Sir Richard Westmacott Sculptor:

Sir Richard Westmacott, Sculptor Marie Busco,1994 The first full length study of the nineteenth century sculptor Sir Richard Westmacott *The Sculptor Sir Richard Westmacott (1775-1856)* Marie F. Busco,1990 **Library of the Late Sir Richard Westmacott, R.A., and Professor of Sculpture** Sotheby's (Firm),1857 **Public Sculpture of Staffordshire and the Black Country** George Thomas Noszlopy,Fiona Waterhouse,2005-01-01 The Black Country is an area historically known as the cradle of the Industrial Revolution a thriving regioin built around deep coal seams conjuring up images of fiery red furnaces by night and black sooty citadels by day Yet today the resource rich region also features many striking public sculptures This volume provides a comprehensive catalog to all of the historic sculptures and public monuments in Staffordshire and the Black Country George Noszlopy and Fiona Waterhouse catalog each individual sculpture in detail including information about the sculptor the sculpture s historical and artistic significance the commissioning agent and the date of installation The volume also features 350 black and white photographs that document the diverse and rich beauty of the region s public monuments The ninth volume in the widely acclaimed award winning Public Sculpture of Britain series Public Sculpture of Staffordshire and the Black Country is an invaluable resource for British historians art scholars and travelers alike *"The British School of Sculpture, c.1760-1832 "* Sarah Burnage,2017-07-05 The British School of Sculpture c 1760 1832 represents the first edited collection exploring one of the most significant moments in British art history returning to centre stage a wide range of sculpture considered for the first time by some of the most important scholars in the field Following a historical and historiographical introduction by the editors situating British sculpture in relation to key events and developments in the period and the broader scholarship on British art more generally in the period and beyond the book contains nine wide ranging case studies that consider the place of antique and modern sculpture in British country houses in the period monuments to heroes of commerce and the Napoleonic Wars the key debates fought around ideal sculpture at the Royal Academy the reception of British sculpture across Europe the reception of Hindu sculpture deriving from India in Britain and the relationship of sculpture to emerging industrial markets both at home and abroad Challenging characterisations of the period as neoclassical the volume reveals British sculpture to be a much more eclectic and various field of endeavour both in service of the state and challenging it and open to sources ranging from the newly arrived Parthenon Frieze to contemporary print culture *British Sculpture and the Company Raj* Barbara S. Groseclose,1995 The British Raj a Sanskrit based word meaning dominion or empire which has taken on a wholly Victorian flavor as a result of popular films and books actually began in piecemeal fashion when the East India Company developed settlements in Madras Calcutta and Bombay during the seventeenth century As these small enclaves grew into cities the British tried hard to give them the look and feel of the country they had left behind Barbara Groseclose examines British public statuary and church monuments in India from the standpoint of its function in regard to the British themselves Arguing that doubts and anxieties

as well as assumptions about their own place in Indian life bear strongly on the roles and achievements for which the British sought or received commemoration she analyzes the British self characterizations of victor administrator scholar and benefactor in sculptural imagery Her close scrutiny of these largely forgotten works of art reveals the crucial part they played in helping the British to explain and justify empire to themselves But the author s sense of the inherently ambivalent nature of the colonizer colonized relationship prevents this book from becoming simply a platform for the indictment of imperialists or for an insistence on the wholesale victimization of their subjects Rather Groseclose discerns in this art some of the complicated emotional undertones simultaneously shaping and destabilizing the attempted economic and intellectual domination of India BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
