

What was
this area
like before
Stonehenge?

Long before the first people built Stonehenge, this area was a busy place. It was a hub of activity, with people coming and going. The area was a meeting place for people from all over the region. It was a place where people came to trade goods and services. It was a place where people came to share their knowledge and experiences. It was a place where people came to build a better life for themselves and their families.

Over 20,000 years old, the skeleton was found in a small, simple grave. It was a place where people came to bury their dead. It was a place where people came to say goodbye to their loved ones. It was a place where people came to find comfort in the face of death.
