**The Social Thought of Talcott Parsons** Uta Gerhardt, 2016-02-17 The Social Thought of Talcott Parsons offers an insightful new reading of the work of Talcott Parsons keeping in view at once the important influences of Max Weber on his sociology and the central place occupied by methodology which enables us to better understand the relationship between American and European social theory Revealing American democracy and its nemesis National Socialism in Germany as the basis of his theory of society this book explores the debates in which Parsons was engaged throughout his life with the Frankfurt School C Wright Mills and the young radicals among the disobedient student generation as well as economism and utilitarianism in social theory the opponents that Parsons confronted in the interests of humanism In addition to revisiting Parsons extensive oeuvre Uta Gerhardt takes up themes in current research and theory including social inequality civic culture and globalization offering a fascinating demonstration of what the conceptual approaches of Parsons can accomplish today Revealing methodology and the American ethos to be the cornerstones of Parsons social thought this book will appeal not only to those with interests in classical sociology and who wish to fully understand what this classic has to offer but also to those who wish to make sociology answer to the problems of the society of the present **Gandhi in 21st Century** Ratan

Das, 2002 The Social Thought of Max Weber Stephen Kalberg, 2016-04-25 Stephen Kalberg's The Social Thought of Max Weber the newest volume of the SAGE Social Thinkers series provides a concise introduction to the work life and influence of Max Weber considered to be one of three most important founders along with Marx and Durkheim of sociology The book serves as an excellent introduction to the full range of Weber's major themes and explores in detail the extent to which they are relevant today It is ideal for use as a self contained volume or in conjunction with other sociological theory textbooks

Political and Social Thought in Africa Sharawy, Helmi, 2015-03-02 The essays collected together in this book reflect the author's varied experiences in the realms of politics and social struggle he notes that they cannot be separated from his other experiences in his country Egypt over the years These experiences extend from popular culture or folklore through the wider political world of African liberation politics to the Committee for the Defense of National Culture This book is like a long trip through African culture from the 1950s to the beginning of the 21st century These essays will most likely provoke a lot of memories sweet and bitter with maybe the bitter ones as the more lasting The author notes that it appears as if the only relationship that seems to have mattered for a long time for the Egyptians with the rest of Africa was the river Nile which joins the country to ten other countries while a vast desert stands in between Such separation ignores the ancient relations between Pharaonic Egypt and the rest of Africa and the role of Egypt in supporting many liberation movements on the continent The author has set himself some tough questions in this book Is it legitimate today to use race to sub divide the African continent Can this moreover be simply done as if race is ahistorical or an idealistic concept of identities Or are we going to talk about Arabism in Egypt Libya or Maghreb as if it were an identity gained with the advent of the Arabs implying

that these were lands with no people a sort of No Man's Land Or was this a fragile space that could not confront the invading empire Or will Arabism equate with Bantuism or negroism sometimes and Hausa and Swahili cultures at other times These are the types of issues that Helmi Sharawy examines in this very important book Experiences that inform this book began with the author's first encounter in March 1956 with some African youths who were in Cairo for higher studies or as representatives of liberation movements with whom he worked as an intermediary with the Egyptian national state which work left on him an everlasting impression

Welfare and Religion in 21st Century Europe Anders Bäckström, Grace Davie, Ninna Edgardh, Per Pettersson, 2023-04-21 Historically European churches have played a large part in the provision of welfare Responsibility however has gradually shifted to the state a shift that forms an integral part of the process of secularization and one that has been readily accepted by European populations But what happens when the state itself begins to recede a process that is occurring in most if not all European societies for a wide variety of reasons The implications for welfare are considerable not least for the role of the churches which begin to resume the responsibilities previously shed but in new and different ways This book looks at the connections between religion and welfare in Europe exploring in detail eight European societies Finland Norway Sweden England Germany France Italy and Greece The different theological traditions different church state relationships and different welfare regimes are all examined The analysis is based on first hand empirical research which considers not only the changing situation on the ground but attitudes towards this within a range of different constituencies the churches local government and the general public Particular attention is paid to the significance of gender in both the process of change and in attitudes towards this

**Margaret Mead** Kate Maguire, 2015-02-27 This book makes a case for Margaret Mead's contributions to education discourses which in retrospect appear visionary and profoundly democratic non judgemental and transdisciplinary and for their relevance for education today at primary secondary and tertiary levels Mead combined her substantial skills and knowledge as a linguist anthropologist and psychologist to draw attention to the primary role of culture and society in identity formation privileging against sterner perspectives the idea that the conditions that support the emergence of balanced personalities able to contribute to society and to progress themselves as individuals starts with observation of self before that of others This observation of and reflection on self was for her a necessary demonstration of transparency while close observation of others was an act of love much as the artist contemplates his her subject that dissolved negative differences of culture belief and status
