Pas,2006-01-13 Taoism the set of philosophical teachings and religious practices rooted in the understanding of the Chinese character Tao or The Way was founded by the Chinese philosopher Laozi in the 6th Century BCE whose work the Tao Te Ching The Book of the Way and its Virtue laid the philosophical foundation for the religion s beliefs This volume starts as it should with a detailed chronology of Taoism and its relationship both to China and other teachings The introduction inserts it further in this basic context Then the dictionary section consisting of several hundred cross referenced entries provides a more detailed treatment of significant persons nonpersons gods and demons concepts practices rituals scriptures and schools The bibliography suggests further reading *The Pursuit & Acquisition of Health & Wealth* Gerard Jacobs,2012-04-30 The pursuit and acquisition of health and wealth are part of the worldview that drives Singaporean society It encompasses a strong work ethic in the pursuit to modernise and be a key player in the global economy Health and wealth are defined in terms of an individuals well being in the sense of good health and a continued assurance of material provision and security This worldview stems from a syncretism with non Christian religions that have reconceptualised themselves with the socioeconomic and political goals of Singaporean society Subsequently they continue to be the authentic expression of the noblest longings of people that have become symbiotic with their daily expressions shaping their history and culture The book attempts to show that while Pentecostal and Charismatic Christianity have played a significant role in the growth of contemporary Singaporean churches it has inadvertently presented a gospel that appeals to the deeply embedded dominant religious secular worldview of its society in the context of health and wealth **Mysticism and Alchemy through the Ages** Gary Edson,2012-09-14 An in depth look into the foundations of mysticism and alchemy this book describes both physical and spiritual aspects of the various theories and practices of transformation with attention to the beliefs of Buddhism Christianity Hinduism Islam Judaism Sufism Tantrism Taoism and Yoga The connection between early mystical pursuits and the development of alchemy from ancient China India and Egypt through Moorish Spain and into Latin Europe are illuminated along with the activities of early alchemists The book which is heavily illustrated describes the beliefs experiments and secret messages that drew the believers and dreamers of the world together in search of wealth and immortality Qigong Teachings of a Taoist Immortal Stuart Alve Olson,2002 Master Li Ching yun is reliably chronicled to have lived more than 250 years during which he practiced the Eight Brocades on a daily basis His longevity and personal endorsements attest to the Eight Brocades as the quintessence of qigong practice *Journeys East* Harry Oldmeadow,2004-04-28 Journeys East tells the story of the twentieth century s encounters between
