians Mann shows how the post Columbian network of ecological and economic exchange fostered the rise of Europe devastated imperial China convulsed Africa and for two centuries made Mexico City where Asia Europe and the new frontier of the Americas dynamically interacted the center of the world In this history Mann uncovers the germ of today s fiercest political disputes from immigration to trade policy to culture wars In 1493 Mann has again given readers an eye opening scientific interpretation of our past unequalled in its authority and fascination      The Devil and Mr Casement Jordan Goodman, 2020-05-05 In September 1910 the human rights activist and anti imperialist Roger Casement arrived in the Amazon to investigate reports of widespread human rights abuses in the vast forests stretching along the Putumayo river There the Peruvian entrepreneur Julio Cesar Arana ran an area the size of Belgium as his own private fiefdom his British registered company operated a systematic programme of torture exploitation and murder Fresh from documenting the scarcely imaginable atrocities perpetrated by King Leopold in the Congo Casement was confronted with an all too recognisable scenario He uncovered an appalling catalogue of abuse nearly 30 000 Indians had died to produce four thousand tonnes of rubber From the Peruvian rainforests to the City of London Jordan Goodman recounts a crime against humanity that history has almost forgotten but whose exposure in 1912 sent shockwaves around the world Drawing on a wealth of original research The Devil and Mr Casement is a story of colonial exploitation and corporate greed with enormous contemporary political resonance

**Freedom in Practice** Moises Lino e Silva, Huon Wardle, 2016-11-25 Freedom is one of the most fiercely contested words in contemporary global experience This book provides an up to date overview from an anthropological perspective of the diverse ways in which freedom is understood and practised in everyday life including the emergent relationships between governance autonomy and liberty The contributors offer a wealth of ethnographic insight from a variety of geographic cultural and political contexts Taken together the essays constitute a radical challenge to assumptions about what freedom means in today s world      **The Social Lives of Forests** Susanna B. Hecht, Kathleen D. Morrison, Christine Padoch, 2014-03-04 Forests are in decline and the threats these outposts of nature face including deforestation degradation and fragmentation are the result of human culture Or are they This volume calls these assumptions into question revealing

forests past present and future conditions to be the joint products of a host of natural and cultural forces Moreover in many cases the coalescence of these forces from local ecologies to competing knowledge systems has masked a significant contemporary trend of woodland resurgence even in the forests of the tropics Focusing on the history and current use of woodlands from India to the Amazon *The Social Lives of Forests* attempts to build a coherent view of forests sited at the nexus of nature culture and development With chapters covering the effects of human activities on succession patterns in now protected Costa Rican forests the intersection of gender and knowledge in African shea nut tree markets and even the unexpectedly rich urban woodlands of Chicago this book explores forests as places of significant human action with complex institutions ecologies and economies that have transformed these landscapes in the past and continue to shape them today From rain forests to timber farms the face of forests how we define understand and maintain them is changing

**Slavery and Utopia** Fernando Santos-Granero, 2018-09-19 In the first half of the twentieth century a charismatic Peruvian Amazonian indigenous chief Jos Carlos Amaringo Chico played a key role in leading his people the Ashaninka through the chaos generated by the collapse of the rubber economy in 1910 and the subsequent pressures of colonists missionaries and government officials to assimilate them into the national society *Slavery and Utopia* reconstructs the life and political trajectory of this leader whom the people called Tasorentsi the name the Ashaninka give to the world transforming gods and divine emissaries that come to this earth to aid the Ashaninka in times of crisis Fernando Santos Granero follows Tasorentsi s transformations as he evolved from being a debt peon and quasi slave to being a slave raider inspirer of an Ashaninka movement against white mestizo rubber extractors and slave traffickers paramount chief of a multiethnic anti colonial and anti slavery uprising and enthusiastic preacher of an indigenized version of Seventh Day Adventist doctrine whose world transforming message and personal influence extended well beyond Peru s frontiers Drawing on an immense body of original materials ranging from archival documents and oral histories to musical recordings and visual works Santos Granero presents an in depth analysis of chief Tasorentsi s political discourse and actions He demonstrates that despite Tasorentsi s constant self reinventions the chief never forsook his millenarian beliefs anti slavery discourse or efforts to liberate his people from white mestizo oppression *Slavery and Utopia* thus convincingly refutes those who claim that the Ashaninka proclivity to messianism is an anthropological invention

**Modern Peru** Paulo Drinot, Alberto Vergara, 2025-09-12 *Modern Peru* offers a sweeping account of Peru s history from the wars of independence to the present day

**Music, Sound, and Documentary Film in the Global South** Christopher L. Ballengee, 2022-11-01 *Music Sound and Documentary Film in the Global South* edited by Christopher L Ballengee represents an important step toward thinking about the production and analysis of the soundscapes of documentary film all while exploring a range of social cultural technological and theoretical questions relevant to current trends in Global South studies Written by a diverse set of authors including filmmakers academics and cultural critics the ten essays in this book provide fresh evaluations of the place of music and sound in

documentary films outside the European American milieu On the whole the authors illuminate how the invention of documentary film was at first a product of the colonialist project Yet over time access to filmmaking technologies led to the creation of documentary films relevant for local communities and national identities In this sense documentary film in the Global South might be broadly defined as a mode of personally or politically mediated storytelling that by one route or another has become a useful and recognizable means of memorializing traumatic histories and critiquing everyday lived experience As the essays in this volume attest close readings of documentary soundscapes provide fresh perspectives on ways of hearing and ways of being heard in the Global South

*Amazonian Geographies* Jacqueline Vadjunec, Marianne Schmink, 2014-07-16 Amazonia exists in our imagination as well as on the ground It is a mysterious and powerful construct in our psyches yet shares multiple trans national borders and diverse ecological and cultural landscapes It is often presented as a seemingly homogeneous place a lush tropical jungle teeming with exotic wildlife and plant diversity as well as the various indigenous populations that inhabit the region Yet since Conquest Amazonia has been linked to the global market and after a long and varied history of colonization and development projects Amazonia is peopled by many distinct cultural groups who remain largely invisible to the outside world despite their increasing integration into global markets and global politics Millions of rubber tappers neo native groups peasants river dwellers and urban residents continue to shape and re shape the cultural landscape as they adapt their livelihood practices and political strategies in response to changing markets and shifting linkages with political and economic actors at local regional national and international levels This book explores the diversity of changing identities and cultural landscapes emerging in different corners of this rapidly changing region This book was published as a special issue of the Journal of Cultural Geography

*Images of Public Wealth or the Anatomy of Well-Being in Indigenous Amazonia* Fernando Santos-Granero, 2015-11-26 What is considered a good life in contemporary societies Can we measure well being and happiness Reflecting a global interest on the topics of well being happiness and the good life in the face of the multiple failures of millennial capitalism Images of Public Wealth or the Anatomy of Well Being in Indigenous Amazonia deliberately appropriates a concept developed by classical economists to understand wealth accumulation in capitalist societies in order to denaturalize it and assess its applicability in non capitalist kin based societies Mindful of the widespread discontent generated by the ongoing economic crisis in postindustrial societies as well as the renewed attempts by social scientists to measure more effectively what we consider to be development and economic success the contributors to this volume contend that the study of public wealth in indigenous Amazonia provides not only an exceptional opportunity to apprehend native notions of wealth poverty and the good life but also to engage in a critical revision of capitalist constructions of living well Through ethnographic analysis and thought provoking new approaches to contemporary and historical cases the book s contributors reveal how indigenous views of wealth based on the abundance of intangibles such as vitality good health biopower and convivial relations are linked to the creation of strong productive and

moral individuals and collectivities differing substantially from those in capitalist societies more inclined toward the avid accumulation and consumption of material goods *Post-frontier Resource Governance* P. Larsen, 2016-01-12 The author presents an anthropological analysis of the regulatory technologies that characterize contemporary resource frontiers He offers an ethnographic portrayal of indigenous rights resource extraction and environmental politics in the Peruvian Amazon

**Mobility and Migration in Indigenous Amazonia** Miguel N. Alexiades, 2009-04-01 Contrary to ingrained academic and public assumptions wherein indigenous lowland South American societies are viewed as the product of historical emplacement and spatial stasis there is widespread evidence to suggest that migration and displacement have been the norm and not the exception This original and thought provoking collection of case studies examines some of the ways in which migration and the concomitant processes of ecological and social change have shaped and continue to shape human environment relations in Amazonia Drawing on a wide range of historical time frames from pre conquest times to the present and ethnographic contexts different chapters examine the complex and important links between migration and the classification management and domestication of plants and landscapes as well as the incorporation and transformation of environmental knowledge practices ideologies and identities *Cocaleros. Violence, drugs and social mobilization in the post-conflict Upper Huallaga Valley, Peru*, 2009 Scoping the Amazon Stephen Nugent, 2016-07-01 The Amazon Indian is an icon that straddles the world between the professional anthropologist and the popular media Presented alternately as the noble primitive the savior of the environment and as a savage dissolute cannibalistic half human it is an image well worth examining Stephen Nugent does just that critiquing the claims of authoritativeness inherent in visual images presented by anthropologists of Amazon life in the early 20th century and comparing them with the images found in popular books movies and posters The book depicts the field of anthropology as its own form of culture industry and contrasts it to other similar industries past and present For visual anthropologists ethnographers Amazon specialists and popular culture researchers Nugent's book will be enlightening entertaining reading A Companion to Latin American Literature and Culture Sara Castro-Klaren, 2022-06-01 Cutting edge and insightful discussions of Latin American literature and culture In the newly revised second edition of *A Companion to Latin American Literature and Culture* Sara Castro Klaren delivers an eclectic and revealing set of discussions on Latin American culture and literature by scholars at the cutting edge of their respective fields The included essays whether they're written from the perspective of historiography affect theory decolonial approaches or human rights introduce readers to topics like gaucho literature postcolonial writing in the Andes and baroque art while pointing to future work on the issues raised This work engages with anthropology history individual memory testimonio and environmental studies It also explores A thorough introduction to topics of coloniality including the mapping of the pre Columbian Americas and colonial religiosity Comprehensive explorations of the emergence of national communities in New Imperial coordinates including discussions of the Muisca and Mayan cultures Practical discussions of global and local

Hecht,2022-12-22 A compelling and elegantly written history of the fight for the Amazon basin and the work of a brilliant but overlooked Brazilian intellectual Times Literary Supplement UK The fortunes of the late nineteenth century s imperial powers depended on a single raw material rubber with only one source the Amazon basin This scenario ignited a decades long conflict that found Britain France Belgium and the United States fighting with and against the new nations of Peru Bolivia and Brazil for the forest s riches In the midst of this struggle the Brazilian author and geographer Euclides da Cunha led a survey expedition to the farthest reaches of the river The Scramble for the Amazon tells the story of da Cunha s terrifying journey the unfinished novel born from it and the global strife that formed the backdrop for both Haunted by his broken marriage da Cunha trekked through a beautiful region thrown into chaos by guerrilla warfare starving migrants and native slavery All the while he worked on his masterpiece a nationalist synthesis of geography philosophy biology and journalism entitled Lost Paradise Hoping to unveil the Amazon s explorers spies natives and brutal geopolitics Da Cunha was killed by his wife s lover before he could complete his epic work once the biography of Da Cunha a translation of his unfinished work and a chronicle of the social political and environmental history of the Amazon The Scramble for the Amazon is a work of thrilling intellectual ambition
