*Bitter Tastes* Donna M. Campbell, 2016-09 Challenging the conventional understandings of literary naturalism defined primarily through its male writers Donna M Campbell examines the ways in which American women writers wrote naturalistic fiction and redefined its principles for their own purposes *Bitter Tastes* looks at examples from Edith Wharton Kate Chopin Willa Cather Ellen Glasgow and others and positions their work within the naturalistic canon that arose near the turn of the twentieth century Campbell further places these women writers in a broader context by tracing their relationship to early film which like naturalism claimed the ability to represent elemental social truths through a documentary method Women had a significant presence in early film and constituted 40 percent of scenario writers in many cases they also served as directors and producers Campbell explores the features of naturalism that assumed special prominence in women s writing and early film and how the work of these early naturalists diverged from that of their male counterparts in important ways

*Sandoz Studies, Volume 2*

Renée M. Laegreid, 2024-11

Mari Sandoz's *The Battle of the Little Bighorn* encouraged a change in how Americans viewed this infamous fight. By the mid-twentieth century, a towering Custer myth had come to dominate the national psyche as a tale that confirmed national exceptionalism and continental destiny. Sandoz set out to dismantle this myth in an intimate account of the battle, told from multiple perspectives. Although the resulting book received mixed reviews at the time, it has emerged through the decades as a visionary reinterpretation of the battle and a literary masterpiece. Decades in the making, *The Battle of the Little Bighorn* was the renowned western writer's last book published after her death in 1966. The scholarly essays in this collection contextualize Sandoz's work in the moment of its writing, situating her treatment of the past within the pivotal moments of her present. The essays address her incorporation of contemporary issues such as the Vietnam War, sensory history, gender study, recentering the Native perspective, environmentalism, and Sandoz's personal challenge to completing her last book. The innovative insights into Sandoz's perspective of the Battle of the Little Bighorn bring the historical acts involved and her treatment of the site in which they occurred into the twenty-first century.
