## **Target Daimler Benz Combat Zone:**

**A History of the Mediterranean Air War, 1940-1945** Christopher Shores, Russell Guest, 2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich s oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany s Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies

**Target Leipzig** Alan Cooper, 2009-11-19 A gripping account of the RAF s attempt to destroy a Messerschmitt factory in 1944 and the carnage and confusion that unfolded on a dark winter night Seventy nine heavy bombers failed to return from the catastrophic raid on the industrial city of Leipzig on the night of February 19 20 1944 Some 420 aircrew were killed and a further 131 became prisoners of war It was at that time the RAF s most costly raid of World War II by far The town was attacked in an attempt to destroy the Messerschmitt factory that was building the famous and deadly Bf 109 fighter The bomber stream flew into what appeared to be a trap It seemed that the Luftwaffe and anti aircraft guns were aware of the intended target and waiting to pounce as soon as the bombers crossed the coast They were subjected to constant attack by night fighters and intense flak until those aircraft that remained clawed their way home and secured relative safety over the North Sea This book analyzes what went wrong Espionage played a part and two bombers collided

shortly after takeoff as did others as they wove their way through enemy searchlights and maneuvered violently to escape Luftwaffe night fighters At the outset poor navigational and meteorological briefings had hindered the bombers attempts to locate the target and confusion reigned The author explains the concept of this third raid on Leipzig and describes the two previous ones in October and December 1943 both of which had been deemed successes He looks at the third raid from every angle including the defending force s and describes the daylight raid that followed on the 20th by the USAAF The book also includes appendices listing all RAF aircraft and crew on the raid route maps and many photographs Battle of Berlin 1943-44 Richard Worrall,2019-09-19 This illustrated study explores in detail the controversial Battle of Berlin RAF Bomber Command s costly brutal attempt to prove that strategic bombing alone could bring an end to World War II Throughout late 1943 into early 1944 an epic struggle raged over the skies of Germany between RAF Bomber Command and the Luftwaffe This campaign had been undertaken by the Commander in Chief Bomber Command Air Chief Marshal Sir Arthur Harris and was baptized The Battle of Berlin The Berlin campaign was a hard desperate slog Struggling against dreadful and bitter winter weather Bomber Command went to Berlin a total of sixteen times suffering increasingly severe losses throughout the winter of 1943 44 in the face of a revitalized German air defence The campaign remains controversial and the jury even today is ultimately undecided as to what it realistically achieved Illustrated throughout with full colour artwork depicting the enormous scale of the campaign this is the story of the RAF s much debated attempt to win the war through bombing alone

**B-24 Liberator Units of the Eighth Air Force** Robert F Dorr,2012-12-20 The B 24 Liberator was built in greater numbers than any other US warplane yet its combat crews live even today in the shadow of the less plentiful but better known B 17 This is their fully illustrated history Accounts of the Mighty Eighth in Europe and indeed many of the books and films that emerged from the greatest air campaign in history often overlook the B 24 even though it was in action for as long as the Flying Fortress and participated in just as many perilous daylight bombing missions Featuring photography and illustrations throughout Robert F Dorr s account of these units is ideal for aviation and World War Two enthusiasts My Tank Is Fight! Zack Parsons,2006 A detailed and witty examination of 20 real inventions from WWII that never saw the light of day Each entry includes full technical details a complete development history in depth analysis one or more illustrations and an acerbic fictionalised account of the invention s success or failure on the battlefield These are the strangest inventions of WWII from a 1000 ton tank to an aircraft carrier made out of ice and for many of them the original illustrations within are the only surviving images of the inspired lunacy they represent **Panther V in Combat** Bob Carruthers,2013 *379th Bombardment Group Anthology, Volume 2*,2000-06 Beretter om den amerikanske 379th Bombardment group s operationer over Europa under 2 verdenskrig i perioden 1942 1945 The Men Who Flew the Heavy Bombers Martin W. Bowman,2022-08-09 Martin Bowman s considerable experience as a military historian has spanned over forty years during which time he has amassed a wealth of material on the participation by RAF and Commonwealth and US 8th and 15th Air

Force crews in the series of raids on the cities and oil transportation and industrial targets in the Third Reich culminating in Round the Clock bombing by the RAF operating at night on the largely forgotten Stirling the gamely Halifax and ultimately the more successful Lancaster and the US 8th Air Force B 17 Flying Fortress and B 24 Liberator crews by day on a target list so long and wide ranging that it defies the imagination Hundreds of hours of painstaking and fact finding research and interviews and correspondence with numerous airmen and women and their relatives in Britain America and beyond has been woven into a highly readable and emotional outpouring of life and death in combat over the Third Reich as the men of the RAF and Commonwealth and American air forces describe in their own words the compelling gripping and thought provoking narrative of the Combined Bomber Offensive in World War Two which resulted from the RAF nocturnal onslaught and the American unescorted precision attacks on targets throughout the Reich until the P 51 Mustang escort fighters enabled the 8th to assume the mantle of the leading bombing partner in theatre February and March 1945 saw the most intense bombing destruction when Nazi defences were minimal or absent and the war was all but over Final victory in May 1945 came at a high price indeed Half of the U S Army Air Forces casualties in World War II were suffered by Eighth Air Force with in excess of 47 000 casualties with more than 26 000 dead RAF Bomber Command lost 55 573 men killed out of a total of 125 000 aircrew and 8 403 wounded in action while 9 838 became prisoners of war RAF and American bomber crews could therefore be forgiven for thinking they had won a pyrrhic victory one that had taken such a heavy toll that negated any true sense of achievement though if nothing else the human effort spent by RAF Bomber Command and the Eighth Air Force did pave the way for the Soviet victory in the east **Air Force Magazine** ,1995-07 *Jane's Weapon Systems* ,1985

Strategic Air War Against Japan Haywood S. Hansell,1980 Hybrid Factories in the United States Tetsuji Kawamura,2011-07-07 This book assesses the transferability of Japanese style management and production systems to 81 factories in North America owned by Japanese companies All of the book s investigations are based on an original methodology hybridization analysis which quantifies the degree to which features of the Japanese system have been transplanted using an elaborate checklist and scoring system With its wealth of data it should serve as a handy reference volume to anyone interested in the issue of international management and the impact of globalization upon production models *Tuskegee's Heroes* Charlie Cooper Ann Cooper,1996 Now in softcover the uniquely American story of the all Black U S Army Air Corps unit in the segregated U S Army of World War II Based at Tuskegee Air Base in Alabama the 332nd Fighter Group flew their red tailed P 40s and P 51s in North Africa and Europe Despite their own casualties these fighter escorts never lost a bomber during the war in fact bomber groups often requested the Tuskegee Airmen as escorts First published as a hardcover 0 7603 0254 5 *Tuskegee s Heroes* is their story told through first person accounts archival photos and the wonderful color paintings of Tuskegee airman Roy LaGrone *Tuskegee Airmen* Samuel de Korte,2024-04-30 The history of 332nd Fighter Group the only segregated Fighter Group that served in combat during the Second World War

During the Second World War the Tuskegee Airmen had not one but two enemies to overcome the German Luftwaffe and Jim Crow In this book the inspiring history of these men is recounted detailing the struggles the men faced at home and abroad The Tuskegee Airmen were black American pilots who served in the Army Air Corps during the Second World War However before earning their wings these men and women needed to prove themselves to their white countrymen After all the racism prevalent at the time meant that black Americans were deemed unsuitable for the demands of modern war After completing their training and conducting their first combat missions the real enemy was waiting for them the Luftwaffe As a result of their role escorting the bombers as well as their bright red tails the Tuskegee Airmen of 332nd Fighter Group earned the nickname the Red Tails The units served with distinction in several fierce engagements such as the 99th Fighter Squadron who fought in the skies over Anzio on 27 and 28 January 1944 and the 332nd Fighter Group who earned a Distinguished Unit Citation for its mission to Berlin on 24 March 1945

**The Bombers and the Bombed** Richard Overy,2014-02-20 The ultimate history of the Allied bombing campaigns in World War II Technology shapes the nature of all wars and the Second World War hinged on a most unpredictable weapon the bomb Day and night Britain and the United States unleashed massive fleets of bombers to kill and terrorize occupied Europe destroying its cities The grisly consequences call into question how moral a war the Allies fought The Bombers and the Bombed radically overhauls our understanding of World War II It pairs the story of the civilian front line in the Allied air war alongside the political context that shaped their strategic bombing campaigns examining the responses to bombing and being bombed with renewed clarity The first book to examine seriously not only the well known attacks on Dresden and Hamburg but also the significance of the firebombing on other fronts including Italy where the crisis was far more severe than anything experienced in Germany this is Richard Overy s finest work yet It is a rich reminder of the terrible military technological and ethical issues that relentlessly drove all the war s participants into an abyss
