Healthy Cities Namir Khan, Willem H. Vanderburg, 2001 Modern cities can be designed to constitute a more supportive environment for a great many activities provide a more livable habitat and reduce the burden imposed on the biosphere They can be made healthier in terms of the definition by World Health Organization and more sustainable by means of new and emerging preventive approaches Healthy Cities focuses on those preventive approaches that can make cities healthier and more sustainable This book as well as the two companion volumes Sustainable Energy and Sustainable Production is the result of a twelve year research project carried out at the Center for Technology and Social Development at the University of Toronto The research findings led to

the development of a new conceptual framework and strategy aimed at converting technological and economic growth into development that would gradually become more sustainable

Research in Education, 1974 **Trends in Postsecondary Education**, 1971 **2014 International Conference on Social Science and Environment Protection (SSEP2014)**, 2014-02-11

This conference promises to be both informative and stimulating with a wonderful program. Delegates will have a wide range of sessions to choose from and will have a difficult time choosing which session to attend. The program consists of invited sessions, technical workshops and discussions covering a wide range of topics in social science including communication, culture, economics, education, finance, law, management, politics, psychology and society. This rich program provides all attendees with the opportunities to meet and interact with one another. We hope that your experience with SSEP2014 is a fruitful and long-lasting one.

The Blackwell Dictionary of Modern Social Thought William Outhwaite, 2008-04-15. Modern social thought ranges widely from the social sciences to philosophy, political theories and doctrines, cultural ideas and movements and the influence of the natural sciences. Provides an authoritative overview of the main themes of social thought. Long essays and entries give full coverage to each topic. Covers major currents of thought, philosophical and cultural trends and the individual social sciences from anthropology to welfare economics. New edition updates about 200 entries and includes new entries, suggestions for further reading and a bibliography of all sources cited within the text.

The 5-year Outlook on Science and Technology, 1981 Working People of California Daniel A. Cornford, 1995-01-01. A wonderful addition to both California social history and U.S. labor history. Not only is it invaluable as a classroom text but it serves as a pathbreaking model for the conceptualization of a multiethnic working class history of the United States. Dana Frank, University of California, Santa Cruz: California's working people have at last found the historians they deserve. Individually the essays in this rich collection are first-rate and together they show to fine advantage the scope and power of the new California labor history. Readers couldn't hope for a better introduction to the subject. David Brody, Emeritus, University of California, Davis: A wonderful addition to both California social history and U.S. labor history. Not only is it invaluable as a classroom text but it serves as a pathbreaking model for the conceptualization of a multiethnic working class history of the United States. Dana Frank, University of California, Santa Cruz.

Structure and Mobility William Hamilton Sewell, 1985-04-26. This book is a sociological portrait of Marseille during the epochal changes of the nineteenth century. Sewell establishes a systematic quantitative description of some of the most important social structures of nineteenth-century Marseille. Although deeply influenced by sociological methods and theories, the volume is written on the basis of readability and simplicity and therefore has much to offer to the historian as well as the sociologist.
