Song Leah Alvord,2011-09-12 Beauty Grace Song The three core traits that make up the Sirens Traits that create chaos and tragedy wherever they go with every move that they make To lose the effect they are forced to give up its cause their song A pact was forged centuries ago in an agreement to stop singing A pact that continues to be broken Crevan is the name the three Sirens take when they move to Florence Oregon as they once more try to escape what they are Ariana is the eldest and most beautiful Siren sister Her entire purpose in life is to care for her sisters A purpose that continuously washes away who she really is Shae is the middle Siren and flaunts her differences in any way possible with little to no restraint It is she that possesses the most grace and charm of the three Both of which she uses to have a good time as often as possible Kalina is the youngest sister with a tendency to screw up Of the three traits cursed upon the Sirens hers is the most potent and the most dangerous for she has the greatest song A song that pulses through her very blood and tests her control with each and every breath Florence was another stop in their world Another place to call home for no longer than eight years if they were lucky It was never meant to be more than a place to recover from the last fall But Florence has more in store for the Sirens than they could have possibly foreseen Once more Kalina finds herself flirting with disaster when she befriends William James A human male intent on gaining some form of satisfaction from the enigmatic creature he has found Inevitably Kalina finds herself falling for William and her entire nature changes because of it But her love is a betrayal in itself Furious her sisters are determined to do whatever they must in order to protect themselves Now Kalina must fight the entire world in order to keep the one man who has become absolutely vital to her own survival **Siren Song** Stephanie Draven,2011-01-01 When

Chloe Karras sings she knows that no one can resist her sensual allure except for the sexy naval officer seemingly immune to her voice But Captain Alex Shore is just the man she wants to take home after her performance until he tells her what she thought were imagined powers are real and dangerous Alexandros knows firsthand how seductive sirens are as well as their potential to destroy Yet the former sea soldier feels a powerful attraction to the beautiful rock singer that goes beyond her

Cogito and the Unconscious Slavoj Zizek,1998-04-08 The Cartesian cogito the principle articulated by Descartes that I think therefore I am is often hailed as the precursor of modern science At the same time the cogito s agent the ego is sometimes feared as the agency of manipulative domination responsible for all present woes from patriarchal oppression to ecological catastrophes Without psychoanalyzing philosophy Cogito and the Unconscious explores the vicissitudes of the cogito and shows that psychoanalyses can render visible a constitutive madness within modern philosophy the point at which I think therefore I am becomes obsessional neurosis characterized by If I stop thinking I will cease to exist Noting that for Lacan the Cartesian construct is the same as the Freudian subject of the unconscious the contributors follow Lacan s plea for a psychoanalytic return to the cogito Along the path of this return they examine the ethical attitude that befits modern subjectivity the inherent sexualization of modern subjectivity the impasse in which the Cartesian project becomes involved given the enigmatic status of the human body and the Cartesian subject s confrontation with its modern critics including Althusser Bataille and Dennett In a style that has become familiar to i ek s readers these essays bring together a strict conceptual analysis and an approach to a wide range of cultural and ideological phenomena from the sadist paradoxes of Kant s moral philosophy to the universe of Ayn Rand s novels from the question Which if any is the sex of the cogito to the defense of the cogito against the onslaught of cognitive sciences Challenging us to reconsider fundamental notions of human consciousness and modern subjectivity this is a book whose very Lacanian orthodoxy makes it irreverently transgressive of predominant theoretical paradigms Cogito and the Unconscious will appeal to readers interested in philosophy psychoanalysis cultural studies and theories of ideology Contributors Miran Bozovic Mladen Dolar Alain Grosrichard Marc de Kessel Robert Pfaller Renata Salecl Slavoj i ek Alenka Zupancic

Thresholds: Rethinking Spirituality Through Music Marcel Cobussen, 2017-07-05 In *Thresholds* Marcel Cobussen rethinks the relationship between music and spirituality The point of departure is the current movement within contemporary classical music known as New Spiritual Music with as its main representatives Arvo P John Tavener and Giya Kancheli In almost all respects the musical principles of the new spiritual music seem to be diametrically opposed to those of modernism repetition and rest versus development and progress tradition and familiarity versus innovation and experiment communication versus individualism and conceptualism tonality versus atonality and so on As such this movement is often considered as part of the much larger complex called postmodernism Joining in with ideas on spirituality as presented by Michel de Certeau and Mark C Taylor Cobussen deconstructs the classification of the spiritual dimensions of music as described above *Thresholds* presents an idea of spirituality in and through music that counters strategies of exclusion and mastering of alterity and connects it to wandering erring and roving Using the philosophy of Martin Heidegger Georges Bataille Jean Fran s Lyotard Jacques Derrida and others and analysing the music of John Coltrane the mythical Sirens Arvo P and The Eagles to mention a few Cobussen regards spirituality as a non concept that escapes categorization classification and linguistic descriptions Spirituality is a topological non discursive and a manifestation of otherness And it is precisely music or better listening to music that induces these thoughts by carefully encountering analysing and evaluating certain examples from classical jazz pop and world music it is possible to detach spirituality from concepts of otherworldliness and transcendentalism *Thresholds* opens a space in which spirituality can be connected to music that is not commonly considered in this light thereby enriching the ways of approaching and discussing music In orde *Early Twentieth-century Continental Philosophy* Leonard Lawlor, 2012 *Early Twentieth Century Continental Philosophy* elaborates the basic project of contemporary continental philosophy which culminates in a movement toward the outside Leonard Lawlor interprets key

texts by major figures in the continental tradition including Bergson Foucault Freud Heidegger Husserl and Merleau Ponty to develop the broad sweep of the aims of continental philosophy Lawlor discusses major theoretical trends in the work of these philosophers immanence difference multiplicity and the overcoming of metaphysics His conception of continental philosophy as a unified project enables Lawlor to think beyond its European origins and envision a global sphere of philosophical inquiry that will revitalize the field

On Literature J. Hillis Miller, 2003-09-02 Debates rage over what kind of literature we should read what is good and bad literature and whether in the global digital age literature even has a future But what exactly is literature Why should we read literature How do we read literature These are some of the important questions J Hillis Miller answers in this beautifully written and passionate book He begins by asking what literature is arguing that the answer lies in literature's ability to create an imaginary world simply with words On Literature also asks the crucial question of why literature has such authority over us Returning to Plato Aristotle and the Bible Miller argues we should continue to read literature because it is part of our basic human need to create imaginary worlds and to have stories Above all On Literature is a plea that we continue to read and care about literature

Saving America from Socialism Jim DeMint, 2020-07-07 When Jim DeMint wrote Saving Freedom We Can Stop America's Slide into Socialism in 2009 he believed an energized and informed America could put the brakes on the progressive bus driven by big government backers What couldn't be foreseen was the devastating effect Barack Obama would have on our Constitutional Republic in eight years Since then an embedded force of anti Constitutionalists in every branch of the federal government have worked virulently to crush any attempt to reorient the United States to its founding principles In Saving America from Socialism the facts about socialism are the same but after eight years of President Obama and high profile socialists leading the Democratic Party we now have a clearer picture of how socialism will impact our prosperity freedoms and rights America has never been more divided about what it means to be an American and this division is a key goal straight from the Socialist playbook We must have a new strategy for uniting and rescuing our nation from the inevitable decline from Socialist policies This book is your playbook to save America from socialism Thankfully Obama's replacement Donald Trump has provided a clear contrast between the results of socialism versus freedom

The Renewal of Epic V. Knight, 2018-07-17 The Renewal of Epic considers various modes of allusion to Homer in the Argonautica of Apollonius dealing not only with similarities in phraseology but also with thematic and structural resemblances After an introduction two chapters discuss Apollonian techniques in treating repeated Homeric scenes sacrifice shipwreck boxing and battle The central section of the work considers the multiple links between the adventures of the Argonauts and Odysseus wanderings A final chapter explores Apollonius' innovative treatment of the divine both generally and in particular scenes The work shows convincingly that the Argonautica reproduces many of the patterns which have been found in the Iliad and Odyssey It demonstrates the presence of allusion at every level in the poem linking it to its predecessors and acting as an essential interpretative aid to the reader
