*When Jews and Christians Meet* Jakob J. Petuchowski,2012-02-01 *When Jews and Christians Meet* captures the present state of the Christian Jewish Dialogue in which it is taken for granted that good will has been established and that Christians and Jews have a great deal in common One can now appreciate the basic differences which remain between Judaism and Christianity without fear of giving offense With this assumption a number of Jewish and Christian scholars address several questions For example they ask what the future goals of Judaeo Christian studies should be and how the ecumenical aspirations of leading Christian and Jewish theologians can be translated into practice on a level which can be appreciated by the men and women in the pews of synagogues and churches In addition to such theoretical considerations the volume offers illustrations of how Bible study can be undertaken in both the Hebrew Bible and the New Testament by Jewish and Christian scholars addressing passages hitherto considered controversial with both a commitment to objective scholarship and a rootedness in their respective religious traditions Jeremiahs prophecy about the New Covenant and some of the Apostle Pauls statements about the Jews furnish the material for that joint enterprise     Christianity and Natural Law Norman Doe,2017-07-20 This book compares historical and modern natural law ideas across global Christian traditions and explores their use in church law     **Historical Commentaries on the State of Christianity During the First Three Hundred and Twenty-five Years from the Christian Era** Johann Lorenz Mosheim,1854     **To Work for the Whole People** Mary Christine Athans,2002 An in depth history of the seminary of the Archdiocese of St Paul Minneapolis from the time of its founding by Archbishop John Ireland     **Historical Dictionary of Ecumenical Christianity** Ans Joachim van der Bent,1994-12-01 This historical dictionary covers the major trends in the 20th century ecumenical movement until today It deals with developments in the realms of church unity mission and evangelism laity women in church and society and many other ecumenical subjects It also covers many programs and activities of the World Council of Churches since its inception in 1948 The longer articles survey important theological themes while short articles provide quick reference on a precise question The bibliography is not exhaustive some 50 000 titles have been published since the beginning of this century but very helpful for major bibliographical information The dictionary is particularly strong in American subjects and includes a

great number of ecuminical personalities which cannot be found in other reference works This publication is not only an indispensable tool of research for university and seminary libraries but also for individual persons belonging to whatever Christian church who are interested in knowing more about reflections relations and activities in the several regions of the ecumenical world A helpful description of the most important ecumenical assemblies and conferences is provided To take stock of the past to interpret the present and to look forward into the third millenium of Christian existence are exciting and challenging enterprises
