Tarot and Psychology Arthur Rosengarten,2000-04-07 What A Clinical Psychologist Espousing Tarot Cards Dr Arthur Rosengarten in Tarot and Psychology Spectrums of Possibility does just that He explains Tarot to those who may want to learn to use it properly for the greatest good individuals who desire greater spirituality in their lives including the benefits of psychological insight and depth without the baggage of affiliation that invariably accompanies any single set of beliefs Tarot they will soon find operates on many levels of profound meaning from a purely non affiliated platform in the truest sense

Tarot makes accessible to awareness a full spectrum of psychological and spiritual possibility with little preference for its user's qualifications or beliefs. Rather magically one might say Tarot captures the heartbeat of experience. This fact alone should make the deck of human possibility immediately relevant to helping professionals who deal with the heartbeats of experience daily. The use of Tarot as an oracle for creating awareness and gaining insight into particular symptoms, problems or questions i.e. Tarot divination is often mentioned as an afterthought alongside other meditational exercises and alternative spread configurations. Yet today the vast majority of individuals who have discovered the wonders and mysteries of Tarot have done so through experiences of divination. Card reading without a doubt is Tarot's most beguiling and potentially beneficial enterprise. Why dance around the magic? For Tarot to continue to evolve into the 21st century and beyond it must have a stronger application emphasis that is it must be relevant, accessible and meaningful to the changing contours of people's lives. It must resonate with all who seek greater meaning, creativity and awareness, not simply with small segments of the waning New Age. Tarot and Psychology provides an innovative new approach for understanding the psychological and spiritual possibilities of human experience. **Beginner's Tarot** Kathleen McCormack, 2011-08-01. With clear explanations and simple instructions, this book will show you how to lay out the cards and decode the symbolism of each card and card combination. Tarot cards reveal the deeper states of mind, unspoken desires, inner strength and self-imposed limitations. In other words, the spiritual and moral progression of a person's journey through life. Tarot readings can be constructive and promote positivity. When you learn to read Tarot, you can help others explore their feelings and futures as well. Tarot is an ancient form of divination and this book delves into its exciting history. Readers can learn different styles of reading and the definitions of each card, and an index makes it simple to navigate through the book. This full-color paperback instructional book is accompanied by a full set of 78 Tarot cards.

The famed magician Illuminari is dead and his greatest illusion has died with him. Dark forces now seek the Engine of Armageddon, the ancient sentient doomsday weapon that Illuminari hid amongst the stars. Enter Percival Gynt, accountant and part-time hero, whose quest to find the Engine before it falls into the wrong hands may be our universe's last best hope for survival. It is a quest that will take him from the highest reaches of power to the lowest pits of despair and through every manner of horror and absurdity between. But beware. This accountant has a secret. A secret that may damn us all. Reads like postmodern Douglas Adams. Publishers Weekly equal parts goofiness and grandeur.
