alchemy Centering Prayer and Rebirth in Christ on the Tree of Life Kess Frey, 2013-10-15 This unique book draws on the secret wisdom of Israel Qabalistic Tree of Life to describe the soul's inner purification healing and rebirth in Christ rooted deep in the mysterious process and inner silence of non conceptual contemplative prayer Prayer in secret Matt 6:6 is prayer in the unconscious Using the Tree of Life as a map of universal creation and the individual soul Macrocosm and microcosm Centering Prayer and Rebirth in Christ offers a detailed and revealing look into the hidden workings of the Spirit in the soul's inner depths When read slowly and thoughtfully this book elevates the mind offering what is for most of us a new vision of our evolving life in Christ and Christ in us The essence of Centering Prayer is consenting to God's presence and action in us and in our life The work of the Spirit in us aims to bring us from the limitations and disappointments of our false self over identification with the separate self sense of ego and its ill conceived desires into the fulfillment of our true self as a spiritual being As the false self's obstacles are removed by the divine action which needs our willing consent and cooperation our growing freedom to consent becomes cause for increasing peace and joy in the soul This is a gift of divine love that brings us step by step into the fullness of our life in Christ which is a continuing rebirth into the limitless light life and love of the divine consciousness The intended purpose of Centering Prayer's conceptual background is to support the actual practice of non conceptual contemplative prayer and the wondrous process of inner spiritual unfolding that Centering Prayer facilitates

Science & Perception Michael Weaver, 2018-02-18 The history of science in the West can be traced back almost 2500 years to a time when science religion and the arts all fell under a single discipline the area of study known as Natural Philosophy or Philosophia Naturalis The philosophers of this time period individuals such as Pythagoras Plato and Euclid literally set the stage for much of modern science developing tools that are still used to this day Despite the large swaths of time that have managed to pass instruments such as number and geometry have remained essentially unchanged as evidenced by the continued publication and translation of texts such as Euclid's Elements While many of the tools used by modern science can be traced back to the Platonic and Neoplatonic schools of thought the current scientific world view is more closely aligned with an altogether different school of thinking Philosophers such as Democritus posited that the objects found within the physical world were actually composed of small discrete parts a world view still held by most of the modern world to this day Few people stop to consider that this perspective the atomistic view of the world is in direct contradiction to the principles espoused by Pythagoras and Plato This book provides a modern interpretation for the Platonic model of the Universe by making use of both dialogue and diagrams the same techniques employed by Plato and Euclid more than 2000 years ago to explain their ideas The Way of Deep Magick Ian Rees, 2024-11-26 An exploration of the art of magic and qabalistic psychology as practiced by Aleister Crowley through the lens of the authors W E Butler and Tom Oloman Aleister Crowley is one of the best known figures in Western Occultism but books about him tend to focus on his life and personality either idealising or demonising him In this groundbreaking book established author of the occult Ian Rees focuses instead on

Crowley's practice of magick tracing its roots back to ancient Egypt and considering his radical simplification of the Qabalah called the Naples Arrangement Rees also explores the ways in which Crowley brought teaching from Buddhism Taoism and Advaita Vedanta into western practice Particular attention is given to Crowley's novel Moonchild which is at its core a guide to the practice of deep magick and introduces readers to the figure of Simon Iff who is Crowley's image of the Master Magickian The Way of Deep Magick explores Crowley's inspirational works The Book of the Law and The Holy Books unearthing the magical formulae found within them It also looks at Crowley's central practice of the Mass of the Holy Ghost These works are linked to the traditions of the Divine Name and the ancient tradition of the Tree and the Fountain the Moon and the Mountain Central to the book is the communion with the mysterious presence of the Holy Guardian Angel which leads us through the reactive and restrictive patterns of the past establishes us in pure presence and enables us to bridge between dualistic existence and the experience of non dual states of consciousness which unite Love Will and the simple and direct experience of Being The book concludes by considering the mystery of embodying the generative star of will and uniting with and being upheld by the serpent of deep imagination or in other words becoming the Servant of the Star and Snake
