Morris, Curtis J. Braukmann, 2012-12-06 The systematic application of behavioral psychology to crime and delinquency was begun only 20 years ago yet it has already contributed significantly to our practical knowledge about prevention and correction and to our general understanding of a pressing social problem In this handbook we review and evaluate what has been accomplished to date as well as what is currently at the leading edge of the field We do so in order to present a clear comprehensive and systematic view of the field and to promote and encourage still more effective action and social policy reform in the future The chapters in this text have been written by professionals who were among the original innovators in applying behavioral psychology to crime and delinquency and who continue to make critical contributions to the field's progress and by a new generation of energetic young professionals who are taking the field in important and innovative directions The contributors have attempted to review and evaluate their areas with critical dispassion to provide thorough but not overly specialized discussion of their material and to draw implications for how research application and social policy might be improved in the future For our part as editors we have tried to foster integration across the chapters and to provide background and conceptual material of our own **Social Work with Children and Families** Martin Brett Davies, 2012-03-20 Social workers are constantly making decisions under pressure How do policy law research and theory influence what they do This important book provides the answers with a crystal clear map of the field of social work with children and families Focused on four major themes family support work child protection adoption and fostering and residential child care and reveals in detail all the challenges that social workers face every day Edited by the highly respected Martin Davies this authoritative and illuminating book argues that the skill of the social worker can have life enhancing consequences for some of the most vulnerable people in society It is an essential investment for students educators and practitioners alike *Current Catalog* National Library of Medicine (U.S.), First multi year cumulation covers six years 1965-70 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), **Residential Child Care in Practice** Smith, Mark, Fulcher, Leon, Peter Doran, 2013-02-13 This highly practical book written by

Leadership in

Residential Child Care Dione Hills, Camilla Child, 2000-04-07 In one enquiry after another there has been a call for an increase in the proportion of qualified staff in residential child care services as one of a range of solutions to the difficulties that have beset the service. Leadership in Residential Child Care compares and assesses courses available for professional social work training and explores the ways that training contributes to the quality of care in the sector. Drawing on an evaluation of the Residential Child Care Initiative the authors examine the dilemmas concerning the provision of qualification training for residential care staff today. They address issues such as the loss of qualified staff from the sector, different models of professional competence that qualification seeks to achieve, the role qualification and training can play in enhancing the status of what is sometimes seen as the Cinderella element in childcare provision. Leadership in Residential Child Care discusses issues of considerable relevance to managers and trainers seeking to maximise the value they derive from the training provided to residential child care staff. The experience of special courses developed under the Residential Child Care Initiative will be of interest to all those concerned with the development of the sector, from those considering the training needs of residential care staff to teachers and tutors in universities and colleges of higher education providing social work qualification programmes.
