Dalton, 2016-03-29 The Gathering of Intentions reads a single Tibetan Buddhist ritual system through the movements of Tibetan history revealing the social and material dimensions of an

ostensibly timeless tradition By subjecting tantric practice to historical analysis the book offers new insight into the origins of Tibetan Buddhism the formation of its canons the emergence of new lineages and ceremonies and modern efforts to revitalize the religion by returning to its mythic origins The ritual system explored in this volume is based on the Gathering of Intentions Sutra the fundamental root tantra of the Anuyoga class of teachings belonging to the Nyingma Ancient school of Tibetan Buddhism Proceeding chronologically from the ninth century to the present each chapter features a Tibetan author negotiating a perceived gap between the original root text the Gathering of Intentions and the lived religious or political concerns of his day These ongoing tensions underscore the significance of Tibet's elaborate esoteric ritual systems which have persisted for centuries evolving in response to historical conditions Rather than overlook practice in favor of philosophical concerns this volume prioritizes Tibetan Buddhism's ritual systems for a richer portrait of the tradition

Oral and Literary Continuities in Modern Tibetan Literature Lama Jabb, 2015-06-10 This is the first book length study to appear in English on the literary cultural and political roots of modern Tibetan literature While existing scholarship on modern Tibetan writing takes the 1980s as its point of birth and presents this period as marking a rupture with traditional forms of literature this book goes beyond such an interpretation by foregrounding instead the persistence of Tibet's artistic past and oral traditions in the literary creativity of the present While acknowledging the innovative features of modern Tibetan literary creation it draws attention to the hitherto neglected aspects of continuity within the new This study explores the endurance of genres styles concepts techniques symbolisms and idioms derived from Tibet's rich and diverse oral art forms and textual traditions It reveals how Tibetan kavya poetics the mgur genre life writing the Gesar epic and other modes of oral and literary compositions are referenced and adapted in novel ways within modern Tibetan poetry and fiction It also brings to prominence the complex and fertile interplay between orality and the Tibetan literary text Embracing a multidisciplinary approach drawing on theoretical insights in western literary theory and criticism political studies sociology and anthropology this research shows that alongside literary and oral continuities the Tibetan nation proves to be an inevitable attribute of modern Tibetan literature

The Crystal Mirror of Philosophical Systems Blo-bzang-chos-kyi-nyi-ma (Thu'u-bkwan III), 2009-04 The Crystal Mirror of Philosophical Systems by Thuken Losang Ch kyi Nyima 1737-1802 is probably the widest ranging account

of religious philosophies ever written in pre modern Tibet Thuken was a cosmopolitan Buddhist monk from Amdo Mongol by heritage Tibetan in education and equally comfortable in a central Tibetan monastery or at the imperial court in Beijing Like most texts on philosophical systems his Crystal Mirror covers the major schools of India both non Buddhist and Buddhist but then goes on to discuss in detail the entire range of Tibetan traditions as well with separate chapters on the Nyingma Kadam Kagy Shij Sakya Jonang Geluk and B n Not resting there Thuken goes on to describe the major traditions of China Confucian Daoist and Buddhist as well as those of Mongolia Khotan and Shambhala The Crystal Mirror is unusual too in its concern not just to describe and analyze doctrines but to trace the historical development of the various traditions All this makes the Crystal Mirror an eloquent erudite and informative textbook on the religious history and philosophical systems of an array of Asian cultures and provides evidence that serious and sympathetic study of the history of religions has not been a monopoly of Western scholarship
