paradox always stirring and profound Lao Tzu's Tao Te Ching has been inspiring readers since it was written over two thousand years ago. This masterpiece is also one of the most frequently translated books in all of history in part because the multiple meanings of the Chinese characters make it impossible to translate into a Western language in a strictly literal way. For this reason many translations are either too loosely interpretive or are too overloaded with notes thereby losing the clarity of the terse poetry found in the original Chinese. The extraordinary strength of Sam Hamill's translation is that it has captured the poetry of Lao Tzu's original without sacrificing the resonance of the text's many meanings and possible interpretations. The result is a beautiful and deeply meditative rendering one that is a delight to read over and over again. Accompanying Sam Hamill's translation are seventeen Chinese characters brushed by one of the great masters of calligraphy Kazuaki Tanahashi. Hamill provides a comment for each character giving the reader a fuller sense of the richness of the original text and insight into the process of translation itself. Tzu, Laozi, 2013-03-25 This remarkable new translation of the Tao Te Ching by Aaron Brachfeld brings into conversational English the profound understandings of Lao Tzu in a way that is both at once easy to understand and which provides ample opportunity for contemplation and discovery of not only the Way but also about the man who wrote about the Way. Tao Te Ching David Hinton, 2015-06-01 An expert on Chinese poetry and philosophy offers a definitive modern translation of Lao Tzu's Taoist classic considered the most influential spiritual text in human history. Like all of his translations Hinton's translation of the Tao Te Ching is mind opening presenting startling new dimensions in this widely influential text. He shows how Lao Tzu's spirituality is structured around the generative life force and that this system of thought weaves the human into natural process at the deepest levels of being revealing the Tao Te Ching as an originary text in deep feminist and ecological thought. Lao Tzu's Tao Te Ching is not only the single most important text ever composed in China it is probably the most influential spiritual text in human history. In the past virtually all translations of this text have been produced either by sinologists having little poetic facility in English or writers having no ability to read the original Chinese. Hinton's fluency in ancient Chinese and his acclaimed poetic ability provide him the essential qualifications. Together they allow a breathtaking new translation that reveals how remarkably current and even innovative this text is after 2500 years. **Lao-Tzu: Te-Tao**

Ching Robert G. Henricks, 2010-11-24 Lao Tzu's Te Tao Ching has been treasured for thousands of years for its poetic statement of life's most profound and elusive truths. Although the Te Tao Ching is widely read the author's enigmatic style and the less than perfect condition of the Chinese originals make many of its brief poems difficult to understand. So readers of fine literature hailed the discovery in 1973 of two copies of the Te Tao Ching which had been buried in 168 B.C. These manuscripts are more than five centuries older than any others known and they correct many defects of later versions their grammar and vocabulary frequently make the classic easier to understand lost lines are restored as many as three in some poems some sections follow a more logical sequence. Such differences make it necessary to reevaluate traditional

interpretations of the Te Tao Ching and Professor Henricks has done this in an extensive commentary to his excellent new translation In addition Professor Henricks has provided an introduction that explains the basics of Taoism and discusses the many other important finds from Ma want tui

Tao Te Ching, 1994 A collection of Taoist wisdom reputedly written by Lao Tzu
